Bicyclists and Dogs.

It frequently happens that a bicyclist would like to drive off an annoying dog, but doesn't want to kill the beast, run the risk of a bullet hitting a bystander, nor attract the attention which a cartridge explosion is certain to do. which a cartridge explosion is certain to do. The dog is consequently encouraged to try his trick on the next rider. A soundless pistol, shooting water, ammonia or other liquid, is now mailed postpaid for 50 cts. in stamps by the Union Supply Co., 135 Leonard St., N. Y. City. One of these will drive off the most victous animal, and still not really injure it. A few drops of ammonia in the eyes, nose or mouth of any animal give it something to think of other than bothering a cyclist. It is a boon to wheelmen and wheelwomen.

Few and Simple.

The wants of most persons are many and complex. Their needs are much fewer and often very simple. If one wishes for peace of mind and any great measure of success in this world, he must learn to reduce his wants as nearly as possible to necessary things. It is not at all essential that a person be rich, but many people wish to be and make haste to be. The result is anxiety and oftentimes loss of integrity, and of his ministers of state to cut grass sonably expected. failure to reach the real needs of one's being; for happiness never lies in satisfaction of our wants, because these ever become greater as we try to satisfy them.

NERVOUS DEPRESSION.

[A TALK WITH MRS. PINKHAM.] A woman with the blues is a very uncomfortable person. She is illogical,

unhappy and frequently hysterical. The condition of the mind known as "the blues," nearly always, with wo-

men, results from diseased organs of generation.

It is a source of wonder that in this age of advanced medical science, any person should still believe that mere force of will and determination will overcome depressed spirits and nervousness in women. These troubles are indications of disease.

Every woman who doesn't understand her condition should write to Lynn, Mass., to Mrs. Pinkham for her advice. Her advice is thorough common sense, and is the counsel of a learned woman of great experience. Read the story of Mrs. F. S. BENNETT, | twenty-nine lives were lost. Westphalia, Kansas, as told in the following letter:

"DEAR MRS. PINKHAM:-I have suffered for over two years with falling, enlargement and ulceration of the womb, and this spring, being in such a weakened condition, caused me to flow for nearly six months. Some time ago, urged by friends, I wrote to you for advice. After using the treatment which you advised for a short time, that terrible flow stopped.

"I am now gaining strength and flesh, and have better health than I have had for the past ten years. I wish to say to all distressed, suffering women, do not suffer longer, when there is one so kind and willing to aid you."

Lydia E. Pinkham's Vegetable Compound is a woman's remedy for woman's ills. More than a million women have been benefited by it.

Probibition Law Fluctuates.

One of the most amusing incidents of the treatment accorded the Maine liquor law in different sections of the State is seen at Bar Harbor, where the enforcement of the law follows the seasons. In the summer, when the visitors from other States who are accustomed to having liquors at home are at the watering place, the bars are allowed to remain open, but when the visitors depart and the population is narrowed down to its usual quota of Yankees the iaw is applied by the municipal officers, and the drougth continues until the birds of passage arrive again in the spring.-Waterville, Maine, Mail.
