CENTRE HALL, PA., THURS. Aug. 11

A prominent politician predicts Dr. Swallow will get 250,000 votes.

For competency, clean, good records, the nominees on the Democratic county ticket are unmatched.

The war being at an end the stamp act's end may be fixed by next congress, over which all will be glad.

Admiral Dewey in bombarding and capturing Manila, on 13th, has the honor of fighting the first and last battle of the war.

The commission to smoothe up the treaty between America and Spain will sit in Paris and may not end its labors before January, next.

The governors general of Cuba and Porto Rico have acknowledged the receipt of the news of the suspension of hostilities between the United States and Spain and announced the carrying out of the orders.

The Maine was worth about four and a half million dollars. Blowing her up cost Spain some 35 battle ships and cruisers worth 50 millions, in addition to her best islands and the expenses of keeping up the war. This was a dear blow-up.

It was entirely amusing how the result of last Saturday's Republican primaries is credited up. The Quay people claimed a victory and so did the anti-Quays. Arnold is claimed as the candidate of Quay and also of the opposite faction. Jack Dale smiles and that settles it as having been a Quay victory.

The Spaniards at Santiago not having time to bury their dead, piled them up, soaked in kerosene, and burned them. Vengeance overtakes the evil doer, finally. This proves true with nations and individuals; men who will wrong and seek seek to injure a fellow man, will find, sooner or later, that vengeance will overtake them.

President McKinley, for the credit of his administration, needs to give secretary Alger an invitation to resign. Neglect, hunger and fevers, are the result of Alger's incompetency and the President erred greatly in not giving him his walking papers weeks ago, thereby saving the lives of many of our brave soldiers.

The unauthorized matter put in Dr. Warren's report amounted to \$65,000! The useless and unauthorized insect matter put into the State College report without the authority of Dr. Atherton, amounts to about the same sum.

All of the Leiter holdings of wheat in this country, as well as that held in joint account in the Northwest, have been sold. On the wheat there was a loss of nearly \$2,000,000 but it was disposed of at the prices at which it was turned over to Armour and Peavey to sell. There is but one more chapter to Joseph Leiter's wheat deal, that is the payment of his indebtedness to commission houses. It is a large amount and is only partially guaranteed by the elder Leiter. So far the Leiters are out over \$10,000,000 on the wheat deal.

It is reported that the Spanish government is going to hold an investigation to determine who is responsible for the disasters. The United States can have no objection. If the inquiry is vigorously and searchingly made it may discover the man who blew up the Maine, thinks the Pittsburg Dispatch.

Yes, and if the search is kept up it will show that a fellow by name of Dewey, out at Manila, and another by name of Schley, down at Santiago, had some connection with Spain's disasters.

A Washington estimate puts the cost of the war up to the signing of the protocol, last week, at \$150,000,000, of which \$95,000,000 has been actually paid out. The total by the war department has been \$65,300,000 and by the navy \$32,700,000. Congress appropriated \$300,000,000 at its late session for war expenses on the basis of carrying on the war to January 1, 1899. A great deal of this money will be absorbed, as war expenses still continue on a large scale, and will be until the military and naval expenditures are cut down by the mustering out process.

Saturday's Republican primaries in this county resulted in a big Arnold-

Quay victory. The fight was a bitter one, and the supposition was that Clem Dale would carry the county over Arnold for congress, and thus it should have been. But floods of money are hard to fight, nor are a great proportion of the "honest voters" boodled early. Col. Reeder, in withdrawing early last week as a candidate for senator, leaving the field to Womelsdorf of boodle legislation fame, evidently saw defeat from afar and let the track clear for Quay's man.

SAMPSON AND SCHLEY. Philad. Ledger: President McKinley has acted upon the rewards to be given the officers of the navy who participated in the operations on the coast of Cuba, and more particularly in the destruction of Cervera's fleet. Both Sampson and Schley have been promoted to Rear Admirals, but Sampson has been promoted eight numbers and Schley only six, so that whereas Schley ranked Sampson in the navy list before the war, Sampson is now advanced ahead of Schley. In other words, Schley compared with Sampson has been degraded. The public, fully informed as it is of all the circumstances of the case, will not approve this action of the President. Sampson was given every opportunity by the Navy Department to distinguish himself and thus earn promotion, but the fortunes of war were against him. He was made an acting Rear Admiral, so that Schley, his superior in rank, was made his subordinate. We may assume that he did his duty and did it well, but that can be said of every officer of the navy including Schley. From the beginning fortune favored Schley, while the Navy Department favored Sampson. It was Schley, not Sampson, who caught Cervera in Santiago harbor, and it was Schley, not Sampson, who was in actual command of the squadron when Cervera undertook to run the blockade and had his ships destroyed.

IN THE SAME FIX This item has been going the round of the Republican papers: "The Republicans of Centre county have a splendid opportunity for carrying the county this fall, as every candidate, with the exception of two, on the Democratic ticket is a resident of Bellefonte."

Some times such a placing of candidates is unavoidable, which is the case this year. But the Democracy of this side, on which the party depends for its majorities, has been unfairly used in the past, in the distribution of offices and discriminated against in advertising patronage from officials forgetful that their election depended upon the votes of Penns valley Democrats. When the party meets defeat occasionally it is for want of fair dealing.

But, the Republican convention on Tuesday, in spite of justice and an opportunity to do so, didn't put a single name on their ticket, not even Charly Long! Then, according to their own logic, quoted above, the Democrats "have a splendid opportunity for carrying the county this fall, as every candidate," with no exception, on the Republican ticket is a resident of the Bellefonte side.

The Dreaded Indian Snake Dance. Indian rumors from the Moki Pueblos, north of Canon Diablo, Arizona, announce that the date for the snake dance this year has been set for Aug. 22. The dance is a prayer for rain, the Moki dwelling upon the desert, where crops are far from certain. It is a nine day ceremony, which for the first eight days is confined to secret rites in the underground devotional chambers of Kivas. On the ninth day a public dance occurs, participated in by the priests of the snake and antelope fraternities, during which live snakes are carried in the mouth and otherwise familiarly handled. About one-third the number of reptiles are poisonous rattlers, which are in no wise deprived of their death-dealing power.

A Hint for Next Winter. A neighboring county has a young man, who by pulling a string while lying in bed starts the kitchen fire and takes another snooze while the tea kettle is nearing the boiling point. At night he puts the shavings and wood in the fire pot and has in front of it a plate of steel with a hole through which protrudes a parlor match. Next to this is a flat file with a string attached, which runs to his bed up stairs. Pulling the string draws the file over the head of the match which ignites the shavings and sets things going without one's getting out of bed.
