G. R. Spigelmyer.

New Goods Coming...

Our buyer is now in Eastern cities purchasing the stock and goods for our large Fall and Winter trade.

Wolf & Crawford.

Affecting the Health.

Do not eat very acid fruit with farinaceous food unless you have a very good digestion.

Hops pillows are a great comfort to nervous people and a headache is often soothed thereby.

Oranges, lemons and limes affect most directly the complexion and are especially good if taken before breakfast.

Early morning exercise is denounced nowadays by the majority of hygienic teachers. At that time, they say, vitality is at its lowest ebb and needs the stimulation of food.

A French physician declares that dyspepsia is often caused by soup. He says it distends the stomach and prevents the digestion of the solids that are eaten after the soup.

An excessively nervous woman, if she has a liking for onions, should gratify it. Two or three eaten with bread and butter before going to bed are a fine sedative.

Ripe peaches are easily digested and are also fattening. Strawberries, containing a larger percentage of iron than any other fruit, enrich the blood.

Typhoid Causes School to Close.

We are informed that Spring Mills and vicinity there are quite a number of typhoid fever cases. The Polkhill school, south of Spring Mills, was closed on this account.

Parlor Stove for Sale.

A parlor stove, late style, and as good as new, can be purchased at a bargain. Call at property of Mrs. Mary A. Dinges, Centre Hall.

"Many have said their children would have died of croup, if Chamberlain's Cough Remedy had not been given," write Kellam & Ourren, druggists, Seaview, Va.

When you call for De Witt's Witch Hazel Salve the great pile cure, don't accept anything else. Don't be talked into accepting a substitute, for piles, for sores, for burns; for sale by Smith & Crawford.

CRACKSMEN AROUND.

Two Safes Blown Open by Robbers Last Week.

A gang of experienced safe breakers have been touching different parts of the county the last week, and have met with varied success in their operations, and so far escaped detection.

At Zion on Tuesday of last week the safe of B. A. Noll & Co., general merchandise, was blown open and a couple dollars in change was all the booty secured. The same night the safe in the general store of H. G. Miller, at Rebersburg, was drilled into on the top and an attempt made to blow it open, but the robbers were not successful.

At Potters Mills on Thursday night the robbers were successful in making a good haul. They forced an entrance into the general store of Thompson & Smith. A hole was drilled in the safe door and filled with powder. The safe was completely wrecked. There were about sixty dollars in the safe which the robbers secured.

Friday night an attempt was made to blow open the safe in Allison Bros. flour mill at Spring Mills, but the gang was evidently frightened away before they had completed their work.

The robbers have evidently moved into other territory and will leave Centre county alone for a while. They left behind them no clues and detection is difficult.

The Boro Water Plant Ready.

The heavy rains last week came to the relief of the new water plant and for once filled the mains all along the line.

Mr. Malone has the new reservoir within a day or two of completion. It is a large basin, four sided, with an outward slope faced with mountain stones in the rough. It is, no doubt, a substantial job after the plans and directions of councilman Riter, as it seems, and the boro officials are likely to accept it as a satisfactory job without any special test, same as with the pipe line, which speaks great confidence in contractor Malone, and we think if any mistake turns up it will barely lie at the contractor's door.

The great flow of water resulting from last week's rains caused a considerable leak in the lower reservoir, but did not affect the filling of the pipes since the rise of the stream fully made up for the leakage.

Foster's Weather.

My last bulletin gave forecasts of the storm wave to cross the continent from 24th to 28th and the next will reach the Pacific coast about 29th, cross the west of Rockies country by close of 30, great central valleys 31st to November 3, eastern states 3d.

Warm wave will cross the west of Rockies country about 29th, great central valleys 31st, eastern states November 2. Cool wave will cross the west of Rockies country about November 1, great central valleys 3, eastern states 5.

Temperature of the week ending November 7 will average below normal in the northern states east of the Rockies, about normal in the southern states and on the Pacific coast.

The first week in November will bring a cold wave to the northern states, and, starting in cool, the same week will bring a wave of high temperature to the southern states.

Swallow Calls Prof. Hamilton Down.

Dr. Swallow, in a speech at Somerset, the other day, said Prof. Hamilton of State College, was a part of the Quay machine and that he drew two salaries from the State, one as deputy secretary of the department of agriculture and the other as secretary of the State college. He also said that the professor ought to explain in detail what has been done with the \$124,000 appropriation to the department of agriculture and the \$12,000 received by that department for contingent expenses.

Struck a Good Stream.

Al. Krape has drilled his last well for this season; he stopped with a well on Colyer's lumber tract on the mountain two miles north west from here. At a depth of 80 feet he struck a copious stream of soft water. Our energetic lumberman, Mr. Colyer, will put a steam lumber operation on the timber tract.

When you call for De Witt's Witch Hazel Salve the great pile cure, don't accept anything else. Don't be talked into accepting a substitute, for piles, for sores, for burns; for sale by Smith & Crawford.

A PROMINENT CITIZEN.

Death of Baiser Weber, at Howard on Sunday.

Baiser Weber, the most prominent and esteemed citizen of Howard, this county, died on Sunday afternoon, at his home from an ailment of the stomach.

Baiser Weber was a German by birth and was born in Bavaria. He came to this country when he was about twenty years old. For several years he traveled over parts of the county with a pack selling merchandise. Accumulating a surplus he purchased a store in Howard and by steady thrift and industry became one of the wealthiest men in his locality.

He was aged about seventy years, and was a man of integrity, which brought him a host of steadfast friends. Mr. Weber was the father of eight children, five of whom are living. Interment was made in the Catholic cemetery at Howard on Tuesday afternoon.

A Fine Building.

The brick layers have finished their work on the large hall erected by Progress Grange, and removed the scaffolding. The beauty of the fine large building can now be viewed on the exterior. Carpenters are at work on the inside fitting it up. George Koch has charge of the plastering and is pushing his work. The first floor is being built for a public hall. A stage of more than ordinary size is built at the west end. The room will seat about three hundred comfortably and with a little crowding a couple hundred more can be accommodated.

In the Hands of His Friends.

The people of the 28th Congressional District will offer sincere sympathy to James K. P. Hall, Democratic candidate for Congress, in this time of his great concern for the life of Mrs. Hall, who is now with friends in Tarrytown, N. Y., in a very critical condition. It has been determined by her physicians that an operation must be performed and it is understood that only one chance out of a hundred is in her favor. Mr. Hall is, therefore at the side of his sick wife and is almost distracted by the calamity which threatens his home circle.

Drank Carbolic Acid.

Wednesday morning Mrs. W. F. Eaton, of South Phillipsburg, this county, arose, poured the contents of a bottle containing about an ounce of carbolic acid into a mug and drank it. She then informed her husband of what she had done and assistance was summoned. When medical aid reached the woman she was in an unconscious state, and so continued until death ensued, twenty-four hours later. A depressed state of mind resulting from ill health is responsible for the deed.

Boiler Exploded.

Word reached Lewisburg last Friday that a steam threshing engine exploded on the farm of Emanuel Pontius, near Millinburg, in Buffalo township, Union county. Both ends of the boiler were blown out with terrific force and the engine is badly wrecked. Mr. Pontius and Byron Klechner, owner of the engine and threshing outfit, were standing near the engine and narrowly escaped being killed.

A Good Fertilizer.

All farmers know that wood ashes are valuable for fertilizer. But this value, as many know, is due much to the material from which the ashes come. Thus ashes made from hard wood are more valuable than ashes made from soft wood. In fact, some ashes from soft wood have not enough virtue to make it worth while to bother with them. It has also been found that the value is largely governed by the part of the tree from which the ashes is made. It is declared by chemists that the ash of the trunk of the tree, and the ash of leaves still more valuable.

Georges Valley Beats on Pumpkins.

The Milesburg man of whose 70 lb. pumpkin the Reporter made mention last week, must take a back seat, as Georges valley wins the pumpkin pie with a much larger one. C. J. Finkel reports us he has two sweet pumpkins, one weighing 60 and the other 85 pounds.

A stubborn cough or tickling in the throat yields to One Minute Cough Cure. Harmless in effect, touches the right spot, reliable and just what is wanted. It acts at once; for sale by Smith & Crawford.

A FAITH CURE FATALITY.

Coroner's Jury Says it Drove a Woman to Suicide.

The coroner's jury investigating the death of Mrs. Mitchell Garbrick, whose mangled body was found on the railroad track October 10th, at Bellefonte, has returned a verdict that the woman "did deliberately lie down with her head across the railroad track for the purpose of self-destruction, being at the time in an unsound condition of mind due to the influence of a faith cure doctor, Rebecca Parry."

The evidence showed that Mrs. Garbrick enjoyed reasonable health and a rational mind up to about eighteen months ago, when she became acquainted with Rebecca Parry. Soon after she began to show signs of mental aberration and the past six months was demented-most of the time. Twice previous to her final attempt she tried to kill herself, claiming that she was required so to do by God. Though the jury made no recommendation of punishment, the authorities are looking into the matter with a view of bringing criminal prosecution against the Parry woman.

She came to Bellefonte two years ago from the eastern part of the state. She was liberally patronized though not a single cure was traceable to her doctrine. The physicians of Bellefonte had her arrested for practicing without a license, but on a hearing before a justice of the peace she was discharged because the prosecution failed to establish the fact that she either gave medicine or charged a fee for her services. Since that time she has migrated between Bellefonte and Howard.

A BIG OFFICIAL BALLOT.

Dr. Swallow's and Trickett's Names Head Four Columns.

The form of the official ballot as it will go to the sheriffs and commissioners of the various counties in Pennsylvania has been printed by direction of the state department, but before it can be sent to these officers the names of the candidates for the judiciary, congress, senate and house of representatives will have to be inserted in appropriate places.

Dr. Silas C. Swallow heads the Prohibition, People's, Liberty and Honest Government tickets for governor. The only nominee of the latter party is Dr. Swallow. William Trickett is on the Democratic, Prohibition, People's and Liberty party tickets for judge of the superior court. The name of J. N. Weiler appears in the Democratic and People's party for congressman-at-large, and that of Justus Watkins in the People's and Liberty columns for lieutenant governor.

There are nine columns on the official ballot, but as the Citizens' party has been denied recognition on it county commissioners will be instructed from the state department not to include this column on the ballots to be used by voters.

The precaution of putting nine columns on the ticket was taken to expedite the printing of the official ballot and at the same time provide for the contingency which would have arisen had the court decided the nomination papers of the Citizens' party legal.

The official ballot will be mailed to all the counties in the state on Tuesday evening.

A Tram Road Accident.

A serious accident occurred Tuesday afternoon on the Buffalo Valley railroad, Gilbert Kulp, a brother of Congressman M. H. Kulp, and superintendent of their lumber business; John E. Kreisher, of Lewisburg, and James Burd, a workman, were coming down the mountain on a lumber truck. After running some distance one of the brakes gave away, and the car was soon beyond their control. The speed momentarily increased, and they were soon rushing down the mountain at a frightful velocity. To their dismay they saw some other trucks on the track ahead of them. Burd jumped off and yelled to the others to do the same. Before they could do so the car had dashed into the other trucks, and they were thrown with awful force. The car was smashed into splinters, and Kulp and Kreisher were found senseless and bleeding among the rocks. Physicians were hastily summoned from Millinburg and Lewisburg. Kulp is badly bruised, but it is thought not fatally injured. Kreisher's condition is very serious, and it is feared his skull is fractured. He has a hole an inch or more deep in his head, and is still unconscious.

Arrived from Porto Rico.

Thomas Sankey arrived here yesterday, from Porto Rico, and is staying with friends. Young Sankey left with a Peoria, Ill., company for the Spanish war, and was in the Porto Rico campaign as far as Ponce, when the war ended. Their march was through a mountainous country on to Ponce. He tells us he was in pretty good health while in the service. Mr. Sankey left this place for Illinois some six years ago.

Special Thanksgiving.

Governor Hastings has issued a proclamation designating October 27th as a day of special thanksgiving and prayer for the recent victory of American arms.
