CENTRE HALL, PA., THURS. DEC. 8

Gov. Hastings has appointed more than 2,500 notaries public during the past two years.

The "prosperity" kids are crying of booms and good times. All poppycock. Ask the farmer; they promised him a boom in grain prices.

We licked Spain clean out of her boots and conquered the Philippine islands. Yet McKinley proposes to pay Spain twenty million dollars because our boys licked her.

Vandyke's advice to the state Democrats has fallen still born. The result of his plan of exclusiveness would be the election of Quay to a third term in the Senate. Exit Vandyke.

Steel rails have advanced \$1 per ton, under McKinley protection. Where does the promised advance on the farmer's products come in? He needs it and the steel rail manufacturers don't.

Private intelligence from Philadelphia to the Reporter, says that the prospect is good for the Democrats and anti-Quayites organizing the lower house at Harrisburg and dividing the offices.

Guffey, the able Democratic leader of Pittsburg, strongly urges a fusion of the Democratic and anti-Quay elements in the organization of the legislature, as the first step. After that look after the election of a Senator in Quay's place.

Polygamy being practiced largely among the Philippines, what will McKinley do about it, the Reporter would like to know. Will he enforce the Edmunds anti-polygamy law, and how will he go about it? and if not, why not?

Seventy-three voting machines were used in Rochester at the recent election, and with such success that thirty-seven minutes after the polls closed the entire result of the voting in the city was known. The City Council has decided to purchase the machines.

Quay, at last, is in the stern grip of the law and his trial is set for the 12th. If guilty of what he is charged with, it is to be hoped there is no hole in the law for him to creep through. If innocent, let it be proved so clearly that there can be no doubt. Let all hold in now until the law has taken its course.

Senator Hoar, in a communication to his home paper, the Worcester Gazette, says: "If the report is true that it is proposed to buy of Spain the sovereignty of the Philippine islands, and to pay \$20,000,000 for it, I do not believe that such a treaty will be agreed to. The people of the United States have conferred upon nobody the power to make such purchases in their behalf."

Quay said he demanded a speedy trial. But when the time for it came, he begged for delay and to have his case quashed.

Innocent men don't resort to such tactics. Quay declares he is innocent; then why have it announced that being a Senator he cannot be dragged from his post of duty into the courts. He rarely is at his senatorial post, because over three-fourths of his time he is in Florida, fishing.

An innocent man would scorn to resort to such dodges.

Pension claims are now being received at the bureau at the rate of 300 a day. Nearly all are for deaths or disabilities occurring during the war with Spain. There have been received 2,141 army claims and 187 from the navy, a total of 2,328 since May 17, when the first application was filed. Up to last week practically all the claims filed were for wounds or from widows. Since then the majority have been for disabilities from sickness incurred in actual service or resulting therefrom.

A staff correspondent of the Pittsburg Dispatch declares, under a Washington date, that while Senators Quay and Penrose have both confessed themselves in favor of annexation of the Philippines, privately they doubt the wisdom of the scheme. He says he has private assurances from almost all the Pennsylvania congressmen that they are opposed to imperialism, but this is followed by the declaration that if the president really wants to embark upon the new and perilous policy of expansion they will swallow their private convictions and stand by him.

Senator Frye's belief that the peace treaty will be ratified at the coming

session of Congress is not shared by other observers in Washington. That the treaty will eventually secure the necessary two-thirds vote is not doubted, but it is generally believed that it will not come to a vote during the forthcoming session. The anti-annexationists have announced their intention of making an open fight, and if their promise is made good the entire session will be consumed in a futile endeavor to bring the treaty to a vote.

The fight against the treaty will be led by Senators Hoar, Hale, Spooner and Morrill, on the Republican side, Caffery, Cockrell, Lindsay, Turpie and Pettigrew on the Democratic side.

ANTI-QUAY FUSION.

The Philadelphia Record says that Fusion will organize the State House of Representatives against the Quay machine seems almost a certainty, if the Democratic members shall all stand with the anti-Quay Republicans in that fight. The best-informed anti-Quay leaders said Monday, that the success or defeat of Mr. Quay in the organization of the House now depended upon the Democrats, as there was no longer the slightest doubt of the union of a sufficient number of Republicans against the Senator's House candidates to defeat them, if all the Democrats should join in the fusion.

"More than 30 Republican members of the House," said an anti-Quay manager yesterday, "are enlisted for the war against Quayism, and pledged to support anti-Quay candidates for officers of the House. With 74 Democratic members, a successful fusion would need only 29 Republicans, as 103 members can elect the Speaker and other officers. How many more than 30 Republicans can be counted with certainty for us, we decline to state at present, for the same obvious reasons that we withhold from the public the names of all our Republican friends in the coming Legislature, except those who have openly committed themselves, and are known to everybody taking an active interest in the fight."

THE VOTE OF PENNSYLVANIA.

The official returns of the State election show that Governor-elect Wm. A. Stone received 475,606 votes, to 352,222 for George A. Jenks, Democrat, and 131,537 for Silas C. Swallow, the nominee of the Prohibition, People's, Liberty and Honest Government parties. Stone's plurality is 123,384, but he lacks 8153 votes of having a majority.

For Lieutenant Governor, John P. S. Gobin, Republican, has 505,283 votes; Wm. H. Sowden, Democrat, 353,281; E. D. Nichols, Prohibition, 66,930. Gobin's plurality is 152,002, and his majority, 85,072.

Vote for Sec'y of Internal Affairs, is, James W. Latta, Republican, 514,609; Patrick De Lacy, Democrat, 348,909; S. W. Dickson, Prohibition, 58,423. Judges of Superior Court, W. W. Porter, Republican, 528,945; W. D. Porter, Republican, 517,036; William Trickett, Democrat, Prohibition, People's and Liberty, 412,584; Calvin M. Bowers, Democrat, 348,504. Congressmen-at-Large, Galusha A. Grow, Republican, 532,848; S. A. Davenport, Republican, 529,773; Franklin F. Iams 350,213; J. N. Weller, Democrat, 357,451.

EXTENT OF OUR COLONIES.

The islands we take number more 2,000—they have never been counted, and still less have they been accurately surveyed. But the best statistics available yield the following results as to areas in square miles:

Table with 2 columns: Colony Name, Area in square miles. Cuba: 45,000; Porto Rico: 3,500; Hawaiian group: 6,640; The Philippines: 114,000; The Sulus: 1,000; The Carolines: 1,000; Guam in Ladrones: 500; Total: 171,680.

Cuba is about the size of New York, Ohio or Alabama.

Porto Rico is a little smaller than Connecticut.

The Hawaiian Islands are somewhat smaller than New Jersey, the largest island, Hawaii, being about twice the size of Delaware.

The Philippines cover a land space about as great as New York and the New England States together. Luzon, on which Manila is situated, is not much smaller than New York.

All the new dependencies together are about equal in area to the New England States, New York, Pennsylvania and New Jersey.

The Population.—In annexing lands we annex populations also. These are as follows:

Cuba: 1,500,000; 65 per cent. white. Porto Rico: 1,000,000; 60 p. cent. white. Philippines: 8,000,000; mostly Orientals.

Sulus, Carolines and Ladrones: Mainly barbarous.

Roughly, we annex about ten million people, of whom 90 per cent. belong to more or less inferior races.

Canal From the Lakes to the Atlantic.

An effort will be made by persons interested in Lake transportation to have the Anglo-American commission to take up the project for a canal joining the Great Lakes and the Atlantic. This project has been favorably reported upon by a deputy waterway commission authorized by Congress and appointed by the President. While this established the practicability of the canal, the present movement contemplates the devising by the Anglo-American commission of a plan of joint action by which work will be actually begun.

The proposed route would be by way of the St. Lawrence river and Lake Champlain, a cut of 29 miles being sufficient, it is said, for that link in the canal. Another cut of 24 miles would carry the canal to the Hudson river, thus connecting the shipping of Chicago and New York by way of the Lakes, Welland canal, St. Lawrence river, Lake Champlain and Hudson river. The projectors of this movement say the cut from the St. Lawrence to Lake Champlain can be made for three or four millions, as the topography is most favorable for canal digging.

Which do you Prefer?

Do the city papers say anything in regard to your locality? Do they contain notices of your schools, lodges, and the hundreds of local matters of interest which your home paper publishes? Not an item. Do they publish a word calculated to draw trade to your town and your enterprise? And yet there are men who take contracted views in this matter, who think if they don't get as many square inches of reading matter in their home paper, they are not getting the worth of their money. It reminds one of the man who took the largest pair of boots in the box because the price was the same as the pair that fitted him. Take the city paper if you want one, but don't let it crowd the local paper out of your home.

Two Point Questions Answered.

What is the use of making a better article than your competitor if you cannot get a better price for it?

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single sale they will be much greater in the aggregate.

How can you get the public to know your make is the best? If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup there is nothing equal to Chamberlain's Cough Remedy.
