Miss Burkholder will undergo treatment for nervous trouble. Dr. Alexander has been suffering from stomach trouble for some time and will place himself in the hands of a specialist for treatment.

Dropped Dead.

Huston Hartsock, a highly esteemed and respected citizen of Spring township, dropped dead yesterday afternoon about two o'clock, while going from his barn to the house, on his farm about one mile from Pleasant Gap. He had been out in the field plowing, and when the thunder storm came up, he started for the barn with his team. Putting his team in the stable, he started for the house, and when nearly there dropped over and expired in a few minutes. He was supervisor of the south precinct of Spring township and was aged about 60 years. He leaves a wife and two grown-up sons.

Outbuilding Destroyed.

Several outbuildings on the Hazel premises were destroyed by fire caused by burning rubbish, in Madisonburg.

SPRING MILLS.

The Coal Excitement in Our Village Still Runs High.

Some wheat fields in this section present a very unhealthy and sorry appearance, very like a total failure.

William Pealer has added greatly to the appearance of his handsome residence by the addition of a story to his back building.

A party of twenty, ladies and gentlemen, of our village, have made arrangements for a moonlight bicycle ride on Thursday evening—destination Millheim.

Trout fishing is still the rage, nearly everybody seems to have turned fisherman. Of course the number of catches is rapidly diminishing. In a week or ten days the maximum will be about a dozen, whereas at present, nothing less than fifty or seventy-five trout is satisfactory.

A dead dog has been lying along the pike, or rather just inside of a fence, a step or two below the village, for several months, and it is astonishing that our authorities would allow it to remain there an hour. Its removal should be ordered at once, the odor arising from the decaying carcass is most offensive, and almost sufficient to breed a pestilence.

J. I. Condo has commenced the manufacture of hemp carpets, but the demand for rugs has been so great that his stock is entirely exhausted, and in consequence on the first proximo he will manufacture rugs exclusively for one week to obtain a supply. After his general delivery on the 15th he will resume the manufacturing of both hemp and rag carpets and also rugs. He is doing a large business.

Candidates are moving to and fro quite rapidly of late, in fact many come like shadows and so depart. W. T. Speer, of Bellefonte, and H. A. Moore, of Howard, both Democratic candidates for the nomination for treasurer, were here on Wednesday last, of course seeking old friends and making new ones. Both of these gentlemen are well known down in this valley and rank high in character and ability, and either one would prove a strong and popular candidate.

The coal excitement in our village still continues. A day or two since a barrel of water was pumped out of the well, and during the night a greasy substance had collected on the surface, which coming in contact with a stick or piece of paper, gave it the appearance of having been painted with gold paint—a very beautiful shade of bronze. People are wondering if we have also discovered a gold mine. A geologist would have pronounced the sulphurous character of the water an indication of coal, although it may be located so deep that to obtain it, it might be necessary to dig within a mile or two of—China.

Hiram Durst has thoroughly remodeled the residence he recently purchased in our village, and formerly owned by John Swann. The whole interior of the dwelling has been changed and a number of conveniences introduced. The exterior is decidedly improved with new modern windows and a very commodious L shaped portico west and south of the building, also a similar porch back of the dwelling. He also intends placing in front a handsome railing. The building will be handed over to the painters in a few days, and when finished Mr. Durst will have a home for beauty and comfort second to none in the village.

The extensive building recently erected by J. C. Condo, the carriage builder of Penn Hall, is a very imposing structure. His private residence adjacent, is also being remodeled and a very handsome portico is being erected and the building will soon be in the hands of the painters. There are very decided improvements to the entire neighborhood. The new business building has a depth of over one hundred feet and a width of thirty-three feet. The ground floor is divided into four departments by large sliding doors for warehouse, finishing room, paint room and stock room; in the basement all the rooms are fitted up with every modern convenience. The finishing room is almost as air tight as the finishing department in a piano factory, to keep all varnished work while drying perfectly free from the slightest dust. In connection with this extensive establishment he has a large blacksmith department, where two workmen are constantly employed shoeing horses, shaping irons, tines, etc., for vehicles. His working force consists of from four to six men, and he is doing a large business.

BOALSBURG.

A Letter of Interest as Gathered by Our Correspondent.

Robert Condo and Mary Brown, of Boalsburg, were recently married. The Grange Hall at Oak Hall is being treated to a coat of paint, by Fred Weber.

Holy Communion was celebrated in the Presbyterian church last Sunday morning. The Boalsburg I. O. O. F. degree team visited the State College Lodge last Monday evening.

The West Susquehanna Classis of the Reformed church will convene at Boalsburg, May 10, 1909.

Mr. Boal, of Denver, Col., recently purchased the old Boal farm, and will begin repairs at once upon the buildings.

Frank Fisher is still confined to the St. Agnes hospital in Philadelphia, with typhoid fever; he is convalescing, however.

The Wieland carriage works of Boalsburg, have sold a half dozen new buggies thus far this spring, which speaks well for our local builders; people appreciate the good work done by this firm, hence the patronage.

Prof. Hower has a very large school; it numbers between forty and fifty advanced scholars and teachers. This is the largest summer school that has been at Boalsburg for twelve or more years. Mr. J. M. Garbrick is the assistant.

Prof. Harry Rothrock, of Millheim, formerly of Boalsburg, a candidate for County Superintendent, was around looking after his interests in this section the beginning of last week. He has been in every district in the county this spring and thinks he will prove stronger than his opponents imagine.

The Boalsburg water plant is not a dream but a thing of reality. The reservoir is completed and all the pipes are laid, and many taps have already been put in. We believe almost every house will soon be plentifully supplied with water; the water is excellent, cold, almost like ice water, and clear and sparkling. We have reason to congratulate ourselves, for we believe very few towns have water that can compare with the Boalsburg water.

MILLHEIM.

Personal Mention and Other Interesting Items from that Busy Town.

J. P. Condo and wife were to Bellefonte on Tuesday.

Prof. Raine took a week "off," visiting friends at Saxton.

Dr. G. S. Frank is beautifying his residence on Penn street.

Allen Deininger, of Hughesville, is visiting his many friends in this community.

Mrs. MacCarger, of Bellefonte, is being entertained by Miss Jennie Reifsnnyder.

F. O. Hosterman, our hardware dealer, is spending this week in Bellefonte as a juror.

Miss Mazie Morris and Mr. Kerstetter, both of Loganston, spent Saturday and Sunday with Charley Morris, on Penn street.

Miss Bessie Mooney, who had been staying with Photographer Smith's family, at State College for some time, visited her mother over last Sunday. So far the trout fishers around here have not succeeded very well; they do not begin to "come up" to the Woodward fishers, as one of them—Al. Harter, is said to have caught 120.

Reed and Resser, the noted horse dealers who have been bringing western horses to this section for several years, had another sale here on Monday. The average price of the horses was \$98, and all but four of them staid in Penns and Brush valley.

Potters Mills.

E. M. Huyett will soon have his stove mill ready for operation.

Mrs. Michael Burkholder is adding to the beauty of her home by erecting a new fence around it.

Dr. L. C. Havice, of Milroy, has hung out his shingle; any one calling for him will find him at the Etaw House.

Miss Jennie Sweetwood, of Spruce-town, opened a ten weeks' term of school last week; she has a large school and is a good instructor.

Wm. Stiver is improving his place by erecting a large straw shed; he may not need it this year as the wheat crop does not look very promising.

W. W. McCormick, Frank McCoy, J. F. Stover, members of the Odd Fellows' Lodge, of this place, attended the anniversary at Bellefonte yesterday.

Some fishermen from Centre Hall and this place left on Monday morning for Poe Creek and returned Tuesday evening a little blue of that place for trout fishing.

Working for a Mail Train.

Postmaster Boal secured a large number of signers to a petition to the Postoffice Department praying that a postal clerk and railway postoffice be carried on the train leaving Bellefonte at 6.40 a. m. to Montandon and return. This train carries only through pouches east of Montandon and the public along the line has but one mail east and west each day. It would be a great convenience and the petition was liberally signed by all of Bellefonte's business people. The move was made by Bellefonte's postmaster, W. W. Montgomery. The petition will be sent to all the towns along the railroad from Bellefonte to Montandon for signers.

I was reading an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the Worcester Enterprise recently, which leads me to write this. I can truthfully say I never used any remedy equal to it for colic and diarrhoea. I have never had to use more than one or two doses to cure the worst case with myself or children.

Mr. W. M. Terry says Chamberlain's Cough Remedy gives better satisfaction than any other in the market. He has been in the drug business at Elkton, Ky., for twelve years; has sold hundreds of bottles of this remedy and nearly all other cough medicines manufactured, which shows conclusively that Chamberlain's is the most satisfactory to the people, and is the best.
