CENTRE HALL, PA., THURS. MAY 11

The new mercantile tax law goes in force next year, the assessments for this year having been made before the new act was signed.

The sugar trust has advanced the price of sugar and you will have to pay one cent a pound more for your sweetening. It seems but a trifle, but it means millions of dollars more profit for the trust each year.

The merchants all over the state are in a rage over the new act signed last week by the Governor imposing a new and higher tax upon storekeepers. All this comes from Quayism which has created new offices, raised salaries and in a score of ways squandered the public funds. Now it's got to be made up by extra taxation.

Missouri started the ball to block the trusts. In the Circuit Court of Appeals on 2, a unanimous decision was made in an appealed case to the effect that a trust cannot conduct its objects under the form of a corporation, and evade the penalties provided for violation of the Missouri Anti-Trust law of 1891. Under this decision accounts with trusts operating as corporations in Missouri are not collectable.

All counties held elections on Monday of last week, by conventions of directors, for school superintendents. In most of the counties resolutions were unanimously passed protesting against the threatened cutting down of the school appropriation by Governor Stone. This amounts to hitting Quayism over the shoulders of the Governor. It was the corrupt methods of the machine that endangered the school appropriation and bankrupted the treasury.

A London dispatch says the first attempt to transmit trans-Atlantic messages by the Marconi wireless system will be made during the contests for the America's cup. Stations will be established at Sandy Hook and elsewhere along the course laid out for the great yacht race, from which the entire contests will be visible. Messages recording the progress of the races will be transmitted from these stations to a point on the Irish coast in the neighborhood of Waterville.

Again, auditors who audit, have been found, this time in Chester county, where their report exposes taking of illegal fees. They find that illegal payments have been made to Patrik, clerk of the courts, \$1566.84; to Hayes, sheriff, \$112.72; to Ramstein, jury commissioner, \$250; to Mendenhall, jury commissioner, \$282.00; to Baldwin, prothonotary, \$890; to McElree, district attorney, \$908; a total of \$2528.46, with which they surcharge the county commissioners.

The Pittsburg Post thinks it is one of the curiosities of the times that, while the State of Idaho has a regiment of volunteers engaged in the war of conquest and subjugation in the Philippines, a regiment of negro regulars has been sent into Idaho from a distant State to put down labor disturbances among the citizens of the State, that martial law has been virtually declared and that General Merriam has established a strict censorship over the telegraph. We have active war in the Philippines and in Samoa, and a threat of war in Central America. Why not a touch of it in the State of Idaho? We are getting accustomed to these things.

The possibility that ex-Senator Quay will dominate the next Republican State convention and take measures to condone himself for past offenses and endorse himself for new favor at the hands of his party is not a flattering possibility for the nominees of the convention. They will be asked to go into the canvass with the "Old Man" astride of their necks. Can any candidate, no matter how fit or popular, carry that load and come out of the race a winner? This doubt may have been the compelling reason for the refusal of General Gregg to allow the use of his honored name as a machine makeshift. Would Colonel Hawkins, who has bravely faced death at Manila, have the courage to stand up against this new peril? Who will be a consenting victim?—Record.

Extra session of the legislature and an extra session of congress are in the wind. The former on account of the corrupt legislation at Harrisburg having left the state unable to pay its debts. As to an extra session of congress, the "Record" says:

"Feelings are now being put out at Washington to test public opinion as to the advisability of calling Congress in extra session to expedite action, and to decide whether it would be safer to

take the chances of having Congress on hand in the thick of the Presidential fight next year.

"The decision upon the course to be adopted will doubtless depend to some extent upon the success of our soldiers in suppressing the Philippine insurrection. Peace, however, would bring greater immediate responsibilities than protracted war. There is but one thing to do whilst the war shall last, and that can be done without the aid of Congress. Congress, indeed, might prove to be an embarrassment. With peace would come the need of legislation; and with peace may come an early session."

The new mercantile tax bill requires the dealer to place permanently at the entrance of his place of business a sign describing the business in which he is engaged, under penalty of \$10 for every offence. Stores and shops make a note of it.

The whole volume of business, including cash receipts and merchandise sold on credit, shall be the basis on which the license is to be rated.

If the owners, proprietor or any other person connected with a business refuses to produce the books and papers and appear before the County Treasurer to give information in which to base his tax, he is made liable to a penalty of \$1000.

The "Scientific American" recently compiled an official list of Jersey chartered trusts, prepared with great attention to accuracy. Not including all, but only those organized with a capital of one million and over up to the Federal Steel with its \$200,000,000, and not including the recently formed Carnegie consolidation with a capital of \$600,000,000, the "Scientific American's" official list numbers ONE HUNDRED AND FIFTEEN TRUSTS capitalized at \$3,344,100,150. This is six hundred millions more than the National debt stood at its highest notch after the war for the Union had ended. All but nine of the 115 trusts have been organized within the last five months. If we add the Carnegie combination and the copper combine, the total capitalization—that means outstanding paper evidences of debt—amount to considerably more than four thousand millions of dollars!

The total amount of money in circulation in the United States—gold coin, silver coin, gold certificates, silver certificates, treasury notes, United States notes, currency certificates and National bank notes, all included—on May 1, 1899, according to the report of the secretary of the treasury issued on that date, was \$1,932,867,891.

The trusts organized within the past six months have an aggregate capital about twice as great as all the money in circulation in the United States.

New Jersey, the other day, incorporated the Pacific Coast Biscuit Company, to deal in cakes, biscuits, pies, etc., with a capital of four million dollars. With trusts already incorporated for almost everything in every line, with near two billions of capital, the Reporter does not see much more left for new trusts to build up on. We think the following, as a wind-up, will come in:

- A Sauerkrout on Speck Trust.
- A Buckwheat Cake Trust.
- A Noodle Soup Trust.
- A Speck on Oyer Trust.
- A Liverwort Trust.
- A Snitz on Knap Trust.
- A Smeerkase Trust.
- An Applebutter Trust.

These are about the only stuff left to work on and Jersey will grind out a charter for each with a grin.

EDITORIAL JOHS.

There is a little skirmish almost every day, in which the insurgent are defeated.

From Washington it is reported they can see the end of the war. Admiral Dewey is on his way home and our big cities are preparing to give him big receptions. Commodore Watson succeeds Dewey.

New Yorkers have arranged to get up a dinner in honor of Dewey, the number of plates limited to 100 and only \$100 a plate—put us down for two. Murders and suicides are everyday day affairs and would fill a page every week.

Don't Follow Their Example.
We can not advise any lady reader of the Reporter to follow the example here given: Mrs. John Jacob Astor spends \$50,000 a year. A great part of the money goes for diamonds, of which she is fond, and she often spends \$2,000 in an afternoon shopping tour.

Mrs. Oliver H. P. Belmont, formerly Mrs. W. K. Vanderbilt, is said to be the most extravagant woman in society. She spends quite \$100,000 each year on trifles and knick-knacks.

Sale of Process Butter.
Governor Stone on 4 inst., approved the bill to regulate the sale of butter produced by taking original packing stock and other butter and melting them so that the butter oil can be drawn off, mixed with skimmed milk or other material, and butter produced, commonly known as "bolled" or "process" butter.

Marriage of Four Sisters and Brothers.
A most remarkable wedding has just taken place at the small village called Trail, ten miles north of Canal Dover, four brothers being married to four sisters. The four knots were tied at the home of the four sister brides, who are the daughters of a prosperous farmer named James Hochstetler.

Their ages range from 18 to 28, and the ages of their respective husbands vary only slightly. The grooms are the four sons of John Summers, and are energetic young men of good habits and some means. The ceremony of marrying the four couples occupied almost an hour. The four brothers and their wives will live within a stone's throw of each other.

Bible Kissing Tabooed by Roosevelt.
The kissing of the Bible has been tabooed entirely in the courts of New York state. The book has been kissed religiously since 1776 by witnesses and there are well-authenticated cases of fatal results arising from the practice. The practice will be discontinued because of the passage of the law which has already received the signature of Governor Roosevelt.

Now I respectfully submit the same consideration and recognition, and submit my candidacy to the Democracy of Centre County for their judgment at the coming primary and County convention.
