The gentlemen had been through the valley inspecting their territory, and looking over the route where they propose making extensions.

Dr. Wiley on Impurities in Food.

Dr. Wiley, of the Pure Food Inspection Committee, in his report says:

The principal method of adulterating lard is the mixing of vegetable oils with the natural fat of the hog. Fats and oils, he says, instead of being injurious to the health, are wholesome to a great degree. Probably among all the foods mentioned by Dr. Wiley none attracted greater attention than the adulteration of coffee, even to the berry. According to the witness, in recent investigations he has found molasses and flour molded into berries, colored, mixed with the genuine and sold as high-grade coffee.

Dr. Wiley said there is very little pure beer made in this country. Fully 70 per cent of the beer which is sold is made of some other article than malt. In regard to the extensive use of glucose, the witness said that it was not objectionable for food purposes, if used in moderation.

Dr. Wiley said Vermont maple sugar was manufactured in Davenport, Iowa, out of brown sugar and an extract of hickory bark, and it was not deleterious. In fact, he says, it is impossible for chemists to distinguish the two. Spices, he said, were adulterated and peanut shells were palmed off for ground cinnamon.

Whooping Cough.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgetstown, Pa. For sale by J. H. Ross, Linden Hall; S. M. Swartz, Tusseyville; F. A. Carson, Potters Mills; H. F. Rossmann, Spring Mills.

SPRING MILLS.

A Shaft Will be Sunk in the Flats to Decide the Coal Question.

All of our merchants report trade during April as having been very satisfactory.

Robinson & Bro. the hardware merchants, have added a full line of groceries to their business.

E. L. Bergstresser, of Hubersburg, has opened a picture gallery in our village, and is doing quite a business. His miniature photographs are very pretty.

Quite a number of our people are having their fences and outbuildings whitewashed or painted; it adds greatly to the surroundings. Garden making in the neighborhood is about finished and very considerable planting has been done.

The coal question here, after a short slumber, is again revived. It has been decided to sink a shaft on the flats in a week or two to settle the business one way or another. If the coal is in paying quantities, operations will be commenced at once. The gentlemen at present engaged in it have business calibre and ample means.

The coal question here, after a short slumber, is again revived. It has been decided to sink a shaft on the flats in a week or two to settle the business one way or another. If the coal is in paying quantities, operations will be commenced at once. The gentlemen at present engaged in it have business calibre and ample means.

The Philippine situation continues to be a combination of dicker and fighting, although the administration claims that the submission of Aguinaldo is now fully assured, but they do not say when. His subjugation has been a sure thing from the first, but it has already cost more, both in money and blood than it will ever be worth to the people of this country.

Cyrus Brungart, of Millheim, Democratic candidate for the nomination for sheriff, was here on Saturday last, "looking around" and sounding the "unfettered." D. H. Ruhl, our popular landlord, and Republican candidate for the same nomination, was scouring the upper end of the county all week. His hotel during these political excursions is in charge of his son Edwin, well known as formerly the proprietor of the hotel at the Fort, and also the hotel at Centre Hall.

Have the Sons of Veterans, and the old war worn Veterans themselves thought of celebrating the coming Fourth of July? Celebrating it as was done a year ago. If we are to have a celebration, isn't it time to think about it? Last year the Sons of Veterans engineered the celebration of Independence Day so successfully and satisfactorily, that it, excelled any previous demonstration in Spring Mills. Why not have another?

Bicycle riding is certainly on the increase. Early in the evening the pike is alive with riders, good, bad and indifferent. Occasionally a dashing bicyclist will ride down the pike with the rapidity of the wind; her speed almost takes away one's breath. The great object seems to be a high rate of speed regardless of consequences, yet few serious accidents occur, at least very few are reported.

Rev. Chilcote of the M. E. church, having been annoyed by whisperings and giggling during services, and loud conversations in the vestibule and the outside entrance of the building, announced from the pulpit on Sunday evening last, that the annoyance must cease; not next week nor next month, but now, and that he had appointed a gentleman to obtain the names of all the offending parties, and the young men and boys he would have arrested for disturbing the congregation, and the names of the young ladies (?) he would read from the pulpit with a piece of advice. The Reverend gentleman evidently means exactly what he says.

Druggist C. H. Morris and wife spent Sunday in Loganton with their friends. Lot Waliza had charge of the dogs during Mr. Morris' absence.

A number of water enthusiasts are making strenuous efforts to organize a water company, to be composed of citizens from the town. They should be encouraged in the good work; we need good water.

J. C. Mauck and wife, of Salona, and John Gummo and wife, of Nitany valley, father-in-law and brother-in-law respectively of our townsman, J. C. Smith, spent Sunday with friends in Millheim.

F. P. Geary, who has been in the employ of barber Springer for the last year, left on Tuesday morning for Berwick, Columbia county, where he will be employed in one of the oldest shops of that city. Frank is a good boy and will no doubt succeed.

The free library of the Philadelphia City Institute, founded in 1852, contains 23,000 volumes. It is called "free," but those who wish to draw books must pay \$2 a year.

A Spanish author has written five novels of a unique description. The first is without the letter A, the second without E, the third without I, the fourth without O, and the fifth without U.

There is one portion of the human body which continues to increase in size throughout life, and does not cease with the attainment of maturity. This is the crystalline lens of the eye.

Carnegie the Second Richest Man in the World Sells Out.

Andrew Carnegie, the greatest manufacturer in the world, has sold out to the new Steel Trust.

This will be not only the greatest trust, but the greatest combination of capital and manufacturing plants in Christendom. It will have a capital of \$600,000,000, of which \$100,000,000 will be in first mortgage 5 per cent. gold bonds; \$250,000,000 in preferred stock and \$250,000,000 in common stock.

Mr. Carnegie is to retire from the business permanently, and receiving in payment the entire issue of \$100,000,000 in gold bonds, which become a mortgage not only upon the Carnegie mills but upon all the other steel mills owned by the trust.

He will get an income of \$5,000,000 annually, and he will be free of all care and responsibility.

By this operation Mr. Carnegie becomes at once the second richest man in the world, John D. Rockefeller being the only human being richer.

Forty-seven years ago Mr. Carnegie was a telegraph operator without family, friends or fortune. He rose from the smallest beginnings, being first a railroad employe at \$40 a month, then an iron mill foreman, then superintendent, then junior partner, and finally head of one of the many Pittsburgh mills.

Headache for Forty Years.

For forty years I suffered from sick headache. About a year ago I began using Celery King. The result was gratifying and surprising, my headaches leaving at once. The headaches used to return every seventh day, but thanks to Celery King, I have had but one headache in the last eleven months. I know that what cured me will help others.—Mrs. John D. Van Keuren, Saugerties, N. Y. Celery King for the Nerves, Stomach, Liver, and Kidneys is sold in 50c. and 25c. packages by G. H. Long, Spring Mills.
