CENTRE HALL, PA., THURS. May 18

Pennsylvania is being put through a Stone-crusher.

Quay will not take the advice of theinsurgents and run for state treasurer. He knows too well the people would squelch him at the polls.

Again the Washington authorities have announced that Aguinaldo is suing for peace. Hope it's so. Aguinaldo might get good wages by traveling ence. through the United States with a dime show.

An appeal will be made to the supreme court to test the constitutionality of Governor Stone's appointment of ex-senator Quay to the vacant senatorship; also of his cut of the school fund. The insurgents are at the bottom of this move. Push it, all honest men will say.

Governor Rosevelt, of New York, is not afraid to take the bosses by the horns when they get too fresh. Would that our pebble Stone at Harrisburg were likewise, instead of being owned by the corrupt machine. In York state the bosses are afraid of the Governor; in Pennsylvania the Governor is awfully afraid of the bosses.

The Czar presided on 19 at a meeting of the council called to discuss the question of abolishing transportation to Siberia on the ground that it had become prejudicial to the interests of the country. The Czar ordered a commission for the purpose of considering the question of substituting another penalty.

Aguinaldo is again reported suing for a cessation of hostilities so that peace terms may be arranged. The wily chieftain can bring about peace in a day by simply laying down arms. He can keep up trouble with his deluded followers, but our forces will continue to drive them into the interior of Luzon his semi-barbarian forces, at the expense of many lives.

These are Alger's scape-goats: The members of the Beef Court were selected by Secretary Alger. The President of the Court has been appointed by him Governor General of Porto Rico and is now on his way to that island. The other members, it is said, are to be given high positions. In considering the findings of the Court it will be well to bear these facts in mind.

The American Window Glass trust sent out notices stating that the price is advanced 5 per cent. on all grades of glass of their manufacture. The sugar trust advanced the price of sugar, and the iron trust advanced the price of iron. Thus the advancing of prices will go on until each of the legion of trusts has skinned the people.

Germany for a number of years complained of the bad beef shipped to that country by our big packing houses. Over here it was thought the Germans set up an unfounded complaint. But the beef sent to our soldiers by Alger and other McKinley pets, from these during the war. Mr. Geo. S. Ander same packing houses, showed the Ger-

Of the total, 24,681 were under 12 years of age, which would leave 200,730 as, practically adults. It would be a low estimate to put the expenses of these at \$500 each, and at that small \$1,000,000 Cut From the School quent insection. Other rates made made known figure the outlay would be over \$100,-000,000, and it would be within reason to estimate the expense to the country of these foreign tourists at \$125,000,000.

HOW TRUSTS LOWER PRICES.

Champions of the Trusts are never weary of assuring a confiding public that one of the beneficent results of this system of monopoly is a reduction of the prices of commodities. The fallacy of this argument is well illustrated in the prices demanded of conprices that the Tinplate Trust recent- or else cut down school teachers' sally put fresh restrictions on the firms which dip the black plates; but, strangely enough, the benevolent intentions of the Trusts toward consumers are constantly frustrated, and prices, instead of going down, go up.

QUAY STICKS TO THE CORPORATIONS

A Valuable List Showing How Much the Counties Will Lose by Stone's Action-Taxpayers Can Footthe Bill. The Governor's Right to Veto the Constitutional Amendment Resolutions to Be Tested in Court-How a Machine Leader is Responsible For Hundreds of Deaths.

(Special Correspondence.) Harrisburg, May 23. - Governor Stone, who promised the voters of the expansion, or Philippine question, Pennsylvania that he would make them a "good governor," has cut \$1,000,000 from the public schools appropriation and all over the state the people are entering vigorous protest. In the battle between the brewer and the school children, between the beer saloon and the little red schoolhouse, the brewer and the beer saloon have won. And Governor Stone has swept aside the the Quay machine is solely responsible

for the brewers' victory. The house of representatives in the last legislature, controlled as it was by anti-Quay Republicans and honest Democrats, moved Heaven and earth to prevent any cut in the appropriations to the public schools and charities by passing revenue measures to supply ample funds. The house passed the Creasy gangers' tax bill; it passed the bills taxing beer and putting a tax on foreign corporations in addition to passing several other minor revenue measures. When these bills got to the senate they were mercilessly slaughtered. Quay controlled the sen-"It is obvious that the people must ate. His lieutenants were Senator John C. Grady and ex-Senator William H. "Lexew" Andrews.

Andrews gave his personal attention to killing the foreign corporation tax and beer bills. He was the head of the senate lobby. He haunted the senate chamber day and night till all of the revenue bills named were killed. Then he left for Pittsburg, his mission accomplished. Last week the newspapers of that city announced that Mr. Andrews had purchased \$60,000 worth of property in the east end of Pittsburg. And so soon after the leg-islature had adjourned!

The cut in the school appropriation was made by Governor Stone because the Republican machine refused to permit beer and corporations to be taxed, sumers by the Tinplate Trust and oth- and insisted that instead the taxpayer monopolies. Every county in the state must suffer so that the brewers can be protected, and Governor Stone be permitted to obey his master.

WHAT THE COUNTIES LOSE.

The following table of figures showing just how much the machine is compelling each county to lose is taken can. The figures are worthy of study, and they will be studied by the citizens of the state, with the realization that if just assessments were made on the corporations and brewers there would not be laid upon the farmers and business men the burden of raising an extra million dollars during the next two years:

The Quay machine is not only ready to sacrifice taxpayers and schools and school children, but is ready to sacrifice human life to accomplish its ends. For six months typhoid fever has been ravaging Philadelphia. It has killed more people in that city in the last year than were killed or died in the Spanish war. A year and a half ago the people of Philadelphia, by popular vote, authorized the mayor to borrow \$11,200,000 to improve the water supply and make other improvements. Had the city been permitted to go ahead and spend this money to improve its water supply thousands of cases of typhold fever would have been averted and hundreds of lives saved.

IT SACRIFICES LIFE. But suit was instituted to prevent the mayor from spending this money Schoolhouses were not built, and needed improvements in water works were held up. People prayed that something be done, but the money was tied up in court, while the typhoid death roll showed in one year over 1,000 deaths out of 10,000 cases. Last week insurance Commissioner Durham, of Governor Stone's cabinet, boldly declared that he had held up this money. He did not want Mayor Warwick to spend the money, because he was his opponent and an anti-Quay man. And hundreds of lives were lost because of the hatred of a Quay leader for his political opponent. Commissioner Durham stated that he had caused the suits to be entered by a couple of tools, Barr and Yocum by name, to hold up this money, while death was stalking through the streets of Philadelphia and people were praying for purer water.

It will be remembered that Governor Stone, in violation of the constitution, vetoed several resolutions of the legislature for submitting to a vote of the people proposed amendments to the constitution regarding the ballot. His action was clearly unconstitutional as regarded by the best lawyers in the state. The governor's right to defy the constitution by vetoing these resolutions, in his attempt to serve Quay and his friends, will be tested in court. Representative Woodruff, with the assistance of leading citizens of Philadelphia, will ask for a mandamus on the secretary of the commonwealth to compel him to advertise the proposed constitutional amendment relative to the right of the legislature to enact a law providing for personal registration in the cities and larger

towns of the state. In this way an effort will be to check some of the tendencies of the governor to violate the constitution with impunity. Will the people of the state, irrespective of party, stand this sort of thing much longer? Will they continue to vote for Quay men and help to perpetuate a machine that does not respect the constitution and has no regard for the taxpayer as against the corporation and human life against its intrigues and attempts to keep itself in
