Just at this time Quayism is on the decline in this county.

The Ohio Republican convention will be harmonious for McKinley's renomination, but a fight will be made against Hanna.

The President has pared down the civil service rules to open the way for 4000 spoils seekers. In accepting his platform he promised not to do this.

Filipinos fight after dark; they sneak up to our lines and pick off our men like snipe. Then they play a trick by hiding their arms and surrendering to be fed.

Speculators say they can see higher prices for wheat and talk of its going up to 85c. We judge it's the old game ; they kept the prices down so as to buy up all they can at low figures, and are now ready to sell off at high prices.

John Sherman, the former Secretary of State, is emphatic in his opposition to our eastern policy. He thinks it is all wrong, and calls the effort to subdue the Filipinos merciless slaughter, asserting they should be succored instead of coerced.

There will be thirty Democratic Judges named in the State Convention for the Supreme Court nomination. Assuming that half an hour will be required to place each in nomination, fifteen hours of the convention's time will be taken up with speeches.

War between China and Russia, or Germany, is now in the wind. Adjutant General Corbin has prepared this statement of the number of deaths which have occurred in the army since the beginning of the war with Spain: Cuba, 1,399; Porto Rico, ture. 287 ; Honolulu, 45 ; Philippines, 606 ; United States, 3,872 ; total, 6,209.

McKeesport ministers this week began an organized crusade against corruption in municipal affairs. On Sunday each preached a vigorous sermon against the faults of the office-holders and since then they have been arousing sentiment by pastoral calls against the iniquity they have discovered.

Probably the real sticking point in the proposed round up of the Cuban insurgents is that there are not enough guns to correspond with the enrollment, remarks the Record. Every soldier who shall present himself for his share of the \$3,000,000 is expected to bring along his gun. The inconvenience of this arrangement will be made

the number of guns shall not tally.

Compressed air has within a short time been introduced into workshops as a means of doing many things laboriously performed of old by hand. Weights are lifted and carried from floor to bench, or lathe, chisel work is done, also rivetting, and there are ingenious devices for employing this power of compressed air in many ways.

One effect of the business and industrial revival is a large increase in the postal revenues. It is estimated at Washington that the receipts of the fiscal year will aggregate nearly \$100,-000,000, as contrasted with a recent average of less than \$85,000,000. One result of this will be to advance many more postoffices than usual to the next higher class, and with the advance will go larger pay to the postmasters.

His scheme of paring items like the school fund, instead of using the veto Generals MacArthur and Lawton, inpower, is undoubtedly a usurpation of cluding scores of the smaller towns power belonging alone to the Legisla-

constitutional duty.

An instance of the sincerity of Governor Stone's high-sounding profess-

ions is furnished by the Philadelphia "North American." The governor veservices rendered by her husband to esting : the Legislature at the session of 1897. This appropriation the governor vetoed upon the ground that the unpaid ow, therefore, was refused the money due her husband. Subsequently the against the widow's payment, attached his signature to a bill appropriating \$5,000 to the machine henchmen, T. Larry Eyre, of Chester county, for services rendered by that politician as to give the church too many "dandy" sergeant-at-arms of the legislative com- ministers. The student in the richer mittees at the session of 1897, the ex- seminaries, at least, is surrounded by travagant bills for which were vetoed all of the comforts and many of the by Governor Hastings.
