ELECTED TEACHERS.

The School Board Names the Instructors and Transacts Business.

The school board met on Monday evening in W. O. Rearick's office and transacted important business. The board elected teachers and from a number of applicants for each school selected those who filled the positions last year, Prof. Wagenseller, principal, D. Wagner Geiss, Frank Foreman and Miss Anna Bartholomew. The millage for taxation was placed at 8, being an advance over that of last years. This was deemed expedient from the fact that the state appropriation will be reduced about \$160, and the board must be prepared to meet this loss. Store in Centre County. The meeting was without special incident and instead of having lots of trouble on hand, the directors were harmo-Last Saturday evening an intelli- nious. The new members are H. G. salaries were placed at \$60 per month for Prof. Wagenseller; \$32 for D. W.

An Old Company Coming to Life, In 1865, when the oil craze was at its height in this state, a period when strike of the gusher and many more lost heavily by investing in wild cat schemes, the craze for speculation struck this county, and a company was formed to enter the oil fields and get a share of the golden stream that was then flowing out. Money was more plentiful then and it was an easy matter to organize a company to invest in land in the oil territory, and develop it. Men in and around Centre Hall, Potters Mills and Pleasant Gap, took a hold on the enterprise and organized the Piney Coal and Oil Company, with a capital stock of \$15,000, par value of a share was \$300. A farm with 106 acres was bought in the oil belt in Venango county. Several holes were punched in the ground, but the large dividends which were expected to flow from mother earth and line the pockets of the stockholders, did not materialize. The company had assessments instead, to meet the expenses. The land was rented to a man on condition that he pay all taxes, and for years the company has been inactive. The last meeting of the directors was held in 1888. Recent developments near the company's land has infused life in the company, and gas and oil have been found in paying quantities close at hand. The company will hold a meeting at Runkle's hotel on June 30th to consider making developments. There is a promising outlook. Among

Bellefonte Picking Up.

Postmaster W. W. Montgomery, of Bellefonte, had his salary advanced from \$2,100 to \$2,200 per annum.

Mr. Mulbarger, of near Colyer, gave us a call. He had the herding of 130 of the 300 cattle in the Bear meadows. Out of his lot nine head died from the trouble among the stock; of the balance of his lot all but eight head have been driven home to the owners. The eight are to be searched for to-day, and some may be found dead. The balance of the 300, some 160 head, were in care of H. Reitz, but all were looked after by Mr. Mulbarger. The number of dead cattle, thus far, as reported to us is over 40; all the carcasses were

spreading among other cattle since last

Only the Semblance of a Man.

The Houtzdale Journal tells the following: "A good looking well dressed young man from the neighborhood of Coal Run went into one of our stores recently in an intoxicated condition and purchased crackers, soda water and other nicknacks, and proceeded to fill himself to the neck. In his coat pocket he had a pint bottle half filled with whiskey. After eating his lunch he procured a five dollar bill to pay for it, saying that he felt better now, that he had come from Clearfield, where he had just taken his aged mother to the poor house and that a great load was now off his mind. Such inhuman wretches should be stricken from the face of the earth, and the sooner the better. A man whose condition would permit him, if he would, to care for the woman who bore him and then neglect her and force her to go to the poor house, is in a great degree lower than the lowest four-legged

The Council Repairing the Reservoir,-Water Getting Low

The boro council again started work on their reservoir last Thursday, having secured a plan to make repairs which is claimed will be satisfactory. A Mr. McErney, from Lock Haven, is here and under his supervision a wall of clay is being built on the west and south ends of the reservoir. The wall is to be about three feet thick and will not be faced with stone, and the basin will be what can be termed a mud hole. From the present condition Silks for Waists, 35 to 95c a yd. many wonder at the need of repairs Ladies' Vests, 5 to 24c. head for taking care of such cattle for the reservoir will be almost need- Men's Shirts or Drawers, 24 to 48c. less. During some hours in the day families living on the higher parts have been without water.

Decision on Side Path Law,

A legal point in connection with the sidepath law has been raised up in Bradford county. Application was made to the court for a mandamus to compel the county commissioners to levy the tax on bicycles at once, and Judge Dunham granted a rule on the commissioners to show cause why they should not do so. The position taken by the commissioners is that under the law the sidepath commissioners cannot enter upon their duties Do you know that you until the first of January after their appointment (which will be next January) and that they, the county commissioners, cannot levy the tax until the recommendation from the sidepath commissioners has been made to them, and such recommendation, by the sidepath commissioners, cannot be made until they have entered upon the duties of their office. In some of the counties of the state the tax has already been levied and the new law put in full operation, but it is quite possible that they have been a little too fast, for the Bradford county commissioners seem to have the law on their side, although if the wheelmen are willing to pay the tax nobody else ought to complain.

Farmers' Institutes.

The county board of Farmers' Institute managers will meet at the County Commissioners' office, on Saturday, June 17, at ten o'clock to arrange for the places where Institutes are to be held this season. All of our people who desire institutes ought to attend campment at Wilkesbarre Wednesday | this meeting and present their claims. ne stock holders now residing around give the information that nine years This board is composed of the local here are B.
