Stand Up to fit a Shoe,

"People would find less difficulty with ready made shoes," said the experienced salesman, "if they would stand up to fit them on, instead of sitting down. Nine persons out of ten, particularly women, want a comfortable chair while they are fitting a shoe, and it is with the greatest difficulty you can get them to stand for a few minutes, even after the shoe is fitted. Then when they begin walking about, they wonder why the shoes are not so comfortable as they were at first trial. A woman's foot is considerably smaller when she sits in a chair than when she walks about. Exercise brings a larger quantity of blood into the feet, and they swell appreciably. The muscles also require certain space. In buying shoes this fact should be born in mind."

Those Stroudsburg clergymen seem bound to keep themselves in hot water. First it was a proposed brewery that troubled them; then it was the husbands who keep their wives home from church to cook an elaborate Sunday dinner that annoyed, and now they are wrestling with the femininehat-in-church problem. One minister thinks the ladies should remove their hats in church; another thinks good taste should be displayed in the style of hat worn, and still another thinks that a good deal depends upon the location of those who flourish the largest feathers and have the loftiest floral decorations. The women have not yet been heard from on the subject.

No Cigarettes in Tennessee.

The supreme court of Tennessee declared the law forbidding the sale or giving away of cigarettes in that state constitutional, and said, in part, as follows: "We think cigarettes are not legitimate articles of commerce, because they are wholly noxious and deleterious to health. Their use is always harmful, never beneficial; they ossess no virtue but are inherently bad, and bad only; they find no true commendation of merit or usefulness in any sphere. On the contrary they are widely condemned as pernicious altogether. Beyond question their every tendency is toward the impairment of physical health and mental

A Good Decision.

Going to jail to save costs or fines or decree to pay a certain sum to a wife is a very common method. It would be stopped if all judges were like Judge Miller, of Mercer county. He holds that the insolvency law applies to common debts only-not to penal sentences, such a sentence is not a common debt, but a punishment. Judge Miller ruled that if a man does not pay toward the support of his wife the sum decreed by court, then he should remain in jail indefinitely.
