CENTRE HALL, PA., THURS. July 13

DEMOCRATIC COUNTY TICKET.

- SHERIFF, CYRUS BRUNGART, Millheim; TREASURER, WM. T. SPEER, Bellefonte; REGISTER, A. G. ARCHEY, Ferguson Twp; RECORDER, J. C. HARPER, Bellefonte; COMMISSIONER, DANIEL HECKMAN, Penner Twp; PHILIP H. The Ohio Democratic clubs, in their convention last week, strongly endorsed Bryan.

Fifty thousand pounds of American beef, bought for the British navy, was destroyed as unfit for use.

Colonel Oliver, a knowing Tammanyite, says the rank and file of Tammany will follow Bryan anywhere.

McKinley is now determined and proposes to crush the rebellion in the Philippines. Bully for McKinley.

Watermelons are so plenty that the larger ones are retailing at 12 to 15 cents. For once the coons are in clover.

The Clay county, Ky., Republican delegates went to the state convention bringing with them saddle bags filled with pistols. Glorious g. o. p.

County chairman Gray is neutral in this fight of ex-governor Hastings' beneficiaries to down him so they may be in line for further pap from the machine.

"Up goes the price of coal." An advance of 25 cents for July has been announced, and it is said another raise will be made in September. The coal trust wants money to burn.

Quay is having trouble in his camp. The supreme court and state treasurer-ship is dividing the boss and his machine. His lieutenants do not favor the state of the boss for these places.

Alger holds a club over McKinley and threatens to embarrass the President if forced to resign. He tells his friends the President was aware of and responsible for war department's mistakes.

Alger refuses to leave the cabinet and the President lacks the courage to say "git." Herein Alger is guilty of ingratitude the President having had a committee appointed to whitewash his rotten beef secretary.

Alger is getting the cold shoulder as a member of the cabinet. It's rough, coming so late, and after having sickened and killed off many of our soldiers with rotten beef, for which the President had a committee whitewash him.

The ladies down in the eastern counties are in a panic over a new insect which bites them on the lips, and is called the "kiss bug." The ladies, for ages, have been kissed by hum-bugs, and never a word of complaint was heard.

The Chicago Tribune Fourth of July casualty list includes returns from 250 cities and towns. The leading figures are: Dead, 33; injured, 1,730; fire losses, \$233,070; injured by cannon crackers, 731; injured by powder explosions, 257; injured by toy cannon, 250; hit by stray bullets, 60.

The President has issued a call for 10 regiments to help out our army about Manila, which has lost all it had gained, through bad judgment at Washington. In making this call for ten more regiments the President has done what should have been done months ago.

Since this journal, and others, has exposed Governor Stone's contract for costly improvements about the executive mansion, he has backed out of the matter and now says he was not in earnest about it. Yet plans were laid, prices fixed and contracts signed. The hammering the newspapers gave the Governor, did some good.

The glorious Fourth is over, but there are a good many in the hospitals in the cities that are not over it yet, and will not be for some time. Some have hands torn off, others a leg, still others have eyes ruined, and not a few were killed. The big fire cracker and the cannon got in their work as usual. Yet the Fourth will come around once a year.

Pennsylvania paid \$25,500 last year for the slaughter of cattle afflicted with tuberculosis. It was money well spent. Scores of valuable human lives were doubtless saved from death by tuberculosis by the action of the Live Stock Sanitary Board in ordering the killing of these animals. Stock like these beef packers called "canners" and Alger fed the meat to our soldiers.

The only issue is Quayism. Now why do some Republicans try to dodge this by fighting Hastings who is not a candidate for anything? Quay is the issue. Wait until Hastings asks for something then go for him. Don't lack courage to meet Quayism fairly and squarely.

Quayism is the sole issue! It has come down to this with Governor Stone, that if a woman holds a position under the state government and she has a son, cousin, first, second or third, that is not friendly to the boss, the woman will be threatened with removal by the Governor unless she can bring her relative out of the ranks of political virtue and to the worship of Quay.

The New York Herald has been butchering United States Senators to find out how they would cast their votes in case Mr. Quay should knock at the door of the Senate and ask admittance on the strength of Governor Stone's appointment. As a result The Herald finds that thirty-three Senators would vote to let him in; thirty-one would vote against admittance, and seven could not be interviewed.

For 45 days Rev. T. Hughes Perry, pastor of the Welsh church, Utica, N. Y., has taken no food. Mr. Perry's long fast was taken upon advice of a specialist, who is treating him for a chronic stomach disease. For four weeks he drank only water, but freely, but for the last weeks has taken it only in small quantities.

A preacher who can live on water alone would suit those congregations who barely pay their pastor enough to buy his bread.

It is rather amusing to hear some of the Republican leaders trying to make people believe their party is opposed to trusts. The records of the last congress show that the Democrats offered an amendment to the Dingley bill putting on the free list all manufactured articles affected by the trusts and the Republican congressmen voted it down. Then again there was not a trust in 1896 that did not support Mr. McKinley and contribute largely to the Republican campaign.

The catch of shad on the American coast this year is estimated by the Fish Commission experts at 13,000,000, or an increase of 150 per cent. since 1885, when the Commission began the systematic collection of eggs and the distribution of shad fry.

Alger holds a club over McKinley and threatens to embarrass the President if forced to resign. He tells his friends the President was aware of and responsible for war department's mistakes.

The New York Herald made a canvas of the standing of Senators on the question of admitting ex-Senator Quay to the Senate. The totals are:

For seating, 33; against, 31; doubtful, 15, and Senators not reached, 7. There are vacancies in Utah, Delaware, California and Pennsylvania, thus leaving the Senate with 86 votes and requiring 44 to seat Mr. Quay.

The canvass is incomplete, for many Senators, owing to their long association and personal relations with Senator Quay, as well as many of the new men, absolutely decline to give an indication of how they will vote. A considerable number of others are in Europe or away from their homes and beyond reach. Of those who are set down as for or against the seating of Quay, not all have committed themselves, but their standing in some instances has been inferred from their previous action or known opinions.

The table leaves Mr. Quay in need of 11 more votes. That is, he must secure just one-half of the 22 votes tabulated as doubtful or not reached. It appears impossible for Mr. Quay to get the remaining 11 votes.

Another harmony Stone has been thrown into the quarrelling Republican shantytown in this county. Edmund B. Rankin, a clerk in the Insurance department, at Harrisburg, has been requested to resign to make room for a Quay man. Young Rankin discharged his duties to the utmost satisfaction of the insurance department. But his sin consists in being a brother of Mrs. Hastings and she the estimable wife of ex-governor Hastings!

Well now, why all this petty persecution? Why are the beneficiaries of Governor Hastings' kindness, in this county, making a fiendish attack upon him in all manner of ways? Isn't this base ingratitude and indecent? The Ex-governor is now a private citizen and not seeking any position. It is Quayism run mad; it has brought reproach upon our state and is engaged in an effort to destroy all who will not bow to the boss. Will the Republicans of old Centre be the slaves of the boss who would spare neither age nor sex unless bowing to him?

"SENATOR QUAY WAS TRIUMPHANTLY ACQUITTED."

The Republicans of this county are having a bitter family fight, which is waged to uphold or squelch the machine—Quay and anti-Quay. So far as concerns the Killkenny cat part of the fight for corruption, we care not how thick the fur flies, but where the public good is at stake we consider it a duty to uphold what is truth.

A Quay circular has been put out broadcast in the county, which we denounce for a flagrant untruth it contains, saying,

"In a public trial before a jury, Senator Quay was triumphantly acquitted of every charge that was made against him."

Now this is grossly misleading. Senator Quay was acquitted because he pleaded the two year limitation. The prosecution had ample evidence to convict him but he pleaded the dishonest man's last straw, the limitation.

The case was that of John Cheat purchasing a horse from honest farmer Jones who kindly permitted the account to run six years, then Cheat pleaded the limitation, and the whole Cheat family proclaimed, "father, in a public trial before a jury, was triumphantly acquitted of every charge that was made against him."

Edmunds On the Philippine Policy.

In the "Independent" are several articles on the Philippine policy of the administration, principally by Republicans. Congressman Hitt, chairman of the committee on foreign affairs, writes:

"There are some who say that the lust for military glory has been the cause or downfall of all the republics of the past, but that is not true. The past has had few or no true republics, certainly not any at all comparable with the United States. We are making precedents. There seems to be a great war cloud forming over China, but I see no reason that will require us to join the conflict."

Senator John T. Morgan, of Alabama, writes: "The flag we have planted on the Philippines is consecrated to the same liberties it shelters on the capital at Washington."

Ex-Senator George Edmunds, arguing against expansion, demands that the Government disclose to the people precisely what took place before the capture of Manila and what promises were made the Filipinos. He asks if Spain had anything but a "pretended" sovereignty to cede, and demands a reason for the sudden turning of Filipino friendship into hostility.

Drowning Out Our Troops.

From Manila, July 10: It has been raining and storming almost constantly for two days, and the country along the army lines is literally flooded. The soldiers are suffering great discomfort.

The 13th infantry regiment, at Pasay, is in the worst position, being practically surrounded by water.

The bridges that were used for getting supplies have been washed away, and some of the companies are now separated by streams six feet deep.

In many cases the men are sleeping with three feet of water beneath their bunks, which are elevated on cracker boxes. The company cooks when preparing the meals stand knee-deep in water.

Some of the roads leading to Pasay are simply impassable, and the rice fields on all sides are one great lake. A high wind blew over several tents of the second reserve hospital.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera, and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I would fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by J. H. Ross, Linden Hall;
