SPRING MILLS.

An Interesting Letter, as Observed by Our Correspondent.

Robinson & Bro., the hardware merchants, in addition to a stock of groceries, has now added to their business a full line of hosiery, notions, etc.

There is a first rate opportunity for a good shoemaker in our village. A. J. Graden was the only one we had, and last week he left for Johnstown.

Miss Ida Long, our accomplished assistant postmistress and her sister, Mrs. Robert Neese, returned from the sea shore, and report having had a most delightful visit.

D. H. Ruhl our jovial landlord, reports business good. His house appears to be head quarters for commercial agents, at all events there are generally from a half dozen to ten travelers with him nightly.

The summer vacation is about at an end; school will begin on Monday next, of course some children will walk towards the school house at about a snail's pace—but this is quite natural after a long holiday.

George Long, of Penn Cave, is engaged in painting the plant of the Spring Mills Planing Mill Company. Mr. Long is quite an adept at house painting, using his brushes very rapidly and skillfully; of course such workmen are very rarely out of employment.

Today will be quite a holiday here; it is generally understood that all our places of business will be closed, to afford an opportunity for all employees to attend the business men's picnic at Hecla Park. Should the weather prove favorable, the exodus from here will be very marked.

The Spring Mills Creamery Co. has recently introduced into their extensive plant some specially improved machinery. The superiority of the butter manufactured by their company has a wide reputation, and in consequence they are doing a very large business. Owing to the continued and increasing demand the company is operating their plant to its utmost capacity.

Late on Friday afternoon last we had quite a heavy storm in this neighborhood; it rained in torrents, fairly deluging our streets. The storm was accompanied with vivid flashes of lightning and startling peals of thunder; on Saturday evening following, we had almost a repetition, the rain continuing more or less all night.

The picnic gotten up by the members of the Methodist Sunday school, and held in the park on Saturday last, was a very delightful affair. The "little folks" enjoyed it immensely and so did the "big ones," and everything passed off delightfully. The dinner was a profusion of good and palatable dishes, to which every one did ample justice; the attendance was quite large.

G. H. Long, our energetic merchant has just had his yard bins filled with all sizes of very superior coal, prepared expressly for family use; all coal is thoroughly screened previous to delivery. He has also in the yard a large stock of Snow Shoe and Clearfield soft coal. Mr. Long is now very busy furnishing his customers at summer rates their usual winter supply.

Runkle & Snyder, the meat merchants, have dissolved, Mockle Snyder retiring from the firm, having sold his entire interest to Mr. Runkle, who will continue the business on a much larger scale than heretofore. An additional refrigerating machine has been secured and several other improvements added to the building. Bruce, his son, a very intelligent and energetic young man, will drive the meat delivery wagon, and give this department his especial attention. Home dressed meats are in such great favor with this community and the surrounding neighborhood, that Mr. Runkle contemplates adding one or two more butchering days to meet his increasing demand.

A short time ago Edward Confer and Wilbur Leathers made a visit to Mt. Eagle. They were delightfully entertained by the relatives and friends of the latter gentleman. While there they attended a festival held by the members of Kennedy church, and both gentlemen being very liberal and quite distingue in appearance, they were the "observed of all observers." By the way, a decidedly good joke was played upon them by some young ladies, who prepared a lunch to be enjoyed on the home road; when on this side of Bellefonte they concluded to regale themselves, and the lunch package was opened, Great Scott!! three large onions, or many yellow cucumbers and the remains of three or four ears of sweet corn (the cobs) met their hungry gaze. When the astonishment passed off, the grim joke was fully appreciated, and the shouts of laughter following, was of such a boisterous character, that it was with difficulty the horse could be presented from rushing down the mountain.

The base ball game played here last Saturday, between the Millheim and the Rebersburg teams, resulted in a victory for the home team—the score being 6 to 3.

Messrs. Frank Geary and Harry East, of Berwick, arrived in this place on last Thursday evening to pay a visit to Mr. Geary's parents, on Mill street. Frank has been away for several months, and all his friends are glad to have him in their midst again.

W. H. Bartholomew and Michael Shires, two silver-tongued insurance apostles have been circulating among the people of this community, faithfully and zealously preaching the gospel of life insurance. They are aggressive workers and seem to be doing business. They know their lesson and are not too bashful to recite.

The drought in this place and surrounding country outdid anything of its kind that can be recalled by the oldest weather tallies. Wells that had never failed were dry, and water would soon have been at a premium. The fact that we have *Raine* always in our midst, did not appear to alter the situation.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended and I decided to try it. I soon noticed a change for the better; by its continued use a complete cure was brought about and it is now perfectly healthy.—C. L. Boggs, Stumptown, Gilmer Co., W. Va. For sale by J. H.
