Democratic chairman Rilling has challenged Republican chairman Reeder to a joint discussion of the state issues. Reeder will dodge.

Major Jones, of the army, quartermaster at Manila, gives it as his opinion that 50,000 men will have to be kept on the Island of Luzon for ten years in order to keep the peace.

The Transvaal refuses to back down, by setting aside Britain's demand for new concessions. The crafty chieftain of the Boers, Kruger, demands fulfillment of the English proposal for a joint inquiry.

The Transvaalers ask the United States to use its good offices to make peace between them and the British. Don't the Boers know that Uncle Samuel has his hands full making peace with the Philippinos?

The wheat crop of France this year is 9,000,000 hectolitres less than the crop of 1898. It will be necessary for France to import, between now and next May, 1,500,000 hectolitres to supply the home requirements. A hectolitre is near three Winchester bushels.

The objection against great vessels like the Oceanic is that there are few ports in the world which they can enter. The Oceanic could only reach New York by taking advantage of high tide. It is more feasible to accommodate the ships to the shore than the shore to the ships.

The Trusts are still rooting out the drummers. All the commercial travelers employed by the firms taken into the National Glass Company, the new tableware trust, have been ordered by wire, to the number of 200, calling them home, as they will no longer be needed.

The Reading city Democratic committee has recommended that candidates shall neither directly or indirectly buy beer or other liquors or treat fending candidates shall be dropped from the list and their names not submitted to the voters.

The weather bureau has given out the deaths and damage by the great August hurricane along the coast. It appears that 250 lives were lost. Most of these were fishermen, drowned at rate of 140 miles an hour. The loss to crops on the mainland amounted to half a million dollars. The rainfall the Quay gang, the Quaker City bank, was eight inches in 48 hours.

A new capitol that is a disgrace to the state and will have to be razed to the ground, was an out-and-out waste of half a million dollars, three-fourths of which was scooped by the Quay capitol job as a starter with a twelve million figure as a finisher. POLITICAL NOTES.

Josiah Adams, whom Quay, in order to truckle to Mayor Asbridge, of Philadelphia, has nominated for the superior court can well afford the luxury of an ocean going yacht and to substitute champagne for water for drinking purposes when he has been accused in the courts of robbing estates and as the receiver for the gutted Penn Trust and Safe Deposit company he has nursed the job for eight years and in that time collected \$80,000, out of which he has paid in fees and expenses voters. If this rule is violated the of- \$24,000 to himself and colleagues. Is this the stripe of man the people of Pennsylvania want to elevate to the second highest court of the state?

Since the notorious People's bank, of Philadelphia, which was founded by Bill Kemble, of "addition, division and silence" fame, and who was convicted of bribing Harrisburg statesmen to vote for the Pittsburg riot bill, was wrecked by its cashier, who blew out Swan Island. The wind blew at the his brains, and which dragged down into the vortex with it the Guarantee Trust, another rotten financial and political concern that was managed by of the state metropolis, has become Quay's pet bank. It is kept stuffed with state treasury money, while the school authorities in the various counties are clamoring for the funds due them with which to pay the salaries of poor teachers. Whenever Quay honors Philadelphia with a visit he hastens to the Quaker City bank as straight as machine. Next will be a five million the crow flies to fix up his financial affairs with its president, who made a fortune out of politics before he became a banker. Quay and his lieutenants and 'prentice boys are loaded down with the stock of the National Electric company, which was organized to blackmail the Electric Trust of Philadelphia, and which scheme is a great public scandal. Of course the state's money is put up as "margin" to carry this stock, individual notes being given, as was proven in the Quay trial. The state treasury being without money the poor school teacher

> If "Farmer" Creasy is elected state treasurer this gambling with the state's money and this gorging of favorite banks with state deposits will cease. > Governor Stone, who is a man of all work for Boss Quay, stands as a breakwater between the people who demand, but are denied, honest elections and ers, padders of the voting lists, professional vouchers of bogie voters, the midnight alterer of election returns, the plug ugly, the pimp, the colonization dive keeper, the policy and gambling shark who thrive through police protection in return for his crooked work at the polls, the unnaturalized scamp who has the freedom of the nity, and the grand chorus of unhung and unjailed rascals that debauch the big cities of the state. Is it any wonder that Governor Stone said to himself, "To hell with the constitution," and then vetoed the legislative resolution of voters in cities and the introduction of voting machines? Stone knows well what a valuable and indispensible ally the repeater, the false counter and the ballot thief generally self received not less than 60,000 fraudulent and illegal votes for governor. Neither he nor the Quay gang want any honest elections in theirs.

> "I am prepared to meet every issue my friend Creasy raised here yesterday by facts and figures," shouted the triple expansion office grabber, General Gobin, to the farmers at William's sheered off from Creasy's facts and figures and began to shoot holes in the and figures. They ran away from them at Quay's state convention faster than the Spanish from the Rough Riders at El Caney, and they will run away from them on the stump and in their machine press during the campaign. Colonel Barnett has suddenly discovered that his liver is disordered, that he is filled with malaria germs, and that he requires a course of treatment at a sanponed.
