A WORTHY PROJECT.

A Concert for the Benefit of a School Library Fund.

Prof. B. M. Wagenseller, the efficient principal of our schools, realizing that the scholars in his department and in those of the other grades would be greatly benefited did they have access to a library however small, will make an effort to provide the schools with one. The school board not having available funds at hand can give little material aid in the project, and Prof. Wagenseller will endeavor to raise the necessary funds by providing some first-class entertainment which would be liberally patronized by the public. At present he is negotiating with the Fry Concert Company for one night in Centre Hall, the proceeds of which will be devoted to the library fund. This move should receive the heartiest co-operation of every one in the community. A library for the schools would be a great benefit to scholars for reference and a means of providing sound and healthful literature for the youthful mind.

The Fry Concert Company will be in Grange Arcadia on Thursday evening, October 26. The company is strongly recommended and has received many flattering endorsements. Tickets can be secured from scholars and at stores in the town.

Compulsory Attendance.

The law of compulsory attendance of children at public schools as now amended obliges all between the ages of eight and thirteen to attend school at least 70 per centum of the time in which the school is open, such attendance to begin at the opening of the term. It also applies to all children between thirteen and sixteen who have not steady employment. All children therefore who come within these provisions must attend school at least fourteen days of every month of the term. A parent or guardian who violates this law by not sending the child to school is liable to a fine of two dollars for the first offence and five dollars for each subsequent one.

The Office Ballot.

Eight columns will be printed on the official ballot to be voted at the next month's election as follows: Republican, Democratic, Prohibition, People's, Socialist Labor, Union Reform, Bryan Anti-Trust and a blank for the accommodation of persons who may want to vote for persons not on any of the party tickets. The Democratic and Bryan Anti-Trust tickets are identical, and the Socialist Labor will not be known until the Dauphin county Court has decided whether the Philadelphia or Pittsburg faction shall have the place.

Petition for Postmaster's Retention.

The friends of W. S. Miller, the Rebersburg postmaster, who was arrested by the United States authorities for tampering with the mails, and who is now under \$500 bond for trial at the March term of court, at Scranton, are circulating a petition to be sent to the Postmaster General asking for his retention in office until he is convicted of the charges against him or cleared at his trial. The petition is being signed almost unanimously by the patrons of the office at Rebersburg, who are a unit in asserting that the proceedings against him were instigated through petty jealousy and political animosity.

An Aged Lady.

At Mt. Carmel, Pa., living with one of her sons, is the widow of Henry B. Mussina, formerly of Aaronsburg, now 90 years of age. The Mussina family was well known 30 years ago, in the east end of our county. There were four sons and two daughters. The oldest of the sons was Lyons Mussina, a prominent citizen and banker of Lock Haven. The other sons are in the mercantile business in other places. Druggist Heiser, of Lewisburg, is a grandson, and on Sunday last he and his family drove to Mt. Carmel to pay grand-mother Mussina a visit.

He was putting the last log on his wagon when it rolled off and struck his right leg, breaking the leg near the ankle and otherwise injuring him. He was taken to his home at Colyer and Dr. Park summoned, who set the injured member.

Last Story of the Season.

The snake story season closes with the following: Last week Craig Crossmire, of Milesburg, was walling up a cellar for George McLinsie, at what is known as Summit Hill, and while going to his work he passed a place along the road where William Eminheizer and James Watson had taken six-five snakes out of eggs and piled them out on the road in a heap. They were taken from under an old pine log which was lying along the side of the road.

COAL DISCOVERED.

Farmers Find Coal While Digging for Water.

Considerable excitement has been occasioned in the Bald Eagle valley by the discovery of coal within a half mile of Unionville. The discovery was made in the past few days by two farmers, W. H. Potter and Reuben Comley. The men were digging wells when they struck the vein of coal at a depth of ten feet. The outcropping vein is but ten inches thick, underneath which is a five-foot vein of high grade fire clay. Below this lies the main coal vein. The full thickness of this has not been properly tested. The coal is of the best quality of bituminous found in the Clearfield regions. The land owners will at once seek to develop the discovery.

In addition to the above an oil and gas excitement has been created by the discovery of very good signs of the former in Rush township. So substantial are the evidences of both oil and gas that John D. Long, of Phillipsburg has organized a company with a capital of \$5,000 for the purpose of thoroughly prospecting the locality. Already three thousand acres of land have been placed under lease and the company is still leasing every foot it can obtain.

A Good First-Class Scrap.

The couple hundred spectators witnessing the foot ball game at State College on Friday between that team and the Washington and Jefferson team, witnessed a good old time scrap between the teams. Rough playing was the feature from the start and the game had only progressed a few minutes when a W. and J. man was accused of some foul work on a State man. There was a rush of players and spectators towards the fray, and it was big time for a while. The game could not be continued on account of the riot. Neither team scored. The scrap was witnessed by quite a number from Centre Hall.

Shower of Stars Coming.

On the night of the 14th of next month there will pour from the heavens the most remarkable and spectacular stream of shooting stars ever predicted by astronomers. In Washington the scientific of the United States naval observatory are making elaborate preparations for observing the coming appearance of the Leonids, while throughout the colleges, universities and astronomical observatories of the United States and of the world thousands of men trained to a knowledge of the stars are awaiting with eager interest an opportunity to observe the grandest of celestial phenomena.

Not Right.

A poor man buys a horse from a stranger, which turns out to have been stolen. The rightful owner comes along, proves the property and takes the animal. The poor man has no recourse. Again: A rich man buys a note off hand from a stranger. It turns out that the note was obtained by fraud. The man who made the note comes along and is compelled to pay the note on the grounds that it is in the hands of an innocent purchaser. Why is this different? Was not the man who bought the horse an innocent purchaser, too?

Centre Hall has at least two additional houses to be erected during the next year.

Fears a Rebersburg Child was Bitten.

Beginning of last week Mrs. R. Z. Salem went to Rebersburg to visit the family of her son, Rev. H. C. Salem. During the recent visit of the Reverend and his family to Selmsgrove, recently it is feared that his child might have been bitten by Dr. Pottelger's dog, as the two families live in adjoining houses, and the child had frequently been at Pottelger's and has been known to play with the dog, Mrs. Salem's anxiety in the matter caused her to make the trip to Rebersburg.

The Selmsgrove Dog Was Mad.

Selmsgrove Tribune: Frank H. Smith who was in New York has returned from the Pasieur institute, reports that the patients taken from this place are all receiving treatment and are doing finely. The dog which did the biting, died in a spasm at the hospital on Monday, 9. We are pleased to be able to state that after a two weeks' treatment they will be allowed to come home.
