on Saturday evening, of the death by poisoning of three hunters, Solomon 24c. to 34c. Oldfield, Wm. Gibbs and John Trout, at Koney's Creek, W. Va. They, with Richard Dollard, went out on a mountain to hunt, it being their intention to remain out several days, and had with them the usual camp supplies. The next morning they prepared breakfast, making coffee in an old kettle. They all drank the coffee except Dollard. Soon after all three were taken iil.

Dollard rushed off for aid. On his return the three men are reported to have been dead. An investigation was at once instituted, which resulted in the finding of a copperhead snake in the kettle. The reptile doubtless

crawled unnoticed into the vessel while the coffee was cooking. The Bradford hunting party came home last week after a four or five days' hunt without any venison. They saw two or three deer, but did not get a shot at them. Later in the season this same party is going out again for
