Twin Hunting Accidents.

Harry Kistler, of Wichita, Kansas, went hunting, the other day, despite the protests of his wife, who believed the trip would end fatally. A few miles from town Kistler called his dog and bade him get into the buggy. As the dog did so, he struck the hammer of the gun, discharging one barrel into the face of Kistler, who died almost instantly.

A few miles away, and almost at the same hour, Arthur Mulvane, who was hunting, called his dog to get into the buggy. In doing so the dog caught the hammers, discharging both barrels into the side of Mulvane, who died a few minutes later.

Make a Note of It.

It is natural all desire the best for the table and kitchen during the holiday season. For the needed pure and first-class articles of food, China, glass and table ware, Sechlers keep up their deserved reputation. Confectioneries, fruits, nut, oysters, none but freshest and best. Spices pure. Wood and willow ware, lamps, cutlery, etc., of a line for acceptable Christmas presents. Remember, at Sechlers, prices fair.

Scarcity of Christmas Trees.

There was a time, but that was many years ago, that the swamps and forests of this region contained thousands of Christmas trees, all of which went to supply the home market. Time and conditions have changed, however, for at the present time there cannot be found a dozen of these household ornaments, where there were thousands before.

SPRING MILLS.

Planing Mill Employees Dined.—Other News of the Barg.

All of our merchants report a very fair business during November; Commercial agents passing through our village report trade on the road rather quiet.

Owing to an unexpected large order for finished work received late in the week, and to be shipped Saturday morning last, the Spring Mills planing company were obliged to operate their plant on the Friday previous until after midnight. The company is doing a big business.

The union meetings in the M. E. church at this place commenced on Wednesday evening last, and were largely attended. On Saturday Evangelist Warden arrived, and the daily and nightly meetings will continue until the 15th. The capacity of the church building is not sufficient to accommodate the large attendance.

Butchering seemed to be the general card every day last week, particularly on Saturday. Long before daylight our village was fairly illuminated by the innumerable fires built for butchering purposes. A dozen or more of our people on that day were engaged in giving the porkers their quietus. At present sausages are trump.

C. A. Krape of the emporium, has just received a large invoice of elegant shoes, fancy slippers and moccasins for the holidays. Men's patent foxed slippers beautifully embroidered, Norway toe, opera style, just the article for a present. High silk top shoes button, button and lace, for ladies and Misses. These are elegant goods made of genuine Lemoine stock, soft as velvet and wear like iron. For goods of this high grade his prices are ridiculously low; for the little people he has a counter full of all kinds and styles of shoes, many in fancy colors, red, blue, gold, and russet, and in half sizes, so there is no trouble in fitting. Mr. Krape is doing a large business.

On Thanksgiving Day all the employees of the Spring Mills Planing Mill were invited by Mr. Confer, one of the firm and general manager, to dine with him at a chicken and waffle supper at the United Evangelical parsonage. One large table was reserved for the employees; it was handsomely set, artistically arranged, and lavishly supplied with all the "good things of earth," to which all did ample justice. The dinner and supper were gotten up by the ladies of the United Evangelical congregation, and they deserve all praise for the able manner in which everything was conducted and for its grand success. Both meals were largely patronized; proceeds for the benefit of the parsonage. In the afternoon the employees of the mill extended a vote of thanks to the company for their kind invitation, assuring them that the courtesy was highly appreciated.

BOALSBURG.

The Different Hunting Parties from Our Section Met With Good Success.

The Lutheran Missionary Society gave their usual Thanksgiving 'entertainment to a well filled house.

Rev. Rearick preached an earnest and impressive sermon in the Lutheran church at Boalsburg on Thanksgiving.

The High school base ball team played a game of ball with the Lemont team last Thursday, with two substitutes on the team. They won from Lemont by a score of 7 to 17. The special feature of the game was the batting of Stuart.

The deer hunting season is over; the following is the number killed in the Seven mountains by hunters from this place: Reley party, two; Markle party, four; Modocs, four; the Miller party, seven deer and one bear. Total, seventeen deer, one bear. This is the largest number shot for several years in these mountains. There are still many deer in the mountains; they seemed more plentiful this year than for many years past. It is thought they are so plentiful owing to the burning of the Diamond valley.

The friends of Hon. Thomas F. Reley will be glad to learn of his improvement. Mr. Reley had been hunting in the mountains for three weeks previous to his illness. He with his party returned Saturday afternoon in order to spend Sunday at home. He returned in his usual good health on Saturday, November 25th, with no apparent ill health; on Sunday he attended church, but during Sunday night he was taken with cramp which continued through Monday and by evening it was diagnosed as appendicitis. He continued growing weaker; on Wednesday Dr. Woods of Pine Grove, was called in, in consultation with Dr. Kidder. Mr. Reley is now very much improved and with careful treatment may regain his usual health.

Miss Mary Shoemaker and her mother, of Milroy, spent a few days very pleasantly at the home of Samuel Ard, and were present at the sociable on Saturday evening.

On Monday W. L. Hosterman, manager of the Coburn grain house, butchered hogs by wholesale; some twenty hogs were killed and prepared for market in one day. Most of them were shipped into the anthracite coal regions.

It has become a notorious fact that some of our young boys in the vicinity of Coburn, can't come to a public gathering without being drunk, and raising a disturbance, and the most deplorable thing about it is, the majority of them are minors. We think it high time that the parents of these boys, and others, should try and find out where the intoxicants come from, and punish the guilty ones. We have stringent laws for such parties if they could only be enforced.

Meyer Bros., of Coburn, bought the Samuel Burrell farm south of this town, for \$88 per acre. It is said by some that the timber will almost pay for it.

Mrs. Mary Jane Musser died on Monday morning, of pneumonia, after an illness of less than one week. Her husband, Dr. Musser, died December 31st, 1890, almost nine years ago. Had Mrs. Musser lived until the coming January, she would have been 58 years old. She leaves three children, a daughter, Ella, married to Rev. Ivey, they live at Warren, Pa.; Harvey Musser, who is an attorney practicing law at Akron, Ohio, and Dr. C. S. Musser, at home with his mother.

Foster's Weather Forecast.

My last bulletin gave forecasts of the storm wave to cross the continent from the 4th to 8th, and the next will reach the Pacific coast about the 9th, cross the west of Rockies country by close of 10th, great central valleys 11 to 13, eastern states 14.

Warm wave will cross the west of Rockies country about 9th, great central valleys 11, eastern states 13. Cool wave will cross the west of Rockies country about 12, great central valleys 14, eastern states 16.

Temperature of the week ending December 18 will average about normal in the great central valleys, below in Atlantic states and on Pacific slope. Rainfall will be about normal in the great central valleys and above on the Pacific slope and in Atlantic states.

About the date of this bulletin a low temperature wave will be near meridian 90 or extending from Cleveland to Galveston. The north end of these high waves are usually further east than the south end.

But a sudden rise in temperature may be expected to reach meridian 90 by 9th, and as sudden a fall will immediately follow.

January and March will be the coldest and most stormy months of the winter, and a large amount of feed will be necessary in order to pull live stock through.

Many farmers are holding old corn, which they intend to sell during the winter. In my next bulletin I will advise them to sell. The corn market will probably be demoralized before the end of December. I will probably have some important advice on wheat in my next bulletin.

The last week in December will give us a great fall in temperature, with heavy snows north and rains south. The high temperature preceding the cold wave will reach meridian 90 about 23.

A SURE CURE FOR COUGH.

Twenty-five Years' Constant Use Without a Failure.

The first indication of cough is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the cough appears, it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mother. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by J. H. Ross, Linden Hall; S. M. Swartz, Tusseyville; F. A. Carson, Potters Mills; H. F. Rossman, Spring Mills; J. F. Smith, Centre Hall.
