President McKinley, with Members of His Cabinet; Major General Miles, Admiral Dewey and Other Notables in Attendance - Salute Fired and Taps Sounded.

Washington, (Special.)-The remains of the one hundred and fifty victims of the Maine disaster brought from Havana by the battleship Texas were buried with full military honors upon a knoll in Arlington Cemetery. The exercises were exceedingly sim-They were in charge of Captain Sigsbee, now of the Texas, who was captain of the Maine on that fatal night when his ship was blown up in Havana harbor two years ago. They were attended by President Mc-Kinley and the members of his cabinet, Admiral Dewey, Major General Miles and his staff, and many other officers of the army and navy stationed in Washington. Among them were Lieutenant Commander Wainwright and Lieutenant F. C. Bowers, both of whom were on the Maine when the explosion occurred. All the army and navy offi-

cers were in full uniform. Several troops of cavalry from Fort Myer, a battalion of marines from the navy yard and a detachment of sailors from the Texas were drawn up about the flag-draped caskets, which were ranged row on row along the brow of the hill, each bearing a beautiful wreath of galax leaves. Despite the snow and nipping cold over a thousand spectators pressed against the roped-lined enclosure to witness the ceremonies. The Marine Band played a dirge, "Safe in the Arms of Jesus, and then simple Protestant and Roman Catholic funeral services were conducted by Chaplain Clark, of the Naval Academy, and Father Chidwick, the chaplain of the Maine, under a canvas-canopied shelter in the open space facing the square in which the coffins lay beside their open graves. After the religious services a detachment of marines in their spiked helmets fired a salute of three blank volleys for the dead and a bugler sounded "taps." The ceremonies lasted barely twenty minutes. Among the sailors of the Texas present was Jeremiah Shea, who had a miraculous escape on the night of the explosion, being blown out of the stoke hole. He was introduced to the President by Captain Sigsbee.

#### DELAGOA BAY.

Denial of Reports About the Partition of Portuguese Territory.

London, (By Cable.) - In the absence of actual war news, the sensational newspapers of London, Paris and Berlin are publishing all sorts of wild rumors and stories, suggesting foreign complications and treaties between Germany, Portugal and Great Britain concerning Delagoa Bay, and providing for the partition of the Portuguese colonies. These stories are also being cabled to the United States in extenso.

So many alleged disclosures of secret Delagoa Bay agreements have recently been submitted to the British Foreign Office that the officials have made it a rule neither to deny nor affirm them, and when questioned regarding the statements of the Lokal Anzeiger, of Berlin, about a reported treaty the officials adhered to this rule. But a representative of the Press gathered that the alleged disclosures were quite inaccurate.

A despatch to the Times from Berlin comments on the Lokal Anzeiger treaty state

ments as follows: When it is remembered that two of Portugal's Asiatic positions, Gos and Damao, form enclaves of the province of Bombay, the statements of the Lokal Anzeiger border on the fantastic."

The St. James Gazette, in an editorial on the reported treaty, says it is "a mere patchwork of previous reports, some partly true and some entirely false.

The probable truth is that, as previously reported, the Portuguese possessions in Africa, north and south of the Zambesi, will ultimately be leased to Great Britain and. Germany, respectively.

"It is satisfactory," says the Times editorially, "to learn that the Washington government is acting with regard to the American cargoes seized in Delagoa Bay as we should have wished and expected. It is a matter of course that we shall make full reparation, if reparation is proved to be due. In the meantime, it may be noted, as the Americans themseves admit, that the facts are in considerable doubt, and that some of them seem to be rather compromising to the v ssels seized. There will be time enough to talk of the law and the policy of the step when the facts have been authoritatively ascertained."

The Sort of an Agreement President Kruger Would be Willing to Make. London, (By Cable.)-A despatch from

Vipston Churchill says that from conversations with members of the Transvaal executive at Pretoria be learned that the Boers began the war with trepidation, but that President Kruger is now confident Great Britain will soon sue for peace.

In the highest Transvani circles, Mr. Churchill asserts, there is serious talk of a compromise, by which Great Britain would sede the territory now occupied by the armies of the two republics, pay an indemnity of £20,000,000 (\$100,000,030) and acknowledge the complete independence of the

## DISASTROUS EARTHQUAKE.

Six Drunken Indian Squaws Crushed to Death by Falling Walis-Those Killed

Were Horribly Disfigured. San Jacinto, Cal., (Special.)-This little city is a scene of desolation. People are beginning to recover from the terror inspired by the earthquake which centered here on Christmas morning, and destroyed every brick building in the town, and some definite estimates of the damage wrought can now be made.

At the Saboba Indian Reservation, near here, a dance had been held the night before, and large quantities of whiskey con sumed by the Indians sent most of them into a drunken stupor before the shock came. A number of squaws had huddled together in an old abode building, and were sleeping off the effects of the liquor. The heavy walls fell in upon them, six were killed outright, and two died later, while a score more were badly injured. Those killed were horribly crushed.

Main street presents a sad appearance. It is impossible to walk along the sidewalks because of the heaps of debris and overhanging walls. Brick walls were razed to the level of the ground with thousands of dollars' worth of merchandise buried underneath. There is not a business house in town

but has suffered. Electric wires are down and some of the powerhouses have fallen in. The walls of the ounty hospital, erected recently at a cost of

\$10,000, are badly damaged. At Hemet, the hotel was damaged to the extent of \$10,000; Bingham's flour mill, \$2,000. The fire walls of Webber's brick store fell out, the plate-glass windows were smashed, and the entire stock of goods is on the floor in a heap. The chimneys of the hotel fell, many of them crashing through the roof. One fell on the bed of Frank Johnson, bruising him badly. The verandas are all down and the walls badly cracked. The rear wall of the Johnson block fell outward, and the whole building was demolished. The third story of the Hotel Mills is down, and the second story walls fell in.

Pugh's store and fixtures were all shaken down. There are but two chimneys left in the town. The gables of the Highland Asylum were cracked and the chimneys shaken

# D. L. MOODY DEAD.

THE REMARKABLE EVANGELIST HAS PASSED AWAY.

# READY FOR THE SUMMONS.

Stricken in Kansas City-A Weak Heart Prevented Recovery-"The World is Receding and Heaven Opening," He Said. When the End was Near-Died Apparently Without Pain.

East Northfield, Mass., (Special.)-D. L. Moody, the famous evangelist, is dead. It was not expected until Friday by the members of Mr. Moody's family and immediate circle of friends that death would be the result of his illness. The cause of death was a general breaking down, due to overwork. Mr. Moody's heart had been weak for a long time, and exertions put forth in connection with meetings in the West last month brought on a collapse, from which he

failed to rally. The evangelist broke down in Kansas City, Mo., where he was holding services, about a month ago, and the seriousness of his condition was so apparent to the physicians who were called to attend him that they forced him to abandon his tour and return to his home. A bulletin issued last week communicated the tidings to the public that Mr. Moody was very fil, but that a little improvement was noticed. This week the patient showed a steady gain until Thursday, when he showed symptoms of nervousness, accompanied by weakness, which caused the fam-

ily much anxlety. The weakness continued, and at 8 o'clock Mr. Moody called his wife and children, telling them that the end was not far off. The family remained close by the bedside all the forenoon. The Evangerist was almost free from pain, and occasionally he talked with apparent ease. Acout the last words he was heard to utter were:

"I have always been an ambitious man, not to lay up wealth, but to find work to do.' Just before 12 o'clock the watchers saw that the end was approaching, and exactly at noon the great preacher passed away. Mr. Moody first knew at 8 o'clock that he could not recover. He was satisfied that this

was so, and when the knowledge came to him, his words were: "The world is receding and Heaven open-

A little later he said to his boys: "I have

always been an ambitious man, not ambitious to lay up wealth, but to leave you work to In substance, Mr. Moody urged his two boys and his son-in-law, Mr. Fitt, to see that the schools, in East Northfield, at Mount Hermon and the Chicago Bible Institute,

should receive their best care. This they assured Mr. Moody that they would do. During the forenoon Mrs. A. P. Fitt, his daughter, said to Mr. Moody: "Father, we cannot spare you." Mr. Moody's reply was: "I am not going to throw my life away. If God has more work for me to do, I'll not

### HOTELS SLIDE INTO THE SEA.

A Strange and Terrible Disaster in Italy-Great Loss of Life.

Rome, (By Cable, ) .-- A terrible disaster took place at Amaifi, the popular tourist resort on the Gulf of Salerno. About two o'clock n enormous rock, upon which stood the Cappuccini Hotel, slid bodily into the sea with a deafening roar and without a mo ment's warning, carrying with it the hotel, the old Capuchin monastery below, the Hotel Santa Calerina and several villas.

Many people were buried in the debris, which crashed four vessels to the bottom of the sea, destroying their crews. The mass of earth which slipped was about 50,000

cubic yards. The population is in a state of terror, fearing fresh calamities. Troops have arrived upon the scene and begun rescue work. It is believed that the loss of life is heavy, including a number of monks and the occ pants of the hotels. As yet it is impossible to ascertain the exact number.

Amaifi is a small but lively town of 7,000 inhabitants, situated at the entrance of a deep ravine, surrounded by imposing mountains and rock of the most picturesque forms. The Capuchin Monastery was founded in 1212 by Cardinal Pietro Capuano for the Cisterions, but came into possession of the Capuchins in 1583. The building, which stood in the hollow of the great rock that rose abruptly from the sea to a height of 230 feet, contained fine cloisters.

## FOUGHT ON MOUNTAINS.

Americans Attack a Strong Force of Filipinos-Insurgents Were Driven

Out of San Mateo. Manila, (By Cable, )-Colonel Lockett, with a force of 2,500, including artillery, attacked a strong force of insurgents entrenched in the mountains near Montalban, about five miles northeast of San Mateo. The enemy were completely routed, the Americans pursuing them through the hills, amid which they fled in every direction.

Four Americans were wounded. The Filipino loss was large, resulting from a heavy infantry and artillery fire for three hours nto the trenches.

It is supposed that the insurgents were hose who were driven out of San Mateo on the day General Lawton was killed. They

num ered probably a thousand. A dozen lines of insurgent trenches covered the steep trail through the bills, and likewise the valley below, along which the Americans passed. The main attacking party consisted of the Forty-sixth Volunteer Infantry, a troop of cavalry and artillery, Colonel Lockett commanding in person. The rest of the command operated from remote points in an endeavor to carry out Colonel Lockett's plan of throwing his lines around the enemy, and thus cutting off retreat. The nature of the mountainous country made it impracticable to execute this movement suc-

wasfully. After the insurgents began to run there was a vain attempt to use artillery.

It now appears that one American was killed in the attack upon the Subig garrison by General Santa Ana.

#### KENTUCKY AFFAIRS MIXED UP. Doubt as to Who the Election Commis-

sioners Are. Frankfort, Ky., (Special.) Governor Taylor appointed W. H. Mackoy (anti-Goebel Democrat) and A. M. J. Cochran (Republican) state election commissioners. The Republican minor state officials-elect, whose contests will come before the board, have not decided exactly what course they will pursue, but as Clerk Shackelford will swear in the Democratic commissioners appointed by Commissioner Poyntz, it is probable Taylor's appointees will institute mandamus proceedings to get, possession of the offices. Democratic leaders do not believe the courts will hold Taylor's appointments good, but they do not disguise the fact that they regret the complications growing out of the

resignations of former Commissioners Pryor A few scattering members of the legislature began arriving, and it is anticipated that, owing to the unusual interest growing out of the contests for governor and lieutenant governor, nearly all will be here early. Friends of ex-Election Commissioner Ellis are, with his authority, discouraging a movement among some of the anti-Goebel Demoerats to give him a boom for senator. Ellis is unqual fiedly for Blackburn.

### VICTORIA ISSUES A WARNING.

Subjects Must Not Assist the Boers-Work of the Boer Sharpshooters.

London. (By Cable.)-The British authorities, thoroughly alarmed over the disaffection of the farmers in Cape Colony, and the assistance being given the Boers by other British subjects, are adopting various measares to check it. Proclamations and orders issued by British military commanders having had no effect, the Privy Council held a meeting at Windsor Castle, at which Victoria proclaimed a warning to all British subjects not to assist the inhabitants of the Transvaal or Orange Free State, or sell or transport merchandise thereto, under pen-

ally of the law. The Queen's proclamation will undoubtedly prove as futile as the declarations of the British commanders. The colonists, who are helping the Boers, will continue to do so surreptitiously, if not openly. It will be utterly impossible for the B. tish to patrol the whole of Cape Colony to prevent the people aiding the Boer fighters, with whom they

#### FOUR MORE BODIES FOUND. Pit Boss Says Naked Lights Were Used in

Braznell Mine. Brownsville, Pa., (Special.)-Four more bodies have been recovered from the Braznell mines, near this place, increasing to 16 the number of persons known to have been

killed in Saturday's disaster. The bodies have not been identified. The mine officials admit that two or more bodies are still in the mine, but representatives of the Slavenic Society have made a iouse-to-house canvass and report that eight of their number alone are in the wreck, and

how many others they do not know. That naked lights and unlocked safety lamps were used in the mine was officially confirmed by Pic Boss Thomas Jones, who made a statement to that effect. Mr. Jones was asked if it was true that on last Tuesday morning he issued a general order that the miners could dispense with safety lamps.

Some of the families of the dead miners are in suffering condition, and provisions are being sent out by the Brownsville merchants, as well as from Uniontown. The fact that last Saturday was pay day at the mine and that there were no empty wagons to load accounts for many not going

into the mine that morning. Had the acci-

Some of the bodies were removed to their homes and buried. Little Albert Messe, who died after being rescued, lived only a few steps from the shaft. consumed.

Most of the buildings burned were only partially insured, and the loss upon the owners will fall heavily. The firemen engaged in a desperate battle to keep the fire from passing across Vermillion street, but sparks set fire to the roofs of the courthouse, the Church of Guardian Angels and other costly structures and residences, but were extinguished with little damage.

The city seeming in imminent danger, Mayor Busch wired the mayor of St. Paul for aid, and as soon as possible two steamers and supply wagons were sent down, which materially aided in subduing the flames. Many people are thrown out of employment and others are rendered homeless.

To Remodel "Old Ironsides."

Washington, (Special.)-Secretary Long has addressed letters to Senator Hale and Representative Boutelle, who look after naval legislation in the Senate and House, relative to the plan of refitting the historic old craft Constitution as a fiaval training ship. The Massachusetts State Society of the Daughters of 1812 propose to pay for the rofitting through popular subscription and Secretary Long refers to this as a worthy purpose, inspired by patriotic impulse. At the request of Mr. Hale, the Secretary has drafted a bill to cover the plan

FORTY CHILDREN PERISH.

While Playing Upon a Frozen River the Lee Breaks, and They Disappear,

Brussels, (By Cable.)-Upwards of forty school children were drowned in an ice accident at Frelinghom, near the French frontier. The children of the district had been given a heliday, with permission to play on the frozen River Lys. When the merriment was at full height the ice broke suddenly. and the children disappeared. A few were rescued half dead, but the majority were
