ASSEMBLY.

We are authorized to announce that J. W. Kepler, of Ferguson township, will be a candidate for Assembly, subject to the decision of the Democratic County Convention.

The Quay case still has the blues and is getting the fantods now.

The people are beginning to feel the need of protection-protection against the tariff-protected Trusts, whose gods are Hanna and McKinley.

What the Democracy of our county feel bound to continue itneeds bear in mind, is, that it put in and faithful service to the party. Anything else will endanger the ticket.

THE HOT-HOUSE SYSTEM.

A bill in Congress to distribute five dollars a month. million dollars per year for twenty years to the master plumbers, or the boss masons, or the newspaper publishers' of the United States would be just as proper as the Hanna subsidy bill now pending to distribute that sum to the owners of ships. As surely as this bill becomes a law, there will be an irresistible demand for an increase of the amount, for as the bill stands, each new applicant for a millions are expended, will diminish the share of all his predecessors.

The system is arranged so as to invite the creation of new capital in the form of shipping, and to do this continuously until there is no longer any extra profit in the business. In other words, competition will reduce the profit to the level of other business. Then there will be the same demand for more subsidy and hot-house treatment that there is now, and with more reason, since the Government having established the hot-house system will

Fine Lecture.

The lecture of Dr. Perrine, in Arcadia hall, on last Friday evening, subject, "Proverbs-Not Solomon's," was a gem that delighted a crowded audience, and received favorable comment from all for several days after. Besides being instructive in showing the fallacy of modern proverbs the speaker's application of the superstitious notions attaching to them, was highly amusing.
