### Foster's Weather Forecast.

My last bulletin gave forecasts of the storm wave to cross the continent from 22 to 26, and the next will reach the Pacific coast about 27, cross the west of Rockies country by close of 28, great central valleys 29 to May 1, eastern states May 2.

Warm wave will cross the west of Rockies country about 27, great central valleys 29, eastern states May 1. Cool wave will cross the west of Rockies country about 30, great central valleys May 2, eastern states May 4.

Temperature of the week ending 8 a. m. April 30 will average below normal in the great central valleys, below in the eastern states, and above on the Pacific slope. Rainfall for same period will be deficient.

About date of this bulletin temperature will be going from low to higher degrees and this rise will be closely followed by the coolest part of April. A rapid rise is expected not far from April 29 on meridian 90—earlier west, later east—causing a great high temperature wave and making a noticeable contrast with the low temperatures immediately preceding.

### SPRING MILLS.

The Easter Entertainment by the Juvenile C. K. a Great Success.

House cleaning has set in earnest; now for soap and the white wash brush.

On Monday last quite a number of our fishermen started for the trout streams. Some reported with a smile "big catches," of course this statement is generally received with considerable limitation.

Harry Musser and family, of Rebersburg, are now located here, occupying the new dwelling recently erected by G. H. Long on the Avenue. Mr. Musser will take charge of the skimming station, vice Wilbur Leathers transferred to Coburn.

The reported outrage in Penn Hall during the Easter celebration last week, that two or three bicycles had been damaged, and the traces of one or two sets of harness cut, is simply a gross fabrication, no such vandalism having occurred. It is said that the report originated with a foolish and inconsiderate boy.

As yet there is no movement to have a board or stone walk from the iron bridge over Penns creek to the grange hall. This distance at every rain fall is converted into a vast and disgusting mud puddle, impossible to avoid either in going or coming. Pedestrians are compelled to wade through it frequently over ankle deep in mud. This marsh is a disgrace to the village.

Mrs. Sadie J. Wolfe commenced business last week in her new store room at this place, with an entirely fresh stock of elegant millinery goods. I called in on her opening day and was greatly surprised at the display. The hats are marvels of beauty and all are of the newest Spring effects. Mrs. Wolfe has certainly displayed great taste in her selections. In addition to the millinery business, she has added dress making.

The Easter entertainment given by the Juvenile C. E. Society on Saturday evening last, was a most delightful one, especially for the "little people." The program was quite lengthy and consisted of music, singing, dialogues and recitations. All the "little folks" did remarkably well, and recited their respective pieces like orators, and had the delivery been in any building but a church, each little speaker would have been applauded to the very echo; the entertainment was a very pleasing one. The society was organized by Miss Verna, the highly accomplished daughter of J. F. Rearick of this place, and the Easter entertainment was gotten up exclusively by her. She selected all the speakers, selected their pieces, gave them repeated rehearsals and every necessary attention, and the result was a very pleas-

ing and delightful entertainment. Miss Rearick deserves the highest praise for accomplishing a very difficult task, a task that more experienced and older heads would almost hesitate to take in hand, especially without assistance.

### H. H. H.

These mystic symbols have time and again relieved severe pains in the back and loins, which had been taken for kidney troubles. Most of the medical compounds used internally for rheumatism and neuralgia contain aconite, opium, iodides or salicylic acid, all of which are poisons. The H. H. H. Medicine, used externally only, will relieve lumbago speedily, without injury to the system. Look for the address, portrait and signature of D. Dodge Tomlinson, 400 North Third Street, Philadelphia, on each wrapper, and do not allow a miserable substitute to be palmed off on you. For sale by J. D. Murray.

### Remarkable Cure of Rheumatism.

KENNA, Jackson Co., W. Va. About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since. —A.
