Wm. Garis, Bellefonte's ex-policeman, had two fingers and thumb on his left hand cut off by coming in contact with a circular saw on Saturday morning, at the new match factory. He was cutting up billets of wood and the mitten on the left hand caught in the saw, drawing in his hand.

SPRING MILLS.

The Spring and Summer Schools Opened With a Large Attendance.

Jacob Hazlet is making extensive improvements to the residence he recently purchased from the Van Valzah estate.

The fishermen down this way are rather quiet about their trout "catches." What's the matter? Of course one hears quite frequently how the "big ones get off," but precious few are mentioned as having been secured.

D. H. Rubi, our popular landlord, reports business at his hotel as being excellent. Quite frequently he is rather puzzled as regards accommodating all his guests. The fact is, his building is inadequate for his increasing business.

On Saturday last, Ralph, a young son of Harry Miller of this place, in climbing over a fence fell and broke his arm at the elbow joint. The fracture is of a very serious character, as there is a possibility of his arm becoming permanently rigid.

Candidates are beginning to show themselves. J. W. Kepler, Democratic candidate for the nomination for Assembly, was here last week looking after his fence rails. Mr. Kepler has quite a large number of friends in this Gibraltar of Democracy, and they are not idle.

The spring and summer schools commenced in our Academy building last week. Prof. D. M. Wolf commenced his special session of school for the higher branches of learning with fifty-seven students, and has at present sixty-four. Miss Sankey had thirty-two and now has thirty-five of the "little people" to command her attention.

O. T. Corman produce dealer, has fitted up his store room and office with quite a number of modern improvements. On the front of the building he has placed three very imposing signs, and the store room he has stocked with a large line of groceries, fruits, etc. This department is very complete, and consists of some very fine and choice groceries not usually handled in country stores. Mr. Corman is quite a popular and active young man, and will evidently do considerable business.

Amie, the bright and blithesome daughter of Mr. and Mrs. Edwin Ruhl gave a very pretty evening party to her little friends on Tuesday evening last, it being the anniversary of her eighth birthday. The rooms were thronged, and of course quiet was out of the question. An elegant refreshment table was furnished, and lavishly supplied with everything that was toothsome to tickle the palates of the little folks, and rest assured they did not fail to do themselves and the "goodies" ample justice. At an early

hour all returned to their homes, having been most delightfully entertained at Amie's birthday party. Amie was the recipient of quite a large number of very handsome presents, mementoes, etc.

Ten Uses for Lemons.

Lemon juice removes stains from the hands.

A dash of lemon in plain water is an excellent tooth-wash. It not only removes tartar, but sweetens the breath.

Two or three slices of lemon in a cup of strong tea will cure a nervous headache.

Lemon juice (outward application) will allay the irritation caused by the bites of gnats or flies.

A teaspoonful of the juice in a small cup of black coffee will certainly relieve a bilious headache.

Dried lemon and orange peel make good fire kindling.

The juice of a lemon, taken in hot water on wakening in the morning, is an excellent liver corrector, and for stout women is better than any anti-fat medicine ever invented.

Glycerine and lemon juice, half and half, on a bit of absorbent cotton, is the best thing in the world wherewith to moisten the lips and tongue of a fever parched patient.

The finest of manicure acids is made by putting a teaspoonful of lemon juice in a cupful of warm water. This removes most stains from the fingers and nails, and loosens the cuticle more satisfactorily than can be done by the use of a sharp instrument.

Lemon juice and salt will remove rust stains from linen without injury to the fabric. Wet the stains with the mixture and put the article in the sun. Two or three applications may be necessary, if the stain is of long standing, but the remedy never fails.

Remarkable Cure of Rheumatism.

KENNA, Jackson Co., W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.

The Important Question.

Is often asked, why the trade takes so much pleasure in selling the H. H. H. Medicine. The answer is—very simple indeed. It is because the celebrated H. H. H. is an honest article, doing its work honestly and giving thorough satisfaction to the buyer. It is compounded on scientific principles from the best and purest drugs that can be obtained. Its reputation has therefore been honestly earned by its intrinsic merits. Rheumatism, Neuralgia, Swellings, Stiffness and Lameness in either man or horse are successfully cured by this most excellent external remedy. No poisonous drugs are introduced into the stomach, while the pains and aches are being banished by rubbing the affected parts with the H. H. H. Medicine. None is genuine unless it bears the signature and portrait of the well-known discoverer, Dr. Dodge Tomlinson, 400 North Third Street, Philadelphia, on the wrapper. Beware of those dealers, who try to persuade you to accept substitutes for this invaluable medicine. For sale by J. D. Murray.
