An Epidemic of Whooping Cough.
Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for croup and naturally turned to it at that time and found it relieved the cough and effected a complete cure.—John E. Clifford, Proprietor Norwood House, Norwood, N. Y. This remedy is for sale by J. H. Ross, Linden Hall; S. M. Swartz, Tusseyville; F. A. Carson, Potters Mills; H. F. Rossman, Spring Mills; J. F. Smith, Centre Hall.

Dr. H. S. Alexander has returned from Jefferson hospital, Philadelphia, where he had taken Lowell Smith, of Pine Grove, for treatment.

MILLHEIM.

A Letter of Interest from that Busy Town and Vicinity.

The Lonney shingle factory located here is running at full capacity, with work enough in sight to keep the mill running all summer. They turn out first-class work and therefore have no trouble in securing orders.

The boiler in the Hartman machine shops played out; business had to be suspended for a few days only, the proprietors having secured the services of Mr. Shower's engine and boiler until they can secure a new one.

Mr. E. W. Mquck, the successful nursery salesman, presented the United Evangelical congregation with two extra fine evergreens for their church lawn. They are certainly "daisies" and the members of the congregation prize them very highly.

The G. A. R. men seem to have agreed to disagree, and resumed in it to

have any demonstrative decoration services. Unless the citizens take the matter in hand the fallen braves will not be properly remembered. The good cause will probably receive attention.

The Commercial people last week were engaged in placing their telephone exchange at this place. The granting of privilege, and locating of extra poles on the street caused a ripple among some of the members of the town council and finally ended in an open eruption. For a season the air was full of fists and naughty cuss words, such as are seldom heard in Sunday school or meeting. There was some uncalled for spilling over, and language used, concerning neighbors that was not in the least appropriate. Some otherwise prominent parties evidently became lightheaded, hotheaded and a little unreasonable. "When angry, count ten, if very angry count a hundred, before you speak."

SPRING MILLS.

Two of Our Village Beauties Amuse Themselves on "May Day."

House cleaning and garden making are now in full blast. Many of the wheat fields down this way are not very promising.

On Saturday evening last the restaurant commenced the ice cream and cake campaign for the summer season. The cream was especially fine.

The gospel meeting held in the M. E. church of our village on Friday evening last by an itinerant German evangelist, had a very indifferent attendance.

For the last three or four days Egg Hill has been almost invisible, owing to the dense smoke caused by fire in the neighboring mountain. The Hill resembles a huge black cloud hanging on the verge of the village. Over on Brush mountain the destruction of timber is reported as being immense.

Two of our village beauties amused themselves on Tuesday evening last, by driving through the village with their buggy very handsomely trimmed with flowers and evergreens. The animal was very profusely decorated—possibly crowned "Queen of May." The young ladies created quite a sensation among the beaux and gallants of our town.

M. B. Hering, Justice of the Peace elect, will assume the duties of the office and be dressed in his official robes the coming week. Present magistrate Grenoble is in somewhat of a quandary, and an annoying one too. The combination of the lock on his safe refuses to operate, notwithstanding he has made every effort to open it, acting according to the directions received from the makers, yet the lock remains obdurate and bids defiance to

everything but—sledge hammers. No doubt Mr. Grenoble will be obliged to send the safe to the manufacturers to unlock.

During the high waters in Penns Creek this spring, Willow grove park, located immediately at her concave shores, was covered with water, mud, old stumps, and every conceivable rubbish. Owing to this blockade, merchant George W. Dunkle was obliged to make a passage way through the fields in order to reach his wall paper establishment and residence, a highway he was forced to use for several weeks. Recently he has had all this offensive matter removed from the grounds, and the park will soon begin to wear its usual spring and summer garb. This is a romantic and very beautiful place, especially in summer, and Mr. Dunkle who so skillfully planned the park knows exactly how to keep it so.

Habitual Headache.

The bane of mankind interferes with our happiness and well-being. It is a most unwelcome intruder on our domestic comfort. By all means introduce it to the H. H. H. Medicine, that benefactor which throws sunshine into every home of suffering, so that its genial influence is felt in every clime. Purchase a 25 cent bottle of this indispensable household article, and be very sure that the signature and portrait of the aged inventor, D. Tomlinson, 400 North Third Street, Philadelphia, Pa., appears on the wrapper as a safeguard against fraudulent substitutions. Many headache powders contain acetanilid and other poisons—the H. H. H. Medicine relieves by external application. For sale by J. D. Murray.
