He is also requested to leave information regarding his answers to the questions which are to be asked with some responsible neighbor who will agree to see that it reaches the enumerator on his rounds. Such information might better be left as a memorandum in writing, as in that case it is less likely to be overlooked. The questions to which answers are desired apply primarily to the population, but also to all farms and manufactursng establishments. They are being published from time to time in the press of the country.

By taking this trouble the absent citizen will do justice to his locality and his state, and materially aid the Census Office in the performance of its duties.
