#### SPRING MILLS.

Political Gossip and Other Events of Interest Down the Pike.

On Sunday afternoon last we were treated to a few flakes of snow—possibly the concluding remarks of last winter.

Last week the type made me say that on Memorial day the services at Green Grove would be at 2.30 p. m.; it should have stated 5.30. The program arranged by the Sons of Veterans is of a very impressive character, and no doubt will prove very interesting.

J. W. Kepler, Democratic candidate for the nomination for Assembly, was here a day or two last week taking a general view of the political condition of the valley and "arranging matters." Mr. Kepler is the farmer candidate (a farmer himself), well informed, very affable and pleasant, and a gentleman possessing very excellent common sense. His visit here has certainly added very considerably to his following. His friends in this locality are decidedly numerous, and his strength as a candidate appears to be steadily increasing.

The board of trade rejoices from the fact that their labor was not in vain. After laboring hard and long, amidst the discouragements incident to such projects, and overcoming the opposition from the "town killer" who busies himself saying, "It will not amount to anything," they have the supreme satisfaction of seeing a hosiery industry started. Last Saturday the first half dozen hands were called in and placed under instructions. Monday morning two more were started. As fast as the machines arrive and are placed in position the help will be called in. The town was indeed fortunate in securing Mr. W. Joseph Harrison, who has no superiors and but few equals in the state, in his line. The building is just adapted for such an industry; everything augurs success. The superintendent is delighted with the progress the hands are making. It now remains for the general public to give the superintendent the necessary encouragement and the town may yet be proud of its industry. The people of the town owe the few members of the board of trade, who labored so faithfully, a great deal for sticking to it to a successful issue.

#### Foster's Weather Forecast.

About date of this bulletin a low or warm wave will be not far from longitude of Fargo and San Antonio moving slowly eastward and the high or cool wave will then be in longitude of Pittsburg, and Erie, Pennsylvania.

These weather disturbers will not make radical changes, but the two that will follow will be of greater force. The highest temperature of May will cross the west of Rockies country about 23, great central valleys 25, eastern states 27, following which will come a sudden and great drop in temperature, crossing west of Rockies about 29, great central valleys 31, eastern states June 2.

This pair of atmospheric twisters will run to temperature extremes, cause general rains and the ten days previous will have been on the dry order.

The low temperature waves of 14 and 22 were calculated for eight days apart and those of 22 and 31 for nine days, the interval heretofore used being nearer six days. From this the reader will note that the forecasts are gradually coming to more specific terms and greater details.

The disturbances of the last part of May are calculated for northern latitudes and this indicates warm and dry weather for the cotton states with rains for the corn and wheat districts. Indications are that the remainder of May weather will be favorable to all crops in a general way; enough so to depress prices.

The ancients believed that rheumatism was the work of a demon within a man. Any one who has had an attack of sciatic or inflammatory rheumatism will agree that the infliction is demonic enough to warrant the belief. It has never been claimed that Chamberlain's Pain Balm would cast out demons, but it will cure rheumatism, and hundreds bear testimony to the truth of this statement. One application relieves the pain, and this quick relief which it affords is alone worth many times its cost. For sale by J. H. Ross, Linden Hall; S. M. Swartz, Tusseyville; F. A. Carson, Pottery Mills; H. F. Rossman, Spring Mills; J. F. Smith, Centre Hall.
