There are fears of an outbreak of war between Bulgaria and Serbia.

British officers express an opinion that the retirement of the Boers foreshadows the end of the war.

All was harmony at Kansas City, on platform and nominees. The leaders all joined the masses in the grandest of ovations yet witnessed.

The harmony among the Democrats at their National Convention, over the nomination of Bryan and the platform is both disappointing and alarming to the McKinleyites.

The silver Republicans held their National Convention last week, and under the lead of Senator Teller, nominated Bryan for President.

Turkey has agreed to pay the damages claimed by the United States, in the sum of \$100,000, within 90 days, and now Uncle Sam will not need knock it out of her with cannon balls.

The Legations in China were surely safe a week ago, consular dispatches from China fix the fact positively.

Admiral Seymour reports the finding of large stores of guns of the latest pattern. The Chinese have evidently been laying in supplies of arms and ammunition since their war with Japan.

Since the St. Louis street car strike began 15 people have been killed; 75 wounded with bullets, 108 otherwise injured, more than a dozen women beaten, 81 cars wrecked, the strikers have lost wages amounting to nearly \$300,000 and most of them have lost their jobs permanently.

The nomination of Adlai Ewing Stevenson, of Illinois, for Vice President as Bryan's running mate, is a faultless one. Mr. Stevenson was elected Vice President during Cleveland's second election and served with great credit.

The Record's Kansas City special on 6 wrote: The idol of the day was David Bennett Hill, of New York, and only his personally-made declaration of the honor prevented a wild stampede of the convention to him for Vice President.

Japan is sending a large force into China to strengthen her army now there.

To reports of the massacre of the whites at Pekin are now added the additional horrors that savage soldiery butchered at the capital 5000 natives, Roman Catholic converts.

Prosperity! Prosperity! The Thomas Iron Company, operating nine blast furnaces at Hokendauqua, Alburts, Chain Dam and Hellertown, in this State, and the Empire Steel and Iron Company, operating 23 stacks at Catawissa, Macungie, Tipton, Reading and Bellefonte, Pa.; Oxford, N. J., and in Virginia and North Carolina, posted notices on Monday of a reduction of 10 per cent. in wages, taking effect at once.

The surprise caused by the weakness of China in the war with Japan may be followed by another surprise caused by the discovery that the 400 million Chinese, after all, constitute a gigantic power. The Pekin Government is said to have imported 20,000 Mauser rifles a month for the past three years, to say nothing of hundreds of Creusot guns, and the loss in fletched on Seymour's column shows that there are men in China who know how to use the weapons.

The Altoona Tribune expresses the sensible belief that no teacher who has been employed in a community for a long term of years, during all that time giving the district all the powers of intellect and knowledge and experience gained by natural ability or protracted study, should be suddenly deprived of employment.

Mrs. Braddock, a Pittsburg lady, seven years a missionary in India, just returned, speaking of the famine, says people drop dead on the street, and the dead cart picks up 40 or 50 who have fallen and died during a night.

The war in South Africa up to this time, shows the British losses, exclusive of sick and wounded, have been 29,706, of which the killed in action were 254 officers and 2403 non-commissioned officers and men; died of wounds, 70 officers and 610 non-commissioned officers and men; missing and prisoners, 65 officers and 2624 non-commissioned officers and men; died of disease 133 officers and 4204 non-commissioned officers and men; invalided home 344 officers and 18,433 non-commissioned officers and men.

England has not ended her troubles in South Africa, as Lord Roberts has put a stop to the return of civilians and has ordered the mining men back to Blomfontein. He is credited with thinking that three months must elapse before affairs will be settled enough to permit of the resumption of business.

General Ruddle has issued a proclamation announcing that farmers discovered to be harboring armed burghers and not informing against them, will have their farms confiscated and the receipts they hold for goods requisitioned and cancelled, or will be compelled to pay a fine of not less than half a crown per morgen on the area of farms.

Lord Wolsey says China possesses every requisite for overrunning the world. She has a population of 400 million, all speaking the same language or dialect readily understood from one end of the empire to the other.

Begin with the foundation of millions upon millions of such soldiers as these men are capable of being made and tell me, if you can, where the end will be.

The Nebraska man, who nominated Mr. Bryan on behalf of his State, defining the Democratic doctrine and practice on expansion as exemplified in the history of the Government, stated the case clearly when he said "Democratic expansion is bounded on the north by the constitution of the United States, on the east by the Monroe doctrine, on the south by the Declaration of Independence, and on the west by the Ten Commandments."

To paraphrase, Republican expansion is bounded by criminal aggression, peaceful assimilation, grab all you can get, and the devil take the hindmost, with the constitution left out or applied in patches, and the Declaration an obsolete idea.

The Democratic platform, as adopted at Kansas City, is as purely an American enunciation of great, living principles, as our Declaration of Independence, which the platform starts out to endorse in its every letter.

The Howard Hustler says on Tuesday George Confer was cutting rye on the Swartz farm about a mile north of Howard. He lit his pipe, threw the match on the ground and went to get a drink of water.

A large barn owned by Mr. John Miller, located near Roma, took fire on Wednesday morning and was burned to the ground, and as near as we can find out considerable hay and a number of farm implements and some stock were destroyed, there was no insurance on the barn.

The nomination of William J. Bryan as the Democratic candidate for President, on Thursday last, by the unanimous voice of the representatives of six and a half millions of the voters of the United States, is an unusually high tribute paid to an American citizen—and it was a tribute well-merited.

The enthusiasm of the twenty-five thousand people who packed the convention hall exceeded anything of the kind ever witnessed in this country. Cheers made the great hall tremble; flags, banners, hats, canes, and "kerchiefs were swung in numbers like snowflakes; this grand, wild scene of enthusiastic delight, continued for a long time and broke out again and again.

The Kansas City convention was purely a people's affair—no boss there; no trust influences; no millionaire ownership of state delegations—the people dominated the convention and the nomination of William Jennings Bryan for President.

The convention that nominated McKinley was dominated by the trusts of whom Hanna was this chief, being ring master and wielder of the patronage lash—hence the light enthusiasm over the nomination of McKinley, and that was forced by the bosses.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Smith, the photographer, will be at Centre Hall on Friday of each week. You are invited to sit for photos on that date.

Ice cold water is not so good as iced water—that is water cooled by ice without coming in contact with it. The less of either the better. An abundance of it may be used with benefit—just before retiring, and also the first thing in the morning. It is a cleanser of the system, and is a good diuretic.—Ladies' Home Journal.
