Pin in your Hat.

It is a noticeable fact that many good items are lost to newspapers every week by the modesty of people who hesitate to tell the reporter any matter concerning themselves. The right thing to do is to stop a newspaper man on the street or any other place and tell him when you have been on a visit, have relatives visiting you, that your wife entertained company or anything that is in any way a matter of news.

WRECK AT HOWARD.

Engine Thrown from the Track and Two Men Killed.

A frightful freight wreck on the Bald Eagle Valley division of the Pennsylvania Railroad near Howard, Sunday afternoon, resulted in the death of the engineer John Foster and fireman, David Snyder, and in all probability fatal injuries to a brakeman.

The accident happened about 1 o'clock, and the train wrecked was west-bound. It had just passed through Howard, when the locomotive struck a cow and was thrown from the track, turning completely over on its side.

This Town Gets one of the Centre County Farmers' Institutes.

Secretary Hamilton has given out the dates of the various County Farmers' Institutes to be held during the coming winter, and Centre Hall is one of the two places selected in Centre county for holding the same.

These institutes are very instructive to the farming class, and great interest is manifested in them as a rule wherever held. The institute at Centre Hall will, without a doubt, be strictly up to date.

Let no Democrat be responsible for putting Mr. Allison in a position where his conscience might be seared.

CROPS AND SEEDING.

Crop Conditions in Penns. Valley.—Scarcity of Winter Apples.—Corn Harvested.

The wheat sown during the first of this month is up nicely and looks remarkably well. The August sown wheat is reported to be attacked with the fly in a more or less degree. There will be an opportunity next harvest to judge as to the propriety of early and late sowing.

There were prospects for an immense apple crop during the early fall, but the September storm swept the orchards of nearly all the good fruit, and today winter apples are scarce.

The corn crop is about all harvested. The yield was considerable better than was anticipated. The quality is good, there being no soft corn. The fodder was housed in excellent condition, and a large per cent. of it will be shredded, which materially adds to its value as a stover.

Potatoes, which were less than a half crop, are not ready for sale today, and would hardly bring forty cents. Some few crops were sold at fifty-seven and sixty cents. Western potatoes are doing the mischief.
