SPRING MILLS.

Halloween was celebrated here by the boys with unusual recklessness. When fun degenerates to mere deviltry and the destruction of property, it becomes a crime. To tamper with engine boilers, as was done at the cider press, endangering life and property, is a piece of villainy deserving the severest punishment.

Damaging wagons and throwing the broken parts into the creek; hiding teams of travelers causing detentions when their time is valuable; injuring gates and removing them to out of the way places, is a folly to be condemned and should not be tolerated for a moment. Why not arrest the miscreants, and make them pay the penalty?

I. E. Lloyd, the village shoemaker, has announced himself a candidate for constabulary honors. Mr. Lloyd has always been an unflinching Democrat, and his chances should be good. In the mean time he will continue shoe-making, cobbling and the repairing of "men's soles."

George Mowery and family, of Lewistown, moved to this place last week. Mr. Mowery now wields the baton of authority in the livery department of the Spring Mills hotel.

All the merchants report business during October as having been largely in excess of same time last year; the volume was greater, but the profits only slightly improved. Commercial agents passing through here, report trade on the road only fair; many of the merchants having been to the city to purchase their fall and winter stock, their orders, if any, would be exceedingly light.

The new light recently introduced into the bicycle establishment of J. Frank Renick is a wonderful invention. The illumination is about perfect, and far superior to ordinary gas, and preferable to the electric, owing to the absence of that glare and intense brilliancy so painful to the eyes. It is the acetylene system, very simple in construction, easily understood and perfectly safe, as there is no possibility of an explosion.
