REV. DR. TALMAGE.

THE EMINENT DIVINE'S SUNDAY DISCOURSE.

Subject: Our Nation's Needs-We Should

Show More Gratitude to God For His Blessings - Our Lack of Appreciatio. of the Lord's Bounty.

(Copyright 1900.)

WASHINGTON, D. C. - Dr. Talmage reaches a discourse of Christian patriot-m, and shows the resources of our coun-St. Lawrence River to Key West or from preaches a discourse of Christian patriotsm, and shows the resources of our counism, and shows the resources of our coun-try, and predicts the time when all the world will have the same blessings. His two texts are, Revelations xxi, 13. "On the south three gates;" Psalm cxlvii, 20, "He hath not dealt so with any nation." Among the greatest needs of our coun

Among the greatest needs of our coun-try is more gratitude to God for the unparelleled prosperity bestowed upon us. One of my texts calls us to international comparison. What nation on all the plan-et has of late had such enlargement of commercial opportunity as is now opening before this nation? Cuba and Porto Rico and the Philippine Islands brought into close contact with us, and through steamship subsidy and Nicaragua canal, which will surely be afforded by Congress. all the republics of South America will be brought into most active trade with the United States. "On the south three gates." While our next-door neighbors, the southern republics and neighboring colonies imported from European countries 3000 miles away \$675.000,000 worth of goods in a year, only \$126,000,000 worth went from the United States-\$126,000,000 out of \$675,-000,000, only one-fifth of the trade ours, European nations taking the four fingers and leaving us the poor thumb. Now all this is to be changed. There is nothing but a comparative ferry between the islands which have recently come under our protection, and only a ferry between us and Bolivia, Peru, Paraguay, Uruguay, Venesuela, Salvador, Nicaragua, Colombia, Costa Rica, Ecuador and Brazil, while bia, Costa Rica, Echador and Brazil, while there are raging seas and long voyages be-tween them and Europe. By the mandate of the United States all that will be changed through new facilities of transpor-tation. The Hispano-American congress, just closed at Madrid, will fail in its at-tempt to divert all the trade of South America from us to Europe America from us to Europe. In anticipation of what is sure to come I nail on the front door of this nation an

universities.

"On the three south gates!" Yea, a thousand gates! South America and all the islands of the sea approximate are rightfully our commercial domain, and the Congress of the United States will see

lend. "Germany, we are glad to see you in Wall street, If you must borrow money we have it all ready. How much will you have? Russia, we also welcome you into

to their finances this nation has money to

our money markets. Give us good collat-eral. Meanwhile, Denmark, will you please accept our offer of \$3,000,000 for the island of St. Thomas?" My heavers, there is no nation on earth with such healthy condi-tion of finances. We wickedly waste an world amount of money in this country

awful amount of money in this country, but some one has said it is easier to man-

Highlands of New Jersey to Golden Horn of the Pacific. Sectional controversies ended. The North and South brought into complete accord by the Spanish war, which put the Lees and the Grants on the same side, Vermonters and Georgians in the same brigade. And since our Civil War we are all mixed up. Southern men have married Northern wives, and Northern men have married Southern wives, and your children are half Mississippian and half New Englander, and to make other division between the North and the South possible you would have to do with your child as Solomon proposed with the child brought before him for judgment— divide it with the sword, giving half to the North and half to the South. No: there is nothing so hard to split as a cra-dle. In other lands there is compulsory marriage of roval families, some bright princess compelled to marry some disa-greeable foreign dignitary in order to keep the balance of political power in Europe, the ill-matched pair fighting out on a small scale that which would have been an international contest, sometimes the husband having the balance of power and sometimes the wife.

If there is anything that stirs my admiration it is a man without any educa-tion himself sending his sons to college, and without any opportunity for luxury himself resolved that though he shall have it hard all the days of his life his children shall have a good start.

And I tell you that though some of our people may have great commercial strug-gles there is going to be a great opening for their sons and daughters as they come on to take their places in the world. Continuing this international comparison I have to say to you that we have a better climate than is to be found in any other nation. We do not suffer from any-thing like the Scotch mists or the English fogs or the Russian ice blasts or the tyhus of Southern Europe or the Asiatic cholera. Epidemics in America are ex-ceptional. very exceptional. Plenty of vood and coal to make a roaring fire midwinter. Easy access to seabeach or mountin top when the ardors of summer come lown. Michigan wheat for the bread. Wanted-One hundred million dollars worth of dry goods from the great cities of the United States. sugar to sweeten our beverages, Georgia

all the railroad iron you can send from Pittsburg, and all the statesmen that you can spare from Washington. I declare if, this is the best country in all the world to live in. How do I know it? I have 650,000 new reasons for saving it; 650.000 people in one year came from the other side of the Atlantic to live in America, and they came because it is the

very best country to live in. While making this international com-parison let us look forward to the time which will surely come when all nations will have as great advantages as our own. As surely as the Bible is true the whole Many years ago in this city I gazed upon

THE KEYSTONE STATE.

Late News Happenings Gathered From All Sources.

GRANGERS ADOPT RESOLUTIONS.

Protest Against the Removal of Farmers from State and Agricultural Departments--Ten Hours for Female Clerks--Merchants at Reading Informed that the Law Will Be Strictly Enforced-Other Live News.

The principal feature of the session of the State Grange at Lock Haven was the adoption of a series of resolutions having reference to the welfare of the farmer. The resolutions, in part, are as follows:

First-Our unalterable opposition to the illegal sales of oleomargarin, which we denounce as an unmitigated fraud not only upon the State and one of the leading branches of agriculture, but also upon a large class of unsuspecting consumers.

Second-That we most heartily indorse the action of the officials of the State Grange during the past year in persistently demanding the enforcement of the pure food law by the State Department of Agriculture.

Third-That we commend the efforts of the legislative committee in entering protest against the management of the Department of Agriculture, and in co-operating with other agricultural organizations for the purpose of securing a more efficient service, and. in the language of the report of said committee, "to have the law enforced and derelict officials removed."

Fourth-We heartily indorse the recommendations of the legislative committee and make them part of ours. to wit: "Favoring election of United States Senators by a direct vote of the people; amendments to the interstate commerce law; increasing the judicial power of that body; opposition to the ship subsidy bill now before Congress; favoring free rural mail delivery; urging the passage of the Grout oleo bill.

Fifth-That the Pennsylvania State Grange demands a just and equitable revision of the revenue bill of our State; that the burdens of taxation may be equally borne by all classes of property. We especially commend the subject to the earnest consideration of patrons, and urge our legislative committee to use all honorable means to secure such revision.

Sixth-We protest against the removal of farmers from the Department of Agriculture, State and National, to make room for those of other pursuits who are not in smypathy with us and not familiar with our wants. These departments were instituted by farmers for the benefit and protection of farmers, and in all fairness should be administered by farmers.

Notice was served on Reading merchants by Mrs. Annie E. Leisenring. Deputy Factory Inspector, that the law forbidding girls and women from working longer than ten hours a day would have to be obeyed. "The recent decision of the Supreme Court must stand," she says, "and in every store in Pennsylvania that employs women over the time allowed by law, the act of Assembly will be strictly enforced. In answer to a question as to whether this would render illegal the system of ed bard. keeping the stores open in the evenings during the holiday season, she replied

The readers of this paper will be pleased to learn that there is at least one dreaded dis-ease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now know to the medical fraternity. Catarrh being a conthe medical fraternity. Catarrh being a con-situtional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken inter-nally, acting directly upon the blood and mu-coussurfaces of the system, thereby destroy-ing the foundation of the disease, and giving the patient strength by building up the con-stitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hun-dred Dollars for any case that it fails to cure. Send for list of testimonials. Address F.J. CHEEREY & Co., Toledo, O. Sold by Druggists, 75c. Hall's Famile Pills are the best.

Feeds the Hair

Have you ever thought why your hair is falling out? It is because you are starving your hair. If this starvation continues, your hair will continue to fall.

There is one good hair food. It is Ayer's Hair Vigor. It goes right to the roots of the hair and gives them just the food they need. The hair stops falling, becomes healthy, and grows thick and long.

Ayer's Hair Vigor does another thing, also: it always restores color to faded or gray hair.

One dollar a bottle.

Is your druggist cannot supply you, send us \$1.00 and we will express a bottle to you, all charges prepaid. Be sure and give us your nearest express office. J. C. Aver Co., Lowell, Mass.

Send for our handsome book on The Hair,

at we get what belongs to

And then tides of travel will be somewhat diverted from Europe to our islands at the south and to the land of the Aztecs. Much of the \$125,000,000 yearly ex-pended by Americans in Europe will be lands and countries. expended in southern exploration, in looking at some of the ruins of the forty-seven eities which Stephens found only a little and all the rest of y ur life holds you way spart, and in walking through the great doorways and over the miracles of mosaic and along by the monumental glories of another civilization, and ancient pile. America will with cold lips of stone kiss rave. seen the Alpine and Balkan ranges. And reach of their chain. there will be fewer people spoiled by for-eign travel and in our midst less of the poor and nauseating imitation of the French hrug and the intentional hesitancy of a brainless foreign swell. The fact is that many are made vain by European travel, and, though sensible when they embarked. they return with a collar and a cravat and a shoe and a coat and a pronunciation and a contempt for American institutions and the bend of the elbow that make one believe in evolution backward from man to ape. Of the many thousands who now cross the sea annually thousands will on pleasure and business visit southern lands, and so tourists and merchants and scientists and capitalists will all help in this national de velopment. "On the south three gates." And what other nation has such openings for commercial enlargement as ours?

Again, in this international comparison notice the happy condition of our country as compared with most countries. Rus-sia under the shadow of the dreadful illness of her great and good emperor, who now more than any man in all the world represents "peace on earth, good will, to ' and whose empress, near the most solemn hour that ever comes to a woman's soul, is anxious for him to whom she has given hand and heart, not for political reasons, but through old-fashioned love such as blesses our humbler dwellings; India, under the agonies of a famine which though somewhat lifted has filled hun-dreds of thousands of graves and throwp millions into orphanage; Austria only waiting for her genial Francis Joseph to die so as to let Hungary rise in rebellion and make the palace of Vienna quake with insurrection; Spain in Carlist revolution and pauperized as seldom any nation has been pauperized; Italy under the horrors of her king's assassination; China shuddering with a fear of dismemberment, her capital in possession of foreign nations. After a review of the conditions in other lands can you find a more appropriate ut-terance in regard to our country than the exclamation of the text. "He hath not dealt so with any nation?"

Compare the autumnal report of harvests in America this year and the har-vests abroad. Last summer I crossed the continent of Europe twice, and I saw no such harvests as are spoken of in this statement. Hear it, all you men and women who want everybody to have enough to eat and wear. I have to tell you that the corn crop of our country this year is one of the four largest crops on record, 2,105,000,000 bushels. The crops on record, 2,105,000,000 bushels. The cotton crop, though smaller than at some times, will on that account bring bigger prices, and so cotton planters of the South are prosperous. The wheat fields have provided bread enough and to spare. The potato crop one of the five largest crops on record, 211,000,000 bush-els. Twenty-two million two hundred thousand swine slain, and yet so many hogs left? hogs left?

hogs left? But now I give you the comparative ex-ports and imports, which tell the story of national prosperity as nothing else can. Excess of exports over imports, \$544,400,-000. Now, let all pessimists hide them-selves in the dens and caves of the earth, while all grateful souls fill the churches with doxology. Notice also that while Excess of exports over imports, \$544,400,-000. Now, let all pessimists hide them-selves in the dens and caves of the earth, while all grateful souls fill the churches with doxology. Notice also that while other countries are at their wits' ends as

a scene which for calamity and grandeur one seldom sees equalled. I mean the burning of the Smithsonian Institution. It was the pride of our country. In it art had gathered rarest specimens from all

It was one of those buildings which with a charm. I happened to see the first glow of the fires which on that cold day looked out from the windows of the costly pile. I saw the angry elements roar and America will with cold lips of stone kiss the warm lips of modern America, and to and the assault of fire engines only seemed have seen the Andes and Popocatepetl to madden the rage of the monsters that will be deemed as important as to have rose up to devour all that came within

> Up along the walls and through the doors were pushed hands that snatched down all they could reach and hurled it into the abyss of flame beneath. The windows of the tower would light up for a minute with a wild glare and then darken. as though fiends with streaming locks of fire had come out to gaze on in laughing mockery of all human attempts and then sunk again into their native darkness

> The roofs began here and there to blossom in wreaths and vines of flame. Up and down the pillars ran scrpents of fire. Out from the windows great arms and fingers of flames were extended, as though destroyed spirits were begging for deliver-The tower put on a coronet of flame and staggered and fell, the sparks flying, the firemen escaping, the terror accumulat-

> Books, maps, rare correspondence, autographs of kings, costly diagrams burned to graphs of kings, costly diagrams burned to cinder or scattered for many a rood upon the wild wind to be picked up by the ex-cited multitude. Oh, it seemed like some great funeral pile in which the wealth and glory of our land had leaped to burn with its consuming treasures. The heavens were blackened with whirlwinds of smoke, through which shot the long red shafts of calamity.

Destruction waved its fiery banner from the remaining towers, and in the thunder of falling beams and in the roaring surge of billowing fire I heard the spirits of ruin

and desolation and woe clapping their hands and shouting, "Aha! aha!" I turned and looked upon the white dome of yonder capitol, which rose through the frosty air as imposing as though all the white marble of the earth had come to resurction and the data had come to resurrection and stood he-fore us, reminding one of the great white throne of heaven. There it stood, un-moved by the terrors which that day had been kindled before it. No tremor in its majestic columns, no flush of excitement in its veins of marble. Column and capital and dome built to endure until the world itself shatters in the convulsions of the last earthquake. Oh, what a contrast be-tween the michigan discussion of the tween the smoking ruin on the one hand and that gorgeous white dream of archi-tecture on the other! Well, the day speeds on when the grandest achievement of man will be consumed and the world will blaze. will be consumed and the world will blaze. Down will go galleries of art and thrones of royalty and the hurricane of God's power will scatter even the ashes of con-sumed greatness and glory. Not one tower left, not one city unconsumed, not one scene of grandeur to relieve the desola-tion. Forests dismasted, seas licked up, continents sunk, hemispheres annihilated. Oh, the roar and thundering crash of that last conflagration! But from that ruin of a blazing earth we shall look up to see the temple of liberty and justice rising through the ages, white and pure and grand, unscarred and unshaken. Founded on the eternal rock and swelling into on the eternal rock and swelling into domes of infinitude and glory in which the nalleluliahs of heaven have their reverber-ation. No flame of human hate shall blacken its walls. No thunder of infernal

"In some cases it does, but where the girls are allowed two hours for dinner and begin late in the morning, the limit is not overreached."

Three fatal mine accidents occurred in Scranton. Thomas Hughes fell down the Brisbin shaft, a distance of over 300 feet, and was killed. Almost every bone in his body was broken. Hughes thought he was stepping on the carriage at the head of the shaft, and, instead, went' plunging downward. fall of roof killed Thomas Evans in the Leggett's Creek mine, and his laborer, Patrick McLaughlin, was, perhaps, fatally injured. A fall of roof in the Sterrick Creek mine caused the death of Anthony Greidish, a miner, and the serious injury of his laborer.

The suits brought by the heirs of John Slingluff and Henry C. Wentz at Norristown against the Philadelphia and Reading Railway for damages growing out of the Exeter wreck, in which Slingluff and Wentz were killed, were settled out of court. In the Slingluff case suit was brought for \$60,000. and in the Wentz case for \$50,000. The basis of settlement is not announced. but it is understood to be two-thirds of these figures in each case. All the Exeter wreck cases have now been settled except that of the heirs of Samuel Beatty.

After making deliberate preparations for death Major A. C. Reinoehl, postmaster of Lancaster, committed suicide in his law office. No motive can be ascribed for the deed except financial embarrassments, which have, of late, it is said, occasioned the dead man much worriment and annoyance. On several occasions he intimated suicide, but his remarks were not taken seriously by his friends. Major Reinochl was born in Lebanon on November 15. 1840.

Contiguous blocks of coal land near Rutan and Oak Forest, Green county, including 16,000 acres, have been sold to Pittsburg and Brownsville parties. A New York syndicate has bought 10,-000 acres near West Middletown, at \$30 per acre. This was optioned a year its development must await a ago railroad.

A fireman was killed and nine pasengers were injured in a wreck on the Pittsburg, Ft. Wayne and Chicago Railroad at Edgeworth Station, a few miles from Pittsburg. Express No. 8. coming from the West, plunged through the rear coach of an accommodation train, which was coming from Leestdale to Pittsburg.

The following nominations for postnasters in Pennsylvania were sent to the Senate by President McKinley; M. Deerickson, Monessen; T. W. Scott, New Haven; J. G. Moyer, Perkasie; W. Schlichter, Sellersville; C. J. Mc-Gill, Dawson. Elmer Wineman was appointed postmaster at Youngwood.

Miss Katie Armdt, of Florin, was struck by a freight train on the Pennsylvania Railroad at Mt. Joy and susained a fracture of the skull.

Frederick Gounder, of Cumbola, was run down by a shifting engine of the Philadelphia and Readins Railway, at Hill Colliery, Pottsville, and tian Register.

"Is there any other place where could send it?" queried the disappoint-

"Oh. yes."

"Where, sir?"

"The house of correction."--Chicage News.

QUITE AMICABLE.

Briggs-Sterns and you are both very positive chaps. Don't you ever quarrel when you get to talking? Wuzzle-Oh, dear no! The thing is impossible. The fact is, we never disagree. We never talk on the same subject and neither of us listens to the other. We just talk, that's all .-Boston Transcript.
