Read Your Home Paper.

The local paper should be found in every home. No children should grow up ignorant who can be taught to appreciate the home paper. It is said to be the stepping stone of intelligence in all those matters not to be learned in books. Give your children a foreign paper which contains not one word about any person, place or thing, which they ever saw or perhaps ever heard of, and how could you expect them to be interested? But let them have the home paper and read of people whom they meet and of places with which they are familiar, and soon an interest is awakened which increases with every arrival of the local paper. Thus a habit of reading is formed and those children will read the papers all their lives and become intelligent men and women, a credit to their ancestors, strong in the knowledge of the world as it is today.
