THE COMING OF EASTER.

It is just as natural for women to put on new shoes on Easter Day as it is for them to put on new hats. And the Easter display of footwear is just as appropriate as the Easter show of hats.

We don't pretend that our display of new footwear compares in beauty with the efforts of our friends, the milliners, but in our unpretentious way we make a showing at once interesting and helpful.

In this exhibit you see all that is new and stylish in footwear of the better sorts. From what you see here you can select such styles as please your fancy, feeling certain that you have the very latest models and the best ones that have been created by the shoemakers.
