All Goods as Advertised.

..Sim, The Clothier..

You Will Find Every Assertion to be True.

Have you ever dealt with us? Are you acquainted with the methods of doing business? If you never had any dealings with us investigate our mode of transacting business and then you can realize how profitable it is to buy here.

A trifle over a year ago we started in business and now enjoy the benefit of one of the largest clothing and furnishing trades in Bellefonte. But how was such a trade established? 1st.—By handling only reliable goods. 2nd.—By not misrepresenting any article merely to sell it. 3rd.—By selling at a closer margin than others. 4th.—By keeping our stock fresh, and finally by standing back of our guarantees and making everything satisfactory. We do not claim to have as much floor space as others, because we do not heap on an extra expense merely to make an advertisement of it.

Some clothiers boast of having double the stock of others. The so-called "Largest Stocks" are composed of the accumulation of the odds and ends from several years' business. Ours is a choice assortment of the newest and most stylish goods obtainable. Last summer we used the motto "Better sell at cost rather than carry over to next season" as a guide, and thus reduced our stock until only a few goods remained and the greater part of these were disposed of during the fall season. By doing this we were able to buy a clean new stock and thus give our customers new goods at prices others charge for their old ones. Our stock of Spring and Summer Clothing is now here and buyers will do well to examine it and compare our prices with others.
