A WORTHY SUCCESSOR.

"Something New Under the Sun."

All doctors have tried to cure Catarrh by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up the mucous membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the disease. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science; that actually reaches the affected parts. This wonderful remedy is known as "Snuffles the Guaranteed Catarrh Cure," and is sold at the extremely low price of one dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"Snuffles" is the only perfect catarrh cure ever made, and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve hay fever or cold in the head.

Catarrh when neglected often leads to consumption—"Snuffles" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure catarrh in any form or stage if used according to the directions which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "Snuffles" the "Guaranteed Catarrh Cure."

Sent prepaid to any address in the United States or Canada on receipt of one dollar. Address, Dept. B734, Edwin B. Giles & Company, 2330 and 2332 Market Street, Philadelphia.

The Ohio Building.

The Ohio State building has a prominent place at the Pan-American Exposition to be held in Buffalo next summer. The design is plain Grecian

OHIO STATE BUILDING.

Doelc, the beauty of which lies mainly in its classic proportions and commanding position. It is designed exclusively for social purposes and will be the rendezvous of Ohio visitors to the Exposition.

"Profitable Employment of the Surplus Productive Power of the Farms, Factories, Etc."

Who Is Back of the Subsidy Bill?

The bill has no genuine popular support. There is no real popular demand for it, never has been and never will be. It does not appeal even to the selfish interests of any large class. When it was in the senate in the last session, it was so strongly opposed by the representatives of organized labor and by farmers' organizations throughout the west and south especially that it was abandoned for fear of the effect on the approaching presidential and congressional elections. That opposition has never been appeased, but it is now thought safe to ignore it. The one class that could be relied on to support the measure if it really would accomplish what it is pretended that it will accomplish are the shippers of the United States, who are interested in obtaining as full and cheap service on the ocean as possible. This class does not support the measure, and some of the most active and influential members of the class oppose it strongly, as witness the Merchants' Association of New York.

In these circumstances we repeat that it will be disgraceful to the Democratic minority in the senate if the bill is allowed to pass at this session. They are bound by every consideration of party loyalty and of rational patriotism to defeat it. It not only violates every principle of Democratic belief in the matter of economic legislation, but it is such a flagrant and scandalous job that it ought to be killed for its ingrained viciousness. It is an offense to common honesty, and if the Republicans in the senate have not the independence of party discipline needed to stand up against it, the Democrats should not hesitate to do so.—New York Times.

In 1881 the largest arc light machine made supplied current for 16 lights, and when Mr. Brush made a 50 light machine it was a giant. In the electrical exhibits of the Pan-American Exposition the largest type of Brush arc light machine will be shown, and this will afford interesting comparison with the machines of 20 years ago.
