#### STATE BUYS 60,000 ACRES.

Timber Tracts from Pardee to Colyer

Bought by the State. The state forestry commissioners purchased from various parties sixty thousand acres of wood land lying between Pardee and Colyer. It is the purpose of the state to purchase, if possible, the entire belt between Pardee and Tyrone, which is regarded a good territory to reforest. The average price paid per acre is \$1.00. After the state gets full control, bunting and fishing will be forbidden, and game, fish and forest wardens will be properly located to see that the state's orders are enforced. A warden will likely be stationed on the old Thompson farm, near Potters Mills, which will be turned over to the state together with 2,-600 acres of wood land by E. M. Huyett. The larger tracts involved in this
