6.92 INCHES OF RAIN

Fell in 17 Hours. There was an unusual fall of rain Saturday and Sunday. Saturday the official measurement up to 6 p. m. was seventy hundreth inches, and from that hour to Sunday at 1.30 p. m., when the rain ceased, five and fiftytwo hundredth inches fell, making a total of 6.22 inches for the two days. About Centre Hall there was little or no damage done, except the usual washing of the fields in the surrounding country, and in the town proper lots occupied by Aaron Thomas and fort. Mrs. E. A. Meyer were covered with water to a depth of three to five feet.

Echoes of the Rain.

The township bridge at the David Keller farm, near Linden Hall, occupied by David Snyder, was carried away. This is the first time the bridge was ever disturbed by high waters.

Fergus Potter, Esq., of near Linden Hall, had considerable fence washed away and others torn down. A pasture field, upon which four head of cattle were grazing, was covered to a depth of five feet. Mr. Potter just got his cattle on high ground in time to save them from drowning. His hog pen was also flooded, but the shoats were removed to a place of safety.

An acre or more of freshly plowed ground on the farm of W. H. Bartholmew, on the south side of the public read, about three miles west of Centre Hall, was carried away to the full depth of the furrow, leaving the rocks

Forty rods of wire fence, just built on the farm of D. Hess, at Linden Hall, was washed away.

A meadow, belonging to Robert Mc-Clellan, at Linden Hall, which had just been plowed to be sown to wheat, was badly washed. Mr. Mc-Clellan had unusual hard luck this summer. A previous flood cleaned one of his meadows from hay which had been cut and dried, and early in the spring his barn was destroyed by

Centralizing Schools,

The Potter township school board entered into an arrangement Saturday which will relieve that body from maintaining a school at "Cross Lane" school house. There are only a half dozen pupils who attend this school, and an arrangement was entered into whereby these scholars will be daily conveyed to the Potters Mills schools, a distance of two and one-half miles. The expense in this case will not be one-fifth as much as it would be to keep open the school, which illustrates the practicability of centralizing public schools from a point of economy.
