

THE BOER FARMS WILL BE SOLD.

Lord Kitchener Proceeds to Carry Out Proclamation.

A LETTER FROM SCHALK-BURGER.

A Pamphlet Has Been Published in Pretoria Under Lord Kitchener's Authority Containing a Notice of the Permanent Banishment of Several Boer Leaders Captured Since September 15.

Pretoria (By Cable).—A proclamation has been issued providing for the sale of the property of burghers still in the field, in accordance with the terms of Lord Kitchener's recent proclamation. A pamphlet has been published here under Lord Kitchener's authority containing a notice of the permanent banishment of several Boer leaders captured since September 15, and also a long letter from Lord Kitchener replying to a communication from Acting President Schalk-Burger, of the Transvaal, received Sept. 5. Lord Kitchener promises to send the Schalk-Burger letter to the Imperial Government, which, he says, reciprocates the Boer statesman's desire for peace. He then proceeds to charge that the responsibility for the war rests with the burghers, "whose invasion of unprotected British territory opened the saddest page in South African history." Lord Kitchener quotes a letter from a member of the Volksraad to a member of the Cape Colony Assembly declaring that "the time is ripe to drive the English from South Africa."

In conclusion Lord Kitchener declares that, having annexed the two republics to Great Britain, he cannot break faith with the people who have shown loyalty to the new regime.

MR. MCKINLEY'S WILL.

Estate of \$225,000 Bequeathed to His Wife—Annuity of \$1,000 to His Sister.

Canton, O. (Special).—Secretary Cortelyou came here to assist Mrs. McKinley in disposing of matters connected with the late President's estate. After meeting Mrs. McKinley the question of filing the will was taken up. The trying task of reading it to her was undertaken by the faithful secretary. Mrs. McKinley made a heroic effort to bear up, and succeeded in doing so, although the ordeal was difficult for her. All legal formalities necessary for her to subscribe to were disposed of.

At 3 o'clock in the afternoon Judge Day and Secretary Cortelyou went to the office of the probate judge and offered the will of President McKinley for probate. They carried with them the following:

"I, Ida S. McKinley, widow of William McKinley, deceased, hereby decline the administration of his estate and recommend the appointment of William R. Day and George B. Cortelyou as administrators with the will annexed."

This recommendation bears the date of September 27, 1901.

Following is the text of President McKinley's will:

"Executive Mansion, Washington, D. C.—I publish the following as my latest will and testament, hereby revoking all former wills:

"To my beloved wife, Ida S. McKinley, I bequeath all of my real estate, wherever situated, and the income of any personal property of which I may be possessed at death, during her natural life. I make the following charge upon all of my property, both real and personal. To pay my mother during her life \$1000 a year, and at her death said sum to be paid to my sister, Helen McKinley. If the income from property be insufficient to keep my wife in great comfort and pay the annuity above provided, then I direct that such of my property be sold so as to make a sum adequate for both purposes. Whatever property remains at the death of my wife I give to my brother and sisters, share and share alike. My chief concern is that my wife, from my estate, shall have all she requires for her comfort and pleasure, and that my mother shall be provided with whatever money she requires to make her old age comfortable and happy.

"Witness my hand and seal, this 22d day of October, 1897, to my last will and testament, made at the city of Washington, District of Columbia.

"WILLIAM MCKINLEY.

(Seal)

The foregoing will was witnessed by us this 22d day of October, 1897, at the request of the testator, and his name signed hereto in our presence and our signature hereto in his presence.

"GEORGE B. CORTELYOU,
"CHARLES LOEFFLER."

"I is given out on authority that the McKinley estate will total \$225,000, including life insurance of \$57,000. Aside from this insurance, the estate consists of real estate here and contiguous to Canton and of deposits in Washington banks. The will is in the President's own handwriting, and is on Executive Mansion letter paper.

THIRTEEN MEN DROWNED.

Prospectors Were Caught in Cloudburst in Texas.

San Antonio, Texas (Special).—News has just been received here of a terrible disaster in Presidio county, near the Rio Grande river. Thirteen men who were prospecting for tin lost their lives in floods caused by a waterspout or cloudburst.

The men were in two parties camped one mile apart in a dry ravine known as Alamito creek, in which there had been no water for 15 months on account of the drought. They were asleep at 9 o'clock. There was a cloudburst several miles up the ravine. A volume of water 20 feet high washed down the channel of the ravine and swept over the men in the two camps before they were aware of their danger. All were drowned, and only six bodies have been recovered.

Philippine Official Accused.

Manila (By Cable).—Juan Cardona, who until recently was President of the Province of Tarlac, and who was appointed secretary of the Tarlac provincial government, has been arrested on the charge of accusing persons of crimes for the purpose of extorting money from them.

More than 50 persons declare they have been robbed by him in this way, some saying they have even surrendered title deeds to property. Cardona had been considered one of the most reliable natives holding pro-American views.

COLUMBIA WINS FIRST CUP RACE.

Challenger Led by 41 Seconds at the Outer Mark—The Contest the Most Exciting in History.

THE COLUMBIA.

New York (Special).—In the closest and most soul-stirring race ever sailed for the old America's Cup the white flyer Columbia beat the British challenger over a windward and leeward course of 30 nautical miles by the narrow, heart-breaking margin of 41 seconds. As Lip-ton's latest aspirant for cup honors must allow the defender 43 seconds on account of the extra 833 square feet of canvas in her sail area, the official record, under the rules, gives Columbia the victory by 1 minute 22 seconds.

As a spectacle the contest was superb. From the time the two sky-scraping racers crossed the starting line until they fled across the finish line, four and a half hours later, the result was in doubt, and the excitement aboard the excursion fleet increased until men became frenzied and women almost hysterical.

So evenly matched were these two scientific racing machines that never after they started were the rival skippers out of each other's hail, and more than three-quarters of the time they were so close that Charlie Barr, who had the tiller aboard the American, could have tossed

a biscuit to Captain Sycamore on the Shamrock. For miles as they beat their way to the outer mark the black shadow of Shamrock's huge club-topsail was painted on the big mainsail of the Columbia, for an hour on the run home, with the two yachts flying like scared deer before the following wind, they ran almost beam to beam, as if they had been harnessed together.

The memory of the races between the Genesta and the Puritan, in 1885, and Lord Dunraven's first Valkyrie and the Vigilant, in 1893, which have been treasured by yachtsmen up to this time, will be forgotten after this magnificent duel. It will live forever in the memory of those who witnessed it. In the years to come the yachtsmen of the two nations will recount the thrilling story of the celebrated first race between the Columbia and the Shamrock II, sailed off New York harbor in the first year of the new century.

Yacht	Start	Finish	Time
Shamrock	11:00:14	3:31:58	4:31:44
Columbia	11:00:16	3:31:23	4:30:22

The next race will be over a triangular course ten miles to a leg.

to groan. While his handcuffs were being unlocked his muscles twitched and his whole body quivered. The handcuffs unhooked. Czolgosz was raised to a sitting posture, but he had not strength to support himself. Prison keepers raised him to his feet, but his legs hung limp and he was half dragged, half carried, moaning as if in agony, into the office of Deputy Warden Tupper, a dozen yards away. Keepers began stripping him of his clothes, and he groaned louder than ever.

Warden Meade feared total collapse and summoned the prison physician, Dr. Gerin, but by the time that officer arrived Czolgosz was clad in the regulation shoddy suit for condemned men and after treatment was apparently better. When he was assured that he was not to be harmed he became calmer, and 45 minutes later he was taken to his cell.

Men Hurled in All Directions.

New York (Special).—Six men and possibly seven were killed and seven injured by the explosion of an oil tank of the Essex and Hudson Gas Company, at Newark, N. J. The tank which exploded was one of a number of immense steel reservoirs which was undergoing its periodical cleaning, it having been emptied of its oil in the morning.

Burglars Were Detected.

Armada, Mich. (Special).—Three burglars broke into the general store of D. H. Barrows, where the postoffice is located, and dynamited the safe. The explosion awakened the town, and a number of citizens were soon on the street. In the battle which followed one of the burglars was fatally wounded. He gives his name as John Graham. The burglars left the store and started for the railroad track after several shots had been fired into them by citizens. A running fight ensued, in which Graham was wounded.

NATIONAL CAPITAL AFFAIRS.

Brevets for Roosevelt.

Adjutant General Corbin says that the Board of Brevets, recently appointed to meet at the War Department, would devote its attention solely to the cases of officers and enlisted men who especially distinguished themselves in the campaigns in China and the Philippines. It will have nothing to do with respect to the case of officers who rendered special service in the West Indian campaign.

The latter class of cases was disposed of by a similar board, which concluded its sessions over a year ago.

While the fact that a brevet had been recommended to Congress for Colonel Roosevelt was published at the time the nominations were sent to the Senate, it appears that the facts that there were two separate recommendations, and the exact basis for the board action were not made public. Therefore the Adjutant General furnished these transcripts from the proceedings of the board:

"Lieutenant Colonel Theodore Roosevelt, First United States Volunteer Cavalry, to be breveted colonel United States Volunteers for gallantry in battle, Las Guasimas, Cuba, June 24, 1898."

"For gallantry in battle, Santiago de Cuba July 1, 1898. Lieutenant Colonel Theodore Roosevelt to be breveted brigadier general."

Armor Will Not Delay.

Armor will no longer delay the completion of battleships and armored cruisers under construction for the American Navy.

Rear-Admiral O'Neill, Chief of Ordnance, has received written assurances from the Carnegie Steel Company and the Bethlehem Iron Company that they will shortly begin supplying the Government with 500 tons per month each. This is almost double the quantity that is now furnished.

In order to make these deliveries it will be necessary for the companies to increase their plants. This will mean a considerable expense, but in view of the size of the contracts on hand and the prospect that at the coming session of Congress additional armored ships will be authorized the companies are willing to incur it.

For Rural Free Delivery.

The official estimates for the fiscal year beginning July 1, 1902, which Postmaster-General Charles Emory Smith will submit to Congress at the opening of the session, call for an aggregate of \$6,250,000 for rural free delivery service throughout the country. This is an increase of \$2,750,000 over the expense of that rapidly growing service for the current year.

The total for the free delivery service proper, which is that operated in cities, is \$18,745,000, an increase of 9 per cent. The grand aggregate for the entire postal free delivery service, inclusive of both the free delivery and rural free delivery, is \$24,995,000.

This is an increase of \$2,174 commercial bales, or more than 8 per cent. in excess of the 1899 crop.

The Sultan of Sulu has communicated with Governor Taft and Secretary of War Root, asserting his sovereignty over the island and indicating his desire for its early occupation by Prince Poniatowski.

Slain by Her Brothers?

De Soto, Mo. (Special).—Evidence was presented to Coroner Taylor that John Meloy and Mrs. Sarah Uren were murdered in the woman's house. William and Daniel Greenhill, brothers of the woman, are under close guard. They say that excitement led them to mutilate with hatchet and axe what they believed to be their sister's dead body and that of Meloy. The testimony of three doctors who examined the bodies, however, was to the effect that the hatchet wounds in the heads had been inflicted before the bullets were fired into the brains of the victims.

ATTACK UPON GUARD AT MCKINLEY TOMB.

Officers Think That Soldier's Nerves Were Shaken by Loneliness.

SENTINEL STICKS TO HIS STORY.

After the Story of Private De Prend, the Force Was Increased by the Addition of Ten Men—Lieutenant Ware Arrived From Fort Wayne, Mich., and Relieved Lieutenant Avery.

Canton, Ohio (Special).—The officers and men of Company C, Fourteenth United States Infantry, on duty at West Lawn Cemetery, guarding the temporary resting place of President McKinley, are working diligently investigating the strange story in which Private DePrend, who was on duty at the top of the vault, figured so prominently.

The same officer which prevented the officers and men from making detailed statements concerning the incidents are maintained. From interviews with all of the command officers, several non-commissioned officers and a number of privates, the following was gathered.

All of the commissioned officers and members of the company in general accepted fully the story related by Private DePrend and really believed that the alleged prowlers were about the vault. Monday only one of the commissioned officers adhered to the belief that an attempt had been made upon the sentinel for ghoulish purposes. He said: "It was the real thing. It was prompted by the pure cunningness of some persons who thought to bring reproach upon the nation by doing damage to the resting place of the dead President."

The men expressed the belief that Private DePrend acted in good faith and that he related only what he believed to be the circumstances. With Captain Biddle and others he went over the details of the affair at least a dozen times, and it is said he did not vary in a statement of importance. Particular inquiry was made as to his sobriety at the time, and it is said that it is established beyond all reasonable doubt that he had not been drinking and that he was in his normal condition. The most common belief is that the sentinel was overworked by the loneliness of his position, that his nerves were overtaxed and that imagination contributed some of the details related in good faith. The post was regarded by all as particularly isolated and depressing to the man guarding it at night, and it is understood that more sentinels will be stationed at the point in the future.

Captain Biddle was fully convinced Sunday night of the truth of the story as related, but after investigation entertained no doubt of the sincerity of Private DePrend. Captain Biddle authorized this statement:

"I think the sentinel deceived himself as to the occurrence. I do not think an actual attack as related by him occurred. When daylight came no evidence of a struggle was found."

The case has been reported in full to General Otis, at Chicago, commanding the department to which the guard is attached. Whether there will be a formal inquiry remains for General Otis to decide. Officers at the cemetery expressed the hope that, inasmuch as no actual harm had been done, no formal action will be taken.

ONE DEAD AND TWO DYING.

A Woman Poured Oil in a Kitchen Stove With Terrible Result.

Pittsburg (Special).—As a result of an attempt to use oil to hurry along the kitchen fire Mrs. Barbara Sturgent is dead, her husband, Andrew Sturgent, and their son George are dying, and two other children—Barbara and Andrew—are very badly burned.

The family occupied two rooms of a tenement house at 1102 Washington avenue, Braddock. Mrs. Sturgent, while getting the breakfast, started to pour oil on the kindling wood in the stove and immediately there was an explosion. The room was filled with clothing hung on a line to dry. In an instant the two rooms were a blazing furnace. Mrs. Sturgent was burned to death, while her husband and son were literally cooked. The other families in the building were rescued by prompt work by the firemen.

MOTHER'S AWFUL DEED.

Threw Four Children into a Well and Followed Them.

Cleveland (Special).—The town of Little River, a station on the line of the Akron, Bedford and Cleveland Railway, 15 miles south of this city, was the scene of a terrible tragedy.

Mrs. Perry Curtiss, the wife of a farmer, drowned her four small children in a well and then committed suicide by jumping in after them.

Her husband was in Cleveland with a load of potatoes and knew nothing of the tragedy until he read an account of it in the newspapers. Mrs. Curtiss was released from the Massillon Insane Asylum recently as cured and it is thought that it was while suffering a relapse that she committed the terrible deed.

Cruiser Cleveland Launched.

Bath, Me. (Special).—Great interest attended the launching here at the Bath Iron Works of the United States cruiser Cleveland. The spectators occupied every available place from which the ceremonies could be viewed.

At a few minutes before noon the christening party, including Miss Ruth Hanna, Senators Hanna, Frye and Hale and Congressman Littlefield, mounted the platform at the bow of the cruiser, and almost at the stroke of noon Miss Hanna, with a daintily mounted silver hatchet, cut the cords, releasing the key-shores, and, as the big craft began to move, broke a bottle of American champagne over the bow, christening the cruiser "Cleveland."

Shot as He Sought Revenge.

Kingston, N. Y. (Special).—Augustus Miller was shot in the stomach and probably mortally wounded by John Walton. Walton had reported several employees of the Lawrence Cement Company at Rosendale to the management of the company for making alleged derogatory remarks about President McKinley after the latter was shot, and they were discharged, Miller being one of the number. Miller and his wife, it is said, assailed Walton, and the latter, who had been warned of threats against him, shot Miller while defending himself.
