A HOME IN THE SOUTH.

Escape the rigors of another Northern Winter and enjoy the delights of the Southland.

Nowhere can be found a more delightful climate than in our own Southland. Its winters are mild and balmy and in most cases Summer does not bring with it such extremes of heat as are found elsewhere. In fact, the South is a land where extremes of climate are avoided, and consequently, is a healthful and altogether desirable location.

The tide of emigration has turned Southward, for it is now alone in climatic advantages that this favored land excels, but its resources, the fertility of its soil and its mineral wealth and abundant water power commend it to the thoughtful consideration of any one who seeks a home where Northern thrift and enterprise may carve out success.

The Seaboard Air Line Railway, in order to stimulate investigation and to assist in opening up the fine territory traversed by its lines, announces that it will sell to prospectors and settlers, tickets one way or round trip, at greatly reduced rates, information as to which may be obtained of any agent or representative of the Company.
