Every day a new revelation. Every week a greater satisfaction.

And now let us say to one and all that while the last thought of each day is, 'have we done all in our power to place goods today in the hands of our customers at the lowest possible prices," we always aim to start the next day with greater determination, if possible, to outdo the day before. stood the journey well; and the opera- seventy-eight feet south of the marker, mer Campbell, at Linden Hall, but is and try in some way to merit a deeper confidence than before, by giving new goods at best cash

Our position is such that we can give you good value for your money, in fact more than you can get elsewhere in the valley. You know we pay no rents, no drayage, buy no goods from travel-ing salesmen, sell for cash, never give exchange tickets or premiums, (look out for the store that gives premiums, you pay well for these,) but we sell you goods outright at a low cash bargain. We invite your closest attention and ask you to see how much we can solicit your confidence with the best of everything in season.

Postmasters Uneasy.

Fourth class postmasters are just a bit shaky these chilly November days. Hundreds of them in Pennsylvania will be obliged to renew their bonds, which gives the department and the opposing elements, if any, an opportunity to place a wedge between the office-holder and his government job. Once the wedge is inserted there are plenty who are willing to give it a punch with the political maul, in the hope that the spawl would serve one of
