Herbert I. Brungart, of Potters Mills, Allegheny county, and Miss Viola Mae Walter, daughter of Mr. and Mrs. John Walter, of Scottdale, Westmoreland county, were married on the 24th ult., at the bride's home.

Promptly at four p. m. as Miss Daisy Orr, of Carnegie, cousin of the bride, played the wedding march the bridal party in the following order entered the parlor: Misses Celia Alton and Jane Parker, ribbon girls, then followed the flower girl, Charlotte Loucks, and page boy, Master Thomas Wible, cousin of the bride, from Greensburg; then came the groom attended by his class-mate, Rev. W. H. Derr, of Susquehanna University, followed by the bride on the arm of her father.

After congratulations the guests proceeded to the dining room where an elaborate repast was served. There were about seventy-five guests present. The bride was the recipient of many valuable presents. The house was decorated in green and white.

The groom is the second son of Mr. and Mrs. Newton Brungart, of Rebersburg, is an energetic young man of excellent qualities, backed by an irreproachable character. He is a prominent real estate and insurance agent of Potters Mills, Pa., which business he has followed since his graduation from the Susquehanna University in the spring of 1900.

How Do They Originate?

It is a query how many of the ridiculous stories circulated originate. The less truth the story contains, the more rapidly it is circulated. At present there are several vile stories on the lips of many, that are entirely without foundation.

Then there is another class of misrepresentations. For instance: Several weeks ago an agent stopped with Edward Sellers. He had done so frequently, but after he had left the story was put out, Marconi fashion, that Mr. Sellers would leave Centre Hall to associate in business with this particular man. Not a bit of truth in it; not a bit.

Again: It's all around that Charles H. Meyer, of Millersburg, was coming to town to open a hardware store. All false, but Centre Hall would be a daisy place for that kind of business.

Here is another: It was talked everywhere that Wilbur Henney had bought the bakery business of W. D. Shoop, and that he would conduct it after January 1. Not a word of truth in it, say the Shoops.

When you see it in the Reporter it is true, true, true.

Opposed to the Vertical Style.

The vertical style of penmanship, from which so much was expected in the way of greater ease in writing and greater legibility in reading, is not having it all its own way. In Connecticut, one of the county boards of education has been making extended investigation as to its merits. These inquiries were particularly directed to those who largely employed clerical labor, and the results have been so greatly in favor of the old slanting principles that a recommendation has been that the vertical be abolished and the former method be substituted in the schools under their control.
