SHAW AND PAYNE BOTH CONFIRMED

The Senate in executive session last week confirmed the nomination of Leslie M. Shaw to be Secretary of the Treasury, and of Henry C. Payne to be Postmaster General. The confirmation of Mr. Shaw was accomplished without comment, but there was some controversy over the action of the committee on post offices in reporting Mr. Payne's nomination going through the formality of a meeting.

NATIONAL TICKETS.

It's a long ways off yet, but the guesser is guessing, and guessing it is, at the National Democratic ticket to be placed in the field for the next presidential election. Here are two tickets: General Nelson A. Miles. Admiral Schley or Admiral Dewey. David Bennett Hill, New York. Carter Harrison, Illinois. It would be a great joke if Lieutenant General Nelson A. Miles would become president about the time Roosevelt becomes an ex-president.

The Prohibitionists of Williamsport have nominated James Mansel for Mayor and adopted resolutions favoring municipal ownership of electric lighting and all other franchises "that will tend to benefit the overburdened taxpayers." Mr. Mansel was elected Mayor of Williamsport in 1896.

ANOTHER GREAT YEAR.

Steady Advance Made in Every Direction by The Pittsburg Post. We notice that "The Pittsburg Post" has had its share of the prosperity of the business world in the past year and maintained its position at the head of the newspaper procession in Pittsburg. "The Post" has always aimed to be a clear, decent newspaper, devoid of sensationalism, giving as accurately as possible all the news that was proper for publication, carefully keeping out of its columns such matters as would give offense or do injury. That "The Post" is esteemed and appreciated at its full worth is proved by the steady progress during the year just closed.

The daily and Sunday issues are keeping pace with each other, both in the matter of subscribers and in value as advertising mediums. As to news, special features and illustrations, the reputation of the daily and Sunday "Post" is so well established that it is scarcely necessary to go into details here.

During the past year "The Daily Post" increased its subscription list 2,448 copies and "The Sunday Post" 9,610.

Its advertising record is quite as remarkable, showing an increase of 1,992 columns of advertising over the previous year.

Bee Buzzes.

One-fourth of an acre may contain 150 colonies of bees.

An apiary should not be placed on ground thickly set with trees.

Bees secrete wax only when necessary to furnish storage room for honey or brood.

The secretion of one pound of wax necessitates the consumption of twenty pounds of honey.

When a queen is gone, it will be only a few days until the colony will cease to store much surplus honey.

Sometimes, toward the close of the honey season, the bees will destroy the queen cells or kill all of the queens but one, thus destroying the incentive to swarm.

Care must be taken to see that there is a queen in every colony. If she gets lost or is killed, another must be put in her place, as the colony will run down very fast if left queenless.

Never feed bees during the day, it matters not whether there be one colony or many. It causes confusion, and the bees frequently get cross and go to stinging anything they come near.

In getting bees that have swarmed back into a hive much loss may be prevented by stretching a piece of strong canvas on the ground and setting the hive upon it and then shaking the bees on it.

One of Florence's Jokes.

That genial comedian W. J. Florence had a habit of promising a man a fish or some game when he was about starting on a hunting or fishing trip. Day after day would pass, and the game would not be forthcoming. But almost every day a letter or telegram would come saying that Florence was just about sending the game; that there was no cause for worry, as a fine fish or deer was on its way to the express office. At first this solicitude would cause courteous letters and telegrams in return. As the delay got longer the victim would get impatient and would finally be literally haunted by huge fishes or deer, "with the compliments of W. J. Florence." Then some fine day, when it was least expected, the fish or deer would come.

Beef Tea.

It is the suggestion of a trained nurse, whose beef tea was most acceptable to a patient to whom in any previous illness it had been repellent, that the beef should be broiled before the juice is extracted. A thick, lean, juicy steak from the round is broiled over a clear fire perhaps two minutes on each side, after which it is cut up into small squares, put into a saucepan, covered with cold water and set on the back of the stove, where it should steep, not boil, for fully two hours. Remember not to add the salt until the dish is taken from the fire and serve it hot unless, of course, it is to be offered as cold or iced beef tea.

Are Willow Trees Lightning Proof?

"In all my forty years' experience with trees and plants," said a well known gardener, "I have yet to hear of a willow tree being struck by lightning. Spruce trees, whitewood and pine trees sometimes almost seem to attract the electricity, and oak and other large trees and even many small trees are often maimed and killed. But willow trees seem for some reason to be immune to death or injury in this shape, and I have never seen or even heard of a tree of this family which lightning has ever struck."—Cleveland Leader.
