TO BUILD NEW STORE ROOM.

The 'Flat Iron" Corner to Have a Store Room 22x45.

George O. Benner, proprietor of the "Star Store," has completed arrangements to build a new store room on the "Flat Iron" corner opposite the Centre Hall station. The new store house will be a frame building, 22x45 feet, two story in height, with gables and projections to aid in giving the structure a neat and pleasing effect.

The "Star Store" was opened by Mr. Benner in 1889, and its beginning was rudely modest. But business br. gan to grow under his absolute cash and entertainer is the best. His subsystem, and today, while his store ject "Political Agitators" is one espebuilding might be termed an apology, cially adapted to the conditions in this his sales are coveted.

The contract for this building has been let to John F. Hagen, contractor and builder, of Farmers Mills. Building operations will begin as soon as spring weather appears, The building ent parts of the state were present and all assent will be set on the borough building line, parallel with the pike.

Mr. Hagen also has the contract for erecting a large manure shed to be built by E. M. Huyett, on his farm west of Centre Hall. The barn on the same farm will also be re-roofed, re-sided and remodeled in the interior.

Will be Here Friday. Photographer W. W. Smith will be at his Centre Hall gallery Friday of this week.
