The Freedom of Cuba.

On May 20 the trusteeship of the United States in Cuba will come to an end and the government of the island will be turned over to President Palma and the Cuban people. It is almost four years since the United States took up arms against Spain in behalf of Cuban independence, after giving its solemn pledge to the world to leave the control of the island to its people after its pacification had been accomplished.

Two elements conspired to embarrass President McKinley in carrying out the instructions of Congress. On the one hand were the patriotic but misguided Cubans, who chafed under military control and demanded independence without delay. In this country was a powerful faction which sought to have the United States violate its vows and dishonor itself by retaining Cuba. To both of these influences President McKinley refused to listen.

A Time for Everything.

There is an old adage that says we must find a time to play as well as a time to work. We leave this for you to decide for it is hard to find a rule that will work in all cases, as so many men are born under such varied circumstances; where luck is showered upon one, making life easy, another must toil to keep pace. So we will not attempt to solve a problem that enters into every one's experience, surrounded with an environment of its own; but one thing is very sure, we are going to sell you more goods and for less money than ever before. It is impossible to tell you of even one-tenth of our offerings, but will attempt to give you a me a sprinkling. Come and see the rest.
