During the past week Gov. Pattison and Mr. Guthrie held a series of most successful meetings, ten in all, in Philadelphia. Upon each occasion there was a large attendance, many voters of the opposition party testifying by their presence their sympathy with the movement to reclaim the state from ring misrule. The party organization is reported to be in better and more effective condition than for many years past. A large amount of work has been done that does not appear upon the surface. There is every assurance of a vote for the Democratic candidates that will exceed that of last year, when the machine majority, a considerable proportion of it being fraudulent, was less than 40,000. The Quay contingent is bitterly complaining of the indifference of many party workers. There is no expectation of a plurality for Pennypacker much over 50,000, and with that a Quay victory in the state will not be possible. A heavy independent vote for Pattison and Guthrie is indicated, and such a close watch will be kept on the crooks it will be impossible to repeat the performances of recent years.

From all parts of the state continue to come encouraging reports to the campaign committee, at the last meeting of which, in Philadelphia, and Harrisburg, Chairman Creasy was assured that the prospect could not be brighter. "I think the fight is won," said Col. Guffey, "but we must push right on till the last minute and take nothing for granted." Only another fortnight remains and it behooves every patriotic citizen to redouble his efforts in behalf of this great movement of the people against the bosses. Pennypacker is the weakest candidate the machine ever put up. A little more well directed effort all along the line and Quayism will go down forever.

Pattison's popularity amongst all classes of workers seems to be something the machine hirings cannot understand. Nothing queer about it. The people know an honest man when they see him and they want that sort of an executive at Harrisburg during the next four years.

The unhappy machine candidate for governor pathetically refers to the "judicial robes left hanging in the city hall," Philadelphia. We will bet a ton of soft coal against a crook of the ex-judge's apple butter that he regrets the fateful day that he laid aside these honorable robes to don the hated livery of Quayism.

The Philadelphia Press bitterly complains that General Apathy has superseded General Frost, in command of the Pennypacker forces. Next week General Demoralization will be at the front, to be followed by General Disaster, who will conduct the retreat on November 4.

The labor issue raised against Pattison proved to be a most destructive boomerang. The Democratic governor did more for labor while at Harrisburg than all his Republican successors together. This is the plain truth as shown by the official records.

When Mr. Pennypacker goes back to his farm, on the Perkiomen, he can reflect on the folly of giving up a judicial job for life to take a dishonored nomination for governor that the people repudiated.

The coal miners know who their friends are. Their tremendous vote last year showed that they understood the situation. They will hit the tricky Quay machine harder still on Nov. 4.

Pennypacker and his warming pan have had hard times through the northern tier. The voters everywhere seem to have sized up the short-sighted Quay apostate.

With active workers in every school district, Chairman Creasy hopes to get out every Democratic vote. Lend a hand, in the interest of clean politics and honest government.

The publication of Pattison's remarkable labor record, his official words and acts, was a knock-out blow from which the machine literary bureau has not recovered.

Vote for Pattison.

A CLEAN SWEEP OF SPOILS

Philadelphia to Be in the Grip of a Gigantic Light, Power and Transit Combination.

MORE LEGISLATION IS NEEDED

(Special Correspondence.)

Philadelphia, Oct. 20.—The last session of the legislature showed what the allied forces of public plunderers could do, but if the people of Pennsylvania think that high water mark was not touched they will find themselves mistaken, if they give a new lease of power to the same grasping and conscienceless element. What was accomplished indicated what could be done along the same lines and plans are being laid for still greater schemes.

Strengthened by its own audacity and encouraged by its sweeping triumphs, the machine proposes to take everything in sight next time, if it succeeds at the polls in November it will claim that its policy has been vindicated and proceed to entrench itself for the next twenty-five years. This is not only possible, it is an absolute certainty, if the projects now on foot are carried out. The whole state will be helplessly subject to the gigantic combination of selfish interests now at work. Elections will be a mockery and tribute to the amount of scores of millions of dollars will be exacted from the people. When the climax is reached it will be the culmination of work that has been going on for ten years past.

How They Raise Campaign Funds.

The financial bulwark of the Quay machine has been and is the misuse of the state funds, their control of the treasury and the secret support of certain interests that keep out of sight. Barrels of money have been raised whenever needed and now it is intended to spend more than ever before in a single state campaign, the deliberate purpose being to debauch the degraded portion of the electorate and control election boards by violence and corruption. If the agents of the machine can get the money—all that is demanded. They always do. No one is allowed to become the beneficiary of ring favor who does not pay the freight. For several years a prominent citizen of Philadelphia, having large business interests, backed the local bosses most liberally. He died suddenly and instead of leaving a million or more as every one supposed, his estate was surprisingly small. He had been almost bled to death—financially. A successor was found, who put up the money, by the bag full. He was given feigning public honors, but being thrifty minded he got in on the ground floor with the speculators in public franchises and came out far ahead. Great corporations have been compelled to stand and deliver to these public pirates until some of their master spirits have at last called a halt. They are today praying for the complete overthrow of the grafters.

Millions More in Sight.

In Philadelphia it is proposed to supplement the immensely profitable schemes of the past few years. The people have been so deeply wronged that it is thought they will weakly submit to any new trespass upon their rights, to any new burdens that may be laid upon them. No other city in the United States is so completely subject to onerous local transit monopoly. It will be remembered that when the street railway franchise bills were pushed at Harrisburg it was loudly proclaimed that the benevolent purpose of the projectors was to break monopoly and bring about better conditions. Every statement to the contrary was furiously denied. To the last hour of secret combination negotiations, directors brazenly declared there was "nothing in it." There has been a vast sum of money divided since and how this city is doomed to monopoly and high fares for fifty years. The combine controls traffic on the ground, under the ground and above the ground.

Another Gigantic Combine Scheme.

Five years ago the gas works were taken by a corporation that had gradually worked its way to the front. The service had been demoralized in its direct interest. The people had been so grievously wronged they were ready to surrender on almost any terms. Facing a winter without coal, or at extortionate prices, when they demanded cheaper gas they were pointed to the hard and fast terms of a one-sided bargain for twenty-five years more. Experts have shown that the company could make big money at one-half the rate they secured. This contract, if it is not changed, will cost the people of Philadelphia fully thirty millions of dollars more than it should. It comprises the most gigantic grab in the history of municipalities in this country.

"A community of interest" prevails between the gas company and the electric light trust, which over-taxes the municipality through its monopoly, more than one hundred thousand dollars a year, while the people are likewise held up through extortionate rates. There has been no competition. One little company fought hard, but it was swallowed up. The light combine, gas and electric, including too, heat and power, have been edging up to the trolley combine and now all hands are ready to pool their issues, putting a steel band around this helpless city for generations to come, with a combined capital, money and water—of at least one hundred million dollars. This new colossus is to "take over" the city water works, after nearly twenty million dollars have been spent, millions of it squandered in filtration schemes that will

never protect the public health, as has been already shown. Legislation, local and state, will be required to enable these plans to be carried out. With Quayism triumphant in November and February, everything would be in fine shape for another carnival of debauchery and the enslavement of the greatest city of the commonwealth.

It remains to be seen what the plain people will do about it, not only the long plundered residents of the city to be affected, but the self-respecting citizenship of the state. It is within their power to smash this new combine and all others of the same kind. They can knock out Quayism with one blow and the rising tide of public indignation and patriotism visible in every part of the state indicates that this is what they propose to do on the 4th of November.

THE SUPREME ISSUES

Guthrie On the Interest of the Fireside In Honest Government.

In one of his speeches in Philadelphia, Mr. Guthrie, Democratic candidate for lieutenant governor, said:

There is no other part of the commonwealth where the wrongs of bad government fall so heavily as on the city. There is no possibility of growth and progress unless the resources of the city are wisely and judiciously put to public advantage. In no place is evil effect felt so quickly if no public funds are diverted to private profit. If the city is to be what it should be, all the public resources must be husbanded and used exclusively for public good. Every dollar improperly diverted is money stolen from the man who labors in any station. A public franchise diverted to private profit is as though it were money stolen from the treasury.

The vices of ring rule are so many that I have not time to recount them here. The greatest wrongs committed by the machine are those against the sovereignty of the people. Your state is not the property of your bosses, and your homes are your castles, at the firesides of which gather all that are nearest and dearest to you. If you would have the fireside safe you must have the front yard safe, too.

The distinguished candidate for governor on the machine ticket says that the matters raised by us in this campaign are of small moment, narrow and mean. Oh, that any one should say that the sanctity of the fireside is a thing small and mean! The powers of the state government are those that come right to the fireside. These are not narrow and small and mean.

It is to the state you must look for your privileges, protection and safety. It is the state which gives us police protection. One might suppose from the remarks of the distinguished candidate that he does not think the duty of the protection of lives and property is the protection of dives and policy shops.

We have permitted the building up of a machine system, more debasing and destructive to the liberties of our country than the African slavery. The machine sends men to the legislature who represent only fraudulent ballots, not the people. The machine sends men to the legislature who represent only fraudulent ballots, not the people. The machine sends men to the legislature who represent only fraudulent ballots, not the people.

The distinguished jurist says the government of our commonwealth fairly represents the virtue and intelligence of its people—that they who speak of its wrongs are slandering its fair name. Such a statement itself casts a stigma upon the people.

Some men may live in such a cloud of history, not even history, but just petty family incidents, that they lose all touch with things of the world. The men who live in the world know that these things of which we speak are known to the citizens of Pennsylvania. Let us free our state from this. We have the opportunity now. The people are aroused as they never have been before. Our state must be the home of freemen, worthy to be such.

How It Looks In Schuylkill.

The Pottsville Chronicle has the following: The large independent Republican vote which beyond doubt will be polled for Pattison is likely to have a bad effect upon the Republican county, senatorial and legislative tickets and will be the means of electing the entire Democratic ticket by majorities ranging anywhere from 800 to 3,500. If the election were held tomorrow the Republican party would be snuffed under by the mightiest majorities ever recorded in this county at any election.

The Republican party is up against it in regard to the election. It is evident to all who are witnessing the frantic endeavors of the Republican politicians to bring it to a settlement. We all know that the Republican party is entirely responsible for the condition which makes this strike possible or necessary. This is one of the real reasons why the large independent vote is going to be cast for the entire Democratic ticket in Schuylkill county on the 4th of next month.

The other reason is that the independent vote is going to be cast for the candidates of a party controlled by Mr. Quay. The dose even at a distance nauseates men who wish to do their own thinking. They to a man will vote the Democratic ticket, and the Republican ticket will be buried out of sight on election day.

Workers In Every School District.

State Chairman Creasy has named a committee of workers for every school district in the whole state, and the attaches of state Democratic headquarters are busy sending out several thousand letters of notification to the men selected in the counties of the commonwealth. The chairman has arranged for one of the liveliest gubernatorial campaigns ever undertaken in the state, and will have "the fences fixed" in every county. The men named on these sub-committees have been recommended by the county chairmen of the districts, and will carry the work of getting out the votes for Pattison into every precinct in the smallest political division in the state. The arrangements have been in progress for several weeks and the committee will be urged to make every effort for the ticket. Cordial support is being given to the state chairman in all counties.

In his swing around the circle Brother Pennypacker has not been disturbed to any great extent by the shouting in the Elkin amen corner when Brother Elkin was not there.

An anti-machine majority in the legislature is one of the best things confidently looked for. Work for it everywhere. The Pattison campaign managers have had no barrel to draw upon, but the strength of a just cause outweighs stolen millions.

An article in the last number of the Lehigh (Pa.) Press entitled "Coal trust organized under Pattison," sent out by the Republican state committee, contains some statements which entitle its author to the first prize for both mendacity and stupidity. No one could have written the article without malicious purpose of misrepresenting the facts, for it contains statements that must have been the invention of the writer. No one could have written the article who was possessed of ordinary intelligence and foresight, for the most cursory examination of the history of the case, and its official records, will disclose the falsehood and impale the falsifier.

After reciting the well-known fact that in 1892 the Reading, Lehigh Valley and Jersey Central, coal carrying roads, undertook to form a combination, it goes on to allege that Governor Pattison received a complaint against this combination, and "refused to interfere;" it characterizes this neglect on his part as "a black and damnable record."

Let us now see and prove how quickly this lie can be nipped. Twenty-four hours after the first notice of this combination was brought to the attention of Governor Pattison he referred it to Hon. W. U. Hensel, then attorney general of the state. That official immediately summoned the companies complained of before him; he gave them a fair and impartial hearing, and, at the conclusion of it, held that the spirit, if not the letter, of the constitution, had been violated; he immediately went into the courts of Dauphin county and filed a bill in equity against all the companies complained of; he required them to answer, and the various steps of this litigation are thus pointed out on page 15 of his official report to the general assembly of the state at the session of 1893.

Independent Republicans care nothing for the decision of the Dauphin County court concerning the Union party ticket. They propose to vote straight for Pattison and Guthrie, a hundred thousand strong.

Neither Pennypacker nor Penrose is the kind of "pen" that Pennsylvania needs.
