Last winter while Wm. Blosser and Mr. Richey were coming home from camp they came across a bear at the Underwood mill and killed it with a pine knot. Mr. Richey secured the hide and had it tanned. This winter the hide was sent to him boxed, and left at his saw mill. He opened the box, took out the hide and placed it in his satchel, unknown to his hands, nailed up the box, and left on the dinky for Millroy. Lewis Faust noticed the box and told Walter Garrity of it. Mr. Garrity suggested that Mr. Faust get a truck on the track, load the box and follow the dinky. This Mr. Faust did; the grade being heavy the truck gained such a terrible velocity of speed that Mr. Faust almost lost his breath. After running several miles he thought he would examine the box, but found nothing in it. He finally succeeded in stopping the truck, reversed the lever and commenced an uphill job pushing the truck back again, counting the ties and naming all the dams along Laurel Run, arriving at Patrick Garrity's tired and worn out but able to eat a good supper, which Mr. Garrity had prepared for him. Mr. Faust did not sleep well that night for dreaming of run-away trucks and bear skins.

Pennsylvania has eight Grange Mutual Fire Insurance Companies carrying risks aggregating over \$15,000,000. One of the conditions for admission in all of them is that the insured must be a member in good standing in a Subordinate Grange. Some of these companies have been doing business more than a quarter of a century. The aggregate cost has been about one half of what the same class of risks costs in other companies. This is practical and profitable cooperation.

FORTNEY ON SCHOOL APPROPRIATION.

Lessening of Tax Levy on Account of Increased Appropriation is Not Contrary to Act.

"The rural districts have a right, under the act appropriating \$5,000,000 annually to school purposes, to lessen the tax levy." That was the substance of an address delivered by Col. D. F. Fortney before the State Association of School Directors, last Friday, in Harrisburg. Colonel Fortney dwelt on the fact that the platforms of the two great parties in the state plainly stated the appropriation for school purposes should be for the sole purpose of lessening rural local taxation, and not to increase salaries, school facilities, etc. The charge that rural districts are misappropriating the school funds granted by the state was emphatically denounced as false.

The speaker continued his argument by saying that the whole of the \$5,000,000 should, however, be applied without lessening the tax levy for school purposes; the grand sum was not too much aid from the state. The striking point that the speaker made was that the legislators should come to the rescue of the rural districts by lessening the burden of taxation in some direct way, and thus permit school districts to use the school appropriation for school purposes.

The view held by Superintendent Gramley on the minimum salary bill was that the passage of the law would work a hardship for some of the Centre county rural districts. As evidence of proof of his assertion, he pointed to the districts of Curtin and Taylor townships, where the average salary paid is \$32.00 and about \$29.00 respectively, and the tax eight and ten mills respectively, for school purposes alone. While he favored the best wages a district could afford, in order not to make the measure burdensome, a sliding scale should be provided.

A resolution adopted asking that an enactment be passed by the legislature whereby borough High Schools will receive a proportionate share of the appropriation for township High Schools, where the same are attended by township scholars. The advocates of the measure argued that in most boroughs High Schools were already established and that the districts adjacent thereto should not be denied the privileges afforded by these institutions simply because they were not the creature of the township.

MILL HALL VISITED BY FIRE.

Double Brick Residence of C. A. Snyder Destroyed and Kyler House Damaged.

Early Thursday morning of last week fire was discovered in the residence of Charles Snyder, at Mill Hall. Mr. Snyder and George Powers had attended a social gathering in the evening and returned home about one o'clock. About an hour afterwards Mr. Powers was awakened by the smell of smoke. He called Mr. Snyder and upon investigation found that there was fire in one of the bed rooms.

An alarm was given and the fire company quickly responded. By the time of the arrival of the firemen the fire had gained much headway, barely giving the occupants time to make their escape.

From the Snyder residence the flames rapidly communicated to the Kyler hotel, entirely gutting that structure, the inmates only being able to secure their clothing. The furniture and fixtures were entirely destroyed. The flames spread to the residence of Postmaster Stover and partially destroyed it.

Snyder's loss is \$2,300 covered by \$1,800 insurance. The loss to Landlord Curry is \$2000 with \$1200 insurance. The Kyler House was owned by Aaron Kyler, of Lock Haven, whose loss is \$5000 with \$2000 insurance. Stover's loss is estimated at \$300.

Tendency of the Times. The tendency of medical science is toward preventive measures. The best thought of the world is being given to the subject. It is easier and better to prevent than to cure. It has been fully demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy. Pneumonia always results from a cold or from an attack of influenza (grip), and it has been observed that this remedy counteracts any tendency of these diseases toward pneumonia. This has been fully proven in many thousands of cases in which this remedy has been used during the great prevalence of colds and grip in recent years, and can be relied upon with implicit confidence. Pneumonia often results from a slight cold when no danger is apprehended until it is suddenly discovered that there is fever and difficulty in breathing and pains in the chest, then it is demonstrated that pneumonia, one of the most dangerous diseases that medical men have to contend with, can be prevented by the use of Chamberlain's Cough Remedy as soon as the cold is contracted. It always cures. For sale by C. W. Swartz, Tusseyville; F. A. Carson, Potters Mills; C. J. Finkle, Spring Mills.
