There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional at treatment. Hall's Catarrh Quib, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in desease from 10 dreps to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J. ## THE PINKHAM CURES

ATTRACTING GREAT ATTENTION AMONG THINKING WOMEN.

Mrs. Frances Stafford, of 243 E. 114th St., N.Y. City, adds her testimony to the hundreds of thousands on Mrs. Pinkham's files.

When Lydia E. Pinkham's Remedies were first introduced skeptics all over the country frowned upon their curative claims, but as year after year has rolled by and the little group of women who had been cured by the new discovery has since grown into a vast army of hundreds of thousands, doubts and skepticisms have been swept away as by a mighty flood, until to-day the great good that Lydia E. Pinkham's Veg-table Compound and her other medicines are doing among the women of America is attracting the attention of many of our leading scientists, physicians and thinking people.

By the provisions of a bill introduced in the Senate by Mr. Scott, of Philadelphia, the city of Philadelphia will be enabled to accept the Andrew Carnegie offer toward the establishment and maintenance of free libraries. The bill is a supplement to the act of 1895 for the establishment of free libraries, and authorizes cities of the first class to enter into contracts and agreements with the donors of funds for the erection of free libraries or branches and to provide sites for the erection and funds for the maintenance thereof. Contracts relative to the management of the libraries may be authorized by Councils to be executed by the Mayor

She Had an Aim in Life.

"Penelope, have you any plans for the future?"

The father, a distinguished physician, looked sternly at his thirteenyear-old daughter as he asked this question.

"Yes, sir," she answered.

"You say it makes you homesick to stay away from home, Penelope. That is a consideration hardly worth mentioning. Homesickness soon passes away. Your sister is in her last year at the college to which I wished to send you, and you will not be alone, at least for a year, and at the end of that time you ought to be able to get along nicely by yourself."

Penelope tapped the floor impatiently with her foot.
"I won't go, papa," she declared.
"There is no use talking about it. I'd rather die!"

"You are growing up, Penelope," sighed the good doctor, "apparently without any idea of the value of time or the earnestness and reality of life. You don't care for useful books; you do nothing to improve your mind; you spend your hours in frivolity; you seem to float idly along as if there was no serious end or aim in living except to get what selfish pleasure you can get out of it. Yet you say you have plans for the future. What are they?"

"I am going to be a society lady," said Penelope.

The business methods of insurance companies are not at all to the liking of a shrewd old German farmer with whom a certain agent had some dealings. The house of the farmer, insured for a thousand dollars, had burned down. The privilege of replacing a burned house is reserved by insurance companies, and the agent, having this in mind, said to the farmer:

"We'll put you up a better house than the one you had for six hundred dollars."
"Nein!" said the farmer, emphatic-

ally. "I vill haf my one tousand dollar or notings! Dot house could not be built again for even a tousand."
"Oh, yes, it could," said the insurance man. "It was an old house. It doesn't cost so much to build houses nowadays. A six-hundred-dollar new house would be a lot bigger and
