## FIRST OF ALL EVICTIONS.

Magyar Version of the Expulsion From the Garden of Eden.

Among the folklore of the peasantry of Roumania and some of the adjoining Magyar states of eastern Europe is found the story of the expulsion of our first parents from the garden of Eden. It runs thus:

When Adam and Eve fell, God sent Gabriel, the Magyar angel, to turn them out of Eden as a punishment for their sin. Gabriel was received most courteously, food and drink of the best being set before him. Now, Gabriel had a kind heart and took pity upon the poor folk and would not accept their hospitality, remembering his errand. So he returned and begged that some one else be sent to evict the sinners, as he really could not do it. The Raphael, the Roumanian angel, was sent and was received as Gabriel had been. He, however, was very fond of a good dinner, and so he sat down

and thoroughly enjoyed himself. The feast over, he told the erring pair his errand. They at once began to weep most piteously and beg for mercy Their bitter sorrow so touched his after dinner heart that he, too, returned and asked that some one else be sent, as he could not possibly turn out the poor folk after accepting their hospital-Ity. Then it was that Michael, the German angel, was sent. He was received as the others by the trembling pair and treated even more sumptuously. He sat down and enjoyed himself till the last morsel of food had vanished and there wasn't a drop of liquor left. Then he arose, and, turning to his host and hostess, said, "Now, then, out you go, and be quick about it." Most piteously did Adam and Eve beg at least for time, even reminding him that he had partaken of their bread. All in vain. Thus it was that our first parents were driven out of Eden.

# BULLETS AS EVIDENCE.

#### Odd Facts Developed by Their Prominence In Murder Trials.

The important part played in many murder trials by a flattened and misshapen bit of lead or steel, once in the form of a bullet, often leads to the development of some curious facts, says the Baltimore American. A leaden bullet will lose appreciably in weight by being fired, and the form of the barrel may tend to reduce its size. In a rifle some of the lead is taken off by the grooves. The friction also heats and tends to partially melt the outside of the ball, and because of this it changes its shape in the air.

One peculiar fact about a builet is that it will very often make a wound of entry smaller than the projectile itself | ericksburg battle and lost heavily, aleven in so brittle a substance as glass. Another strange fact about a bullet is that it will often pass through intervening clothing, making a hole that can a steel vest or plate of light steel made hardly be noticed, and yet carry on its so as to conform neatly to the outlines

Continued from first page. assaults and repulses followed each

other in rapid succession till six thousand Union soldiers had gone down before it, and night put an end to the useless butchery.

The Union Army lost twelve thousand men, and gained nothing, then retreated over pontoon bridges, under the protection of our guns in the forts Old Corn... New Corn on Stafford Heights, to their former camps on the north side of the Rappahannock.

For five days the 148th shifted around, during which time we were Better without tents and made no effort to Lard. shelter ourselves; though the weather Potatoe was very cold, the ground frozen hard Shoulder ... Ham. and show flakes flying now and then, we slept on the ground with one blanket to each man. The nights were so cold that the water freezing in our canteens burst great numbers of them.

a hungry day for us; we had nothing to eat, and yet it was an exceedingly busy day for our regiment. Very early in the morning a winter camp was located and laid out in the woods and stoves, harness, hay, furniture, etc. we went to work in good earnest, building "winter quarters." This was the busiest day we had yet in war, and the sound of axes and falling trees by a thousand men, was an interestby a thousand men, was an interesting racket to hear. We got along rapidly and by night we had our A tents plements. standing on log walls, three feet high and the door, reaching to the upper and complete set of farm implements. log was two and a half feet high, and we moved into them. In a few days more we had them tight, the spaces between the logs "chucked and daubed" with mud, a triangular wooden chimney at one end heavily plastered Centre Hall. with mud on the inside, eight feet high, with a barrel on top to give it draft and a cheerful fire burning in it.

ment, about fourteen feet long, seven feet wide and ten feet high under the ridge pole; each sheltered twelve soldiers, with all their trappings, cloth- plements ing and arms. When we were all in to sleep at night there was not an inchof room to spare. Pine twigs covered the ground and served the double purpose of carpet during the day and mattress at night.

Near us was encamped the 13th Vermout Regiment of volunteers, nine

months men, and they were, collectively, the most intelligent and refined body of men I saw in the army. They were largely college men and students. They were in the thickest of the Fredthough they were in "armon" (partly) many of them had worn, in the battle,

# Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, dis-courages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order

or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold

by druggists, in fiftyby druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail sample bottle by mail free, also pamphlet tell-Home of Sramp Root. ing all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address, Binghampton, N. Y., on every

bottle.

point a circular piece of cloth. The carrying of bits of clothing, hair or dirt into wounds in such a manner greatly enhances the dangers of peritonitis. Were it not for this latter contact the bullet would not be nearly so dangerous, as its rapid flight and heating make it practically sterile.

Blackened edges of wounds are more bullet, although the ball with a lead tip could also produce this result. Regarding powder stains, smokeless or otherwise, nothing of great value is to be gained when the shooting occurs at a distance greater than twelve or fifteen feet. At a recent trial a doctor stated that from powder marks on the face he judged that the shot had been fired about the defeats they gave our army. by the prisoner himself.

### His Mother Took No Chances.

She was a portly dame, with florid complexion and voluminous skirts. She was walking majestically down Twenty-third street, looking the picture of in force, come down toward the river like a dog chain, but instead of the regulation poodle, pug or St. Charles spaniel trotting along at the other end was a small boy of perhaps five years, and whenever fascinated by the al. forts would be fully manned and lines swered the mute injunction .- New York | the forests and hills which sheltered Times.

#### Moon Influences.

Many superstitious beliefs as to the "influence" of the moon still remain. In some localities it is believed to be unlucky to be empty handed when one first beholds the new moon, and among the same people having silver in the hands or gold in the pockets is a "good sign." If one is about entering upon an important undertaking, he had best Grand Divisions, each about the same tween "new" and "full" moon.

Failure.

"I thought Spoonamore was going to marry Miss Garlinghorn, but I see she has let him get away."

"Yes; her father didn't appear to be at all anxious for the match, and her lost him on account of bad team work." -Chicago Tribune.
