The sensational rubbish mailed from Bellefonte to the city newspapers a day or so after the recent fire in this village is nothing but a tissue of falsehoods and vile fabrications from beginning to the end. That a reign of terrer existed here, making confusion worse confounded, that the village was nightly patrolled by an armed guard is simply unmitigated nonsense, there is not a particle of truth in the statement. And then to mix the postoffice with this vile clap trap, that the office is boycotted, people are dissatisfied, and mail their communications at the station is the veriest bosh. No body is dissatisfied, and has not been. Mr. Krape is just as popular as ever and it is acknowledged that Spring Mills never had a more courteous and obliging post master. The fact is, the entire communication from Bellefonte simply contains a mass of lying rumors and more lying statements, and the correspondent who would deliberately pen such villainous rubbish for publication is either a fool or a knave.

Real Estate Versus Modern Paper Evidences of Wealth.

What a wonderful change has passed over our entire conception of the word 'property!" The writer is old enough to remember when nothing except land and houses were regarded as true property, but now a man may be a millionaire and own nothing that he can see. A few pieces of paper in a box at his banker's or, better still, an inscription in a book of which he knows nothing except that it exists constitutes him a man rich beyond the dreams of avarice, and, moreover, a man who has not to guard his property and who can realize itwhich the rich man of old could not do -in half an hour. It is a very curious change and one the full results of which we have yet to perceive, but we suspect that among them will be an immense increase in the amount of wealth at the disposal of industry and enterprise and an astonishing decrease in the permanence of the wealthy families. It is so easy to spend shares or bonds, and there are so few to notice whether you spend them or not. It took years to spend a great landed estate, but a fortune in bonds may disappear in a year of unlucky speculation or in the early lifetime of one spendthrift heir.-London Spectator.

said a man who saw the fun. "At a dinner given in his honor Lord Lonsdale told many thrilling stories, and an audible 'oh!' went around the table when he finished telling of a petrified forest in Africa, in which he found a number of petrified lions and elephants. As the Englishman lapsed into silence and the applause sank to an echo all looked to Colonel Ochiltree to defend his nationality and beat this petrified lion story.

" "Texas,' said the colonel after a pause, 'has its petrified forests; but, although they contain no petrified lions, they are remarkable for having petrified birds flying over them.'

"'Nonsense!" said Lord Lonsdale. 'That is impossible. Such a phenome non is contrary to the laws of gravita-"'Ah, that's easily explained,' re-

Danger of Colds and Grip. The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an at-tack of the grip in less time than any The sick are all able to be around other treatment. It is pleasant and safe to take. For sale by C. W. Swartz, Tusseyville; F. A. SEVERE ATTACK OF GRIP Cured by One Bottle of Chamberlain's Cough Remedy.

"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, Editor of the Enterprise, Shortsville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed tha vantage of the fine spring weather and in the briefest interval the coug would pass off and I would go to sleep perfectly free from cough and its ac companying pains. To say that the remedy acted as a most agreeable sur prise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I had never tried it for such a purpose, but i did, and it seemed with the second at tack of coughing the remedy caused i to not only be of less duration, but the pains were far less severe, and I had not used the contents of one bottle be fore Mr. Grip had bid me adieu."
