

can't sleep, can't eat. it's hard to bear. Thousands of ach ing backs have been relieved and cured. Reople are learning that back ache pains come from disordered kid neys, that Doan's Kidney Pills cure every kidney ill, cure bladder troubles. urinary derangements, dropsy, dia betes, Bright's disease. Read this tes timony to the merit of the greatest o' kidney specifics.

J. W. Walls, Superintendent of Streets of Lebanon, Ky., living on East Main street, in that city, says:

"With my nightly rest broken, owing to irregularities of the kidneys, suffer ing intensely from severe pains in the small of my back and through the kid neys, and annoyed by painful passages of abnormal secretions, life was any thing but pleasant for me. No amount of doctoring relieved this condition, and for the reason that nothing seemed to give me even temporary relief I became about discouraged. One day) noticed in the newspapers the case of a man who was afflicted as I was and was cured by the use of Doan's Kidney Pills. His words of praise for this remedy were so sincere that on the strength of his statement I went to the Hugh Murrey Drug Co.'s store and got a box. I found that the medicine was exactly as powerful a kidney remedy as represented. I experienced quick and lasting relief. Doan's Kid ney Pills will prove a blessing to all sufferers from kidney disorders who will give them a fair trial."

A FREE TRIAL of this great kidney medicine, which cured Mr. Walls, will be mailed to any part of the United States on application. Address Foster-Milburn Co., Buffalo, N. Y. For said by all druggists, price 50 cents per box.

Women as Dispensers of Medicine

Although the outside world knows but little about it, there are some hundreds of women who spend their working hours in mixing drugs and dispens-

ing medicines. Some have passed on and become chemists, the first woman chemist in London having qualified as long ago as 1875. But there are many who are simply dispensers in the dis-pensing rooms of the large hospitals or helping private doctors, or employed by the large dispensing chemists and in the laboratories of large dyeing and chemical works. To a great extent these women are the daughters of medical men, for the fact that the portals of this profession were open and, comparatively speaking, were easy for women to enter, has hardly been realized until lately by others.

Many apothecaries say women make much better dispensers than men; fo: they are neater and take up the profession more as a life work. Men who have failed in their examinations fall

COMMERCI L REVIEW General Trade Conditions.

R. G. Dun & Co.'s "Weekly Review of Trade" says:

Cold and wet weather in many sections of the country retarded retail trade in spring and summer wearing apparel. Jobbers also felt the effects in a lessened activity, and agricultural operations made irregular progress. Production of farm staples may not be curtailed by the later planting, although in some cases there will be greater danger of loss at the end of the season through early frost. Traffic conditions are steadily improving, yet some com-plaints are still heard, and further additions to motive power and terminal facilities must be made if another season of congestion is to be averted at the next time of pressure.

Textile mills have not received any material increase in amount of new business, and there is evidence that the exceptionally heavy transactions of January and February provided sufficient supplies for present needs. No improvement has occurred in the market for men's heavy-weight woolens and there is prospect of an unusually early opening of spring lines for next year in order to maintain activity at the mills. Failures for this week numbered 212

in the United States, against 261 a year ago, and 16 in Canada, compared with 24 last year.

ROBERT R. ROBERTS M. D

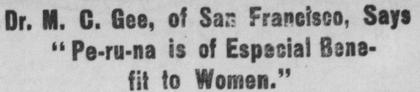

...... Robert R. Roberts, M. D., Wash-ington, D. C., writes:

. Through my own experience as well as thit of many of my ? friends and acquaintances who have been cured or relieved of catarrh by the use of Hartman's Peruna, I can confidently recommend it to those suffering from such disorders, and have no hesitation in prescribing it to my patients. "-- Robert R. Roberts. annummunum

CONSTANTLY increasing number of want to spend any more money on medi physicians prescribe Peruna in their cines unless I could assure her relief. A CONSTANTLY increasing number of physicians prescribe Peruna in their regular practice. It has proven its merits so thoroughly that even the doctors have overcome their prejudice against so-called patent medicines and recommend it to their patients.

Peruna occupies a unique position in medical science. It is the only internal medical science. It is the only internat systemic catarrh remedy known to the medical profession to-day. Catarrh, as everyone will admit, is the cause of one-half the diseases which afflict mankind. Catarrh and catarrhal diseases afflict one-half of the people of United States.

F. H. Brand, M. D., of Mokena, Ill., uses Peruna in his practice. The following case is an example of the success he has through the use of Peruna for catarrh.

tomach, kidneys, bladder and other pelvie gans have been cured by Peruna. Peruna is able to cure catarrh wherever may be located by its direct action upon e mucous membranes. Catarrh means flamed mucous membranes. Peruna acts once to cleanse and invigorate the caorbit to cleanse and might the former of the mucous membrane of the matter where it may occur in the ody. Its action is the same on the aucous lining of the nose as on the aucous lining of the bowels. It cures the atarrhal inflammation wherever it may

Dr. R. Robbins, Muskogee, I. T., writes: "Peruna is the best medicine I know of for cough and to strengthen a weak stomach and to give appetite. Beside pre-scribing it for catarrh, I have ordered it for weak and debihtated people, and have not had a patient but said it helped him. It is an excellent medicine and it fits so many cases.

"I have a large practice, and have . chance to prescribe your Peruna. I hope you may live long to do good to the sick and suffering."

We say Peruna cures catarrh. The peo-ple say Peruna cures catarrh. Prominent men and women all over the United States from Maine to California do not hesitate to come out in public print to say that Peruna is what it is recommended to be, an internal, systemic catarrh remedy that cures catarrh wherever it may be located.

Dr. M. C. Gee's Experience.

Dr. M. C. Gee is one of the physicians who endorse Peruna. In a letter written from 513 Jones street, San Francisco, Oal., he savs:

"There is a general objection on the part of the practicing physician to advocate patent medicines. But when any one medicine cures hundreds of people, it demonstrates its own value and does not need the endorsement of the profession.

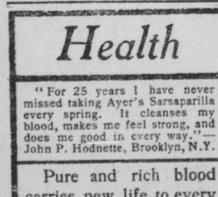

"Peruna has performed so many wonderful cures in San Francisco that I am convinced that it is a valuable remedy. I have frequently advised its use for women, as I find it insures regular and painless menstruction, cures leucorrhoea and varian troubles, and builds up the entire system. I also consider it one of the Anest catarrh remedies] know of. I heartily endorse your medicine."-M. C. Gee, M. D.

Women are especially liable to pelvie atarrh, female weakness as it is commonly alled. Especially in the first few weeks of warm weather do the disagreeable of warm weather do the disagreeable symptoms of female weakness make them selves apparent. In crisp, cold weather chronic sufferers with pelvic catarrh do not feel so persistently the debilitating effects of the drain upon the system, but at the approach of summer with its lassitode and tired feelings, the sufferer with pelvic ca tarrh feels the need of a strengthening tonic. onic.

two weeks. The ef-fects were wonder-ful. The cast-down look she had when I first saw her had left her and a smile adorned her face. She told me she felt a different Peruna is not only the best spring ton Adorned her face. Feruna is hot only the best spring tome she told me she felt a different woman, her hearing was improved and her eyes did not trouble her any copy of 'Facts and Faces.' That will sure-tor incertain the top of top of the top of top of the top of top of the top of top of the top of to s was improved and

back upon dispensing, but women go in for it, and you know women are naturally more careful in little things; they are more accurate. This is no doubt why they get on so well in this profession. They are much neater than men are; you go into a man's dispensary after a busy morning, perhaps after a rush, and you wouldn't be able to find a thing-he wouldn't himself-not a thing; but if it is a woman who does dispensing you will soon see the difference. Every bottle will be in its place, everything neat, spick and span, and ready for use in a moment. time is wasted there in a glorious hunt around for the simplest thing.

The yearly gross earnings of the United States Steel Corporation are approximately equal to the gross rev-enue received by the United States government.

The Saying of a Sage

Of the distinguished authors of Persia none perhaps has enjoyed a wider popularity than Sadi, who lived in the thirteenth century. He was a great traveler and a close observer, and his anecdotes and short stories are described as being founded on his own experiences and observances. In "Persian Poetry for English Readers" Mr. S. Robinson quotes the following from

Sadi's writings:--A pupil said to his instructor, "What am I to do, for the people incommode me with the frequency of their visits to such a degree that their conversation

produces a great distraction of my valuable time?" The teacher replied, "To every one who is poor, lend; and from every one who is rich, borrow. They will not

come about you again. Another example embodies excellent advice. A silly fellow, having a pain in his eyes, went to a farrier and asked him for a remedy. The farrier applied to his eyes something which he would have given to an animal, and it blinded him, upon which an appeal was made to

he magistrate. The magistrate said,-This is no case for damages. It is plain that this fellow is an ass, or he yould not have gone to a farrier." "No man of enlightened understandig will commit weighty matters to one mean abilities," is another of his ut-
