### Pleasures of Travel.

One of the charms of travel, says a well-known writer, is to encounter people or scenes which remind us of home. A Cape Cod man who left his native port many years ago, and had spent the greater part of his time in England, recently went to Kingston. Jamaica.

One day, while waiting for a train to Port Antonio, he noticed a tall, young

man, evidently a stranger. "He was white and I was white, and that was enough,' 'said the Cape Cod man, in telling the story. "I spoke to him, and asked if he was

as far from home as I was, mentioning London as my home. He responded that his home was San Francisco, and we were soon exchanging confidences. He said his people moved to California four years before from Massachusetts. I asked him what place in Massachu-setts, and he said Wellfleet; said he was born in Wellfleet. I asked him in what part of the town his folks had lived, and he said the southern part, and I could see he was smiling at my curi-

osity. "Was your place anywhere near the old Cromwell place?" said I.

"He looked at me in astonishment. 'Why yes,' said he, 'the very nex'

farm "Well,' said I, 'then your name is Jones. Mine is Cromwell, and I own the old place, and some of my folks live in it.'

'You can imagine whether we felt acquainted or not after that. His father and I had been boys together. Well, sir, meeting young Jones was the most pleasant part of my trip to Jamaica. You can't tell what good fortune may befall you when you start on a journey.

We seek God afar off, in projects perhaps altogether unattainable, and we do not consider that we possess Him now in the midst of confusion, by the exercise of simple faith, provided we beat humbly and bravely the annoyances which come from others, and our imperfections.

A man may become weary of daily toil but it does not produce as much depression as does daily idleness.

COMMERCIAL REVIEW.

# Veneral Trade Conditions.

R. G. Dun & Co.'s "Weekly Review of Trade" says; Trade responded promptly to better weather in many sections of the country, notable activ ity ap etting in seasonable lines of wearing apparel, yet wholesalers report conservatism as compared with earlier months this year, although business in more active than it was a year ago Some branches are still backward and there is more or less complaint regarding collections, while renewals are fre-quently asked. Outdoor work is vigorously prosecuted, agricultural commun ittes endeavoring to make up lost time and structural undertakings call largue quantities of lumber and build ing materials, sustaining quotations Labor problems are being solved with encouraging celerity. Lake navigation has had the expected effect in reducing rail freight congestion, and shipments are more prompt, yet there is no diminution in the splendid increase of gross railway earnings, which show a gain of 13.1 per cent. over last year's figures for April thus far, and 25.3 per cent over 1001.

To become a mother-more especially the mother of a strong, healthy boy-was the height of glory for the faithful woman of the good old Bible days. Even now, when the good old Bible days. Even how, when maternity is not esteemed as of yore, the mother of healthy children is an object of admiration, and sometimes envy, by her neighbors.
