UNIVERSITY INN BURNED. Flames Wipe Out the Large Hotel

Sunday with his family in this place. Saturday Forenoon. The University Inn, at State College was totally destroyed by fire Saturday at eleven o'clock a. m. The fire originated on the third floor, but just how remains a mystery. One theory is Mrs. Lottie Harter on East Main street that the fire was caused by an overcharged electric light wire; another Mrs. Krape, of Altoona, is spending opinion advanced is that the flames were due to careles-ness on the part of some occupant of a room on the third Miss Margaret Weaver visited floor. Whatever the cause of the fire may have been, it was only a short Miss Sallie Snook and her brother time after its discovery until the en-Wallace drove to Sugar Valley on tire wooden structure was a mass of flames. Little of the contents of the building were saved. The college men who roomed there hastily gathered up an arm-ful of their most valued property and ran from the building. Some called on some of his friends in this

The Inn was the property of Phil. D. Foster, treasurer of Centre county, and was erected by a company of local capitalists about a dozen years ago. Mr. Foster had insurance, it is said, to the amount of \$12,000, on the building and fixtures. Frank Kennedy, the host, had \$600 insurance, which was only recently secured.

The University Inn originally cost about \$25,000, and was sold by the stock holders to Mr. Foster six years ago for a little less than one half that sum. While the investment was not a particularly profitable one, the loss of the hotel will greatly interfere in the entertainment of guests during commencement.

Though our regimental and company camps were just as large, with the same number of tents, there were many vacant places inside. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits
