At the Westtown Friends' Boarding School the corner-stone of the new gymnasium was laid. The exercises were conducted by the faculty and class of 1903, the entire school participating

The Lehigh Valley Coal Company distributed about \$8000 bonus money to its 700 employes at Primrose Colliery. Mahanoy City, being all back money.

Dr. B. Frank Klugh, a prominent physician of Florin, died from injuries received by being struck by a freight train. He was a native of York county. While removing a kettle of water from a wood fire the clothing of toyear-old Helen Koser, of Fruitville, be

came ignited and she was fatally burned Elam D. Hurst, for forty years a su-perintendent of the Farnum Cotton Mill, Lancaster, is dead, aged 75.

COMMERCIAL REVIEW.

General Trade Conditions.

R. G. Dun & Co.'s weekly review or trade says:

Warmer weather has made it possible for the retail trade to regain part of the earlier losses in volume of transactions, and the level of quotations for staple lines of merchandise is well maintained. Wholesale trade in seasonable goods is quiet, although there is more or less supplementary business, and jobbers report increased activity in several lines of wearing apparel. Clothing manufacturers are busy on Fall samples, which are unusually late. Furniture and harness factories are notably well supplied with orders and there is no evidence of dullness in machinery or hardware.

At most points there are indications of improvement in mercantile collecthe favorable progress of farm work having a good influence at the interior, while heavy sales of fertilizers testify to the extensive preparation for large crops. Industrial conditions would be exceptionally encouraging were it not for the vast army of men voluntarily idle. Railway earnings continue to show the usual gain, May figures thus far surpassing last year's by 13.4 per cent., and those of 1901 by

Failures this week were 196 in the United States, against 228 last year, and 13 in Canada, compared with 17 2 year ago.

#### A DANGER SPOT.

A dangerous spot for pain is the small of the back; it tells of kidney ills, as do most pains and aches in the back. Kidney ills begin with backache and end with Diabetes, Dropsy, Bright's Disease. Cure Kidney and Blad-

der troubles before they reach the serious stage. Read how easily it can be W. J. Hill, of 40 South Union street. Concord, N. C., proprietor of hardware and harness store, Justice of the Peace, and one of the best known residents of that city, says: "Doan's Kidney Pills proved a very efficient remedy in

my case. I got a box at the Gibson Drug Store and used them for disordered kidneys and backache, from which I had experienced a great deal of annoyance, trouble and pain. The kidney secretions had bothered me for a long while, were very irregular, dark colored and full of sediment. The Pills cleared it all up and I have not had an ache in my back since taking the last dose. My back is much stronger and my health generally is improved lic endorsement of the Pills, trusting that it may be the means of relieving

some other sufferer." A FREE TRIAL of this great kidney medicine which cured Mr. Hill will be mailed to any part of the United States Il druggists, price 50 cents per box.

#### Cold Water Poison Absorbing.

In connection with the subject of water, there is one peculiar property of that liquid with which every one should be made acquainted, and that is, its capacity for absorbing impurities, which increases proportionately the colder it gets. Hence, water that has stood in an insufficiently ventilated sleeping chamber all night is not only unpleasant, but positively injurious to drink, since it readily, absorbs the poisonous gases given off by respiration and the action of the skin. An ordinary pitcher of water, under such conditions, at a temperature of sixty degrees will be found to have absorbed during the night from a pint to a pint and a half of carbonic acid gas, and an increase of ammonia. Ice water is an objectionable drink at all times, but if it is indulged in, the vessel containing it should never be left uncovered in sleeping or sitting rooms, because at freezing point its capacity for absorbing these defeterious substances is nearly doubled.

Misunderstanding goes on like fallen stitch in a stocking, which in the beginning might have been taken up by

of derangement of the female organs until too late.

"I had terrible pains along my spinal cord for two years and suffered dreadfully. I was given different medicines, wore plasters; none of these things helped me. Reading of the cures that Lydia E. Pinkham's Vegetable Compound has brought about, I somehow felt that it was what I needed and bought a bottle to take. How glad I am that I did so; two bottles brought me immense re-lief, and after using three bottles more I felt new life and blood surging through my thins. It seemed as though there had been a regular house cleaning through my system, that all the sickness and poison had been taken out and new life given me instead. I have advised dozens of my friends to use Lydia E. Pinkham's Vegetable Compound. Good health is indispensiable to complete happiness, and Lydia E. Pinkham's Vegetable Compound has secured this to me.' -MRS. LAURA L. BREMER, Crown Point, Indiana, Secretary Ladies Relief Corps. - \$5000 forfelt if original of above letter proving genuineness cannot be produced.

Every sick woman who does not understand her ailment should write Mrs. Pinkham. Lynn, Mass. Her advice is free and always helpful.

ne to "Cascareta" for their wonderful composition-have taken numerons other so-called remedies ut without avail and I find that Cascarets relievo-nore in a day than all the others I have taken rould in a year."

#### The Man Who Found Himself.

The son of an immensely wealthy American, having graduated from college, according to a writer in The World's Work, went to Paris to study art. He worked hard in the Paris studios for three years. One day he made up his mind that he would never be a great artist, and that he would rather be a successful farmer than a fairly successful painter. Now-al-though still a young man-he has a model farm, covering ten thousand acres, in Illinois. He knows every foot of it, what it should produce, and he sees that it produces everything it should. He has built a magnificent house, in which not an ornament jars the finest taste. He goes to Europe every winter and studies European methods of scientific farming and cattle raising. He is developing the land as his fathers did before him. He employs scores of men; he helps the small farmers about him; he is likely to be great factor in the development of the State during the next few years. And this is the story of a young American who works for the love of it, and who is a great success because, anxious to do things, he knew when he had not found his work.

#### Planting Seeds by Cannon.

Nasmyth, a landscape painter of repute, was held in great esteem as a landcape gardener, and in this capacity helped to compose some of the finest park and forest scenery. The estate of then duke of Athol was disfigured by a great deal. I am glad to make a pub- an unsightly crag, the rocks of which were inacessible to climbers. happy thought Nasmyth determined to make a bold bid for success with a cannon, which was at hand. By his advice tin canisters were prepared, and loaded with tree seeds. Fired from the cannon's mouth, these novel shells burst on application. Address Foster-Mil-burn Co., Buffalo, N. Y. For sale by tered their fruitful contents among the rocky crevices. Nature carried on the work so cleverly begun, and in the course of years these barren heights were clothed and crowned with trees of luxuriant growth. Nasmyth's son, James, the Scottish astronomer, is said to have repeated the experiment with equal success.

There is any quantity of gold in the land, but we enjoy it most when the other fellow digs for it.

with PUTNAM FADELESS DYES. I'iso's Cure is the best medicine we ever used for all affections of throat and lungs.—Wm. O. Endsley, Vanburen, Ind., Feb. 10, 1909.

The trouble with the easy-going fellow is that it's so hard to get him started.

# Equal to the Occasion.

A periect dinner partner, one whom every woman loves to find assigned to her, was entertaining his fair charge with a curious story he had been told of domestic happenings in a circle he had not yet located. The story progressed with airy and good-natured comment on the part of the reciter, and great interest on the part of the audience of one. Finally the audience took the floor. "I only want to tell you Many women and doctors do not recognize the real symptoms diner-out. "Ah," he said graciously, Then I hope I have the particulars cor

# Light-weight Books.

Many book buyers, says a writer in the Youth's Companion, must have no-ticed the remarkable lightness of some f the volumes recently issued, especially from English presses. The paper, al-though of normal thickness, is singu-larly lacking in weight. Some Amercan books also begin to show this haracteristic. In some cases the rela tive loss of weight, as compared with lder volumes of equal size, amounts to hirty or forty per cent. The cause is the recent adoption for book-work of paper made of esparto-grass fiber. This paper lacks the smooth surface of the older kinds, but the relief afforded by the loss of weight in bulky books is very agreeable.

There is no harm in being respected in this world, as I have found out; and if you don't brag a little for yourself, depend on it there is no person of your acquaintance who will tell the world of your merits, and take the trouble off your hands.

# AUGA AUGUE

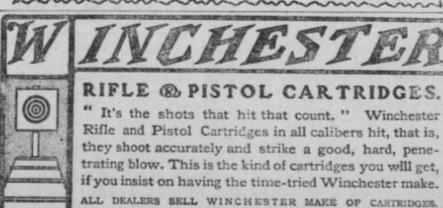

Oures Rheumatism and Sciatics by neutralising the acids in the blood and driving them out of the system. Is far better than the test blood purifier. All blood diseases yield promptly to this great remedy.

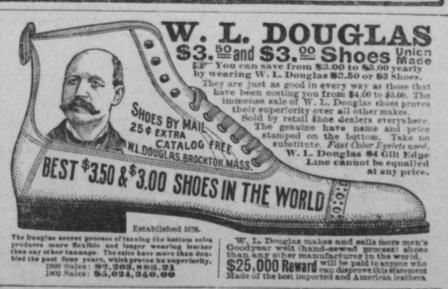

In the fail-winter of 1900 I was afflicted with Sciatic Rheumatism, so much so that I had to use a cane to assist me in waiking. Upon sitting down, there was no ease to my thigh, and the only position in which I could bear my leg was straight out in front of me, while in a reclining position. Realizing the nature of the disease, I began treatment at once, but received no relief until induced by Mr. J. T. Doster, of Greenville, of the drug firm of Bruce & Doster, to take "Rheumacide." I purchased a bottle from them under the guarantee of Mr. Doster that if 3 bottles did not cure me the money would be refunded. One bottle relieved me, and I have had no touch of rheumatism since that time.

W. A. Palmer, who lived here at the time (1901), was down with a severelizack of rheumatism, and for six weeks had to be turned in bed on a sheet. After the use of several bottles of RHEUMACIDE, he was pronounced well by the attending physician, who is a great believer in the efficacy of your medicing.

Yours truly, J. L. O. THOMPSON. Editor Pickens Sentedictine, Pickens, S. C.

Bobbitt Chemical Co., Baltimore, Id.

# Pat Outwits the Devn.

An Englishman, a Scotchman and an Irishman fell under the power of the Evil One, who condemned all three to be hung, but allowed them to select the tree on which the suspension was to be effected. While the English chose an Irishman selected a gooseberry bush. On the devil waving his hand, the three selected objects duty appeared and the representatives of England and Scotland were forthwith strung up. When it came to the Irishman's turn his Sa-tanic Majesty walked around the bush and said: "I'm afraid it is not tall enough," on which Pat exclaimed, "Oh, bedad, I'm in no hurry. I can just wait till it grows,"
